Dark dangers, startling secrets and a life transformed forever...The first book in the Parched Vampire Redemption series. I'm Clarity Parker, an advertising exec at a global marketing firm here in Manhattan. Despite appearances, I had a life before all of this. Yes it could've been construed as pretty lonely, and at times miserable-but it was doable and I was making it work. Then on one ordinary morning, I woke up and two things occurred. First, a mysterious fog rolled into Manhattan. It was so thick that I couldn't see my hand right in front of my face. Next, Baron Ford, the gorgeous man, who I thought I would never see again showed up out of nowhere and requested that I handle his multi-million-dollar account. Since that morning my life has never been the same, and what happened next changed it for the dangerous.\*\*\*Clarity Parker thought she'd never see Baron Ford again. Five years ago, they shared the date of her life and then he literally vanished into thin air. Now he's back and he's about to turn her world upside down. This book also includes "The Seventh Sister," a story about Zillael Decker, the seventh sister, before she enters "Quenched."\*\*\*The Seventh Sister Description:Zillael hates high school and the tiny one horse town she lives in. She has no friends and no social life, both by choice. But all of that changes the afternoon the fog rolls in and she finds herself face to face with three parched vampires. "Sweet Earth, feel my touch and know my love. Nurture well this seed I sow, bless the plant and help it grow" - Morel's prayer. It is 2150 and climate change continues uncontrolled. The economy is failing and people struggle to exist as the world parches. In the Eastern Appalachia Region of the old United States lies an abandoned coal mine converted into the town of Huntsman. Huntsman has been home to Morel all his life and he now serves it as a topper for the Huntsman Cooperative, growing crops up top in the parched soil and blistering sun. It is a job he enjoys - a better job than the sex trades he was expected to join as a Fem'an - a person born with genitals of both genders. Morel would love to see beyond the fields of Huntsman. He would love to see the ocean off Richmond and touch a living tree. But, although Morel sometimes gets angry enough to leave, he knows he will remain - the dedicated farmer caring for his crops. Huntsman doesn't grow corn. Corn seed is expensive and doesn't grow well in the parched Earth - rarely turning a profit. But Dr'sey is selling corn produced by the Blue Ridge Cooperative and

genetically modified to survive harsh conditions of the parched earth. The corn offers promise as it has offered humans for centuries. And while the corn holds promise for Huntsman, Dr'sey holds promise for Morel to travel beyond Huntsman and - perhaps - help him and his cooperative save Earth. The first of three adventures.

"When are you truly happy?" he asked. "When I am writing", she said. Creating worlds out of empty space, breathing life into blank pages, quenching Parched Paper with the ink of life. For I am mortal and will fade away into dust and air, but my words will live and breathe and my voice will echo across the void of time and space.... and thus will I live forever. This book is born out of that desire to leave behind the essence of me, in ink. Parched Paper, is a collection of poems expressing the many hues of human emotions- some clothed in subtlety, others laid bare in raw, naked verses yet all strung by the common threads of hope and life. This tapestry of words will resonate with you, and leave you smiling or pondering, long after you have shut its pages.

.In his first collection of poems, Kanwarpreet Grewal explores the complex relationships between love, beauty, pain and longing. He shows us that from the parched well of love you can still draw precious little droplets of verse. Verse that is timeless- verse that quenches but still leaves you thirsty for more.

**In sixteen-year-old Tessendra Rockwood's world, natural resources are at an all-time low. Most of the remaining supplies are funneled into Eden, known as the "powerful city of shining abundance," while citizens of the Badlands eat gelatinous gray porridge and drink reddish iron water. Tess was born an Edenite, but after the death of her scientist mother she decides to combat this inequality by joining a rebel group called Kudzu. Together they uncover a shocking government plot to carry out genocide in the Badlands using artificial intelligence. Unfortunately, Tess has some complicated ties to the project that test her loyalty. Robots, renewable resources, and romance get tangled together as Tess risks her life to bring justice to Eden. The record of the Eighteenth Georgia Volunteer Infantry Regiment can withstand a critical comparison with any regiment in the American Civil War, North or South. As warriors, the men of the Eighteenth Georgia could stand shoulder to shoulder with soldiers of any storied unit in US military history. In the three years, eleven months, and twenty days of the regiment's existence, the stubborn men in the ranks trained, marched, and fought from Camp McDonald (outside Atlanta) to Appomattox, burying their dead on battlefields in Virginia, Tennessee, Maryland, and Pennsylvania. The regiment's casualty rate was astounding, even by Civil War standards. By war's end, the butcher's bill tallied 162 men killed or mortally wounded in combat, 221 killed in accidents or lost to diseases, 340 wounded, 305 captured (most of whom were sent to Northern prisoner-of-war camps), and four missing and presumed dead. Only 55 men were left to stack arms when the Army of Northern Virginia was formally surrendered on April 12, 1865. The regiment's journey from Camp McDonald to Appomattox was paved with stunning victories, stinging defeats, and unfathomable hardships. Vermin, poor (or no) food, inadequate clothing and equipment, and lack of sleep sapped the men's strength and destroyed**

**their health-but not their discipline, morale, or aggressiveness. Most times cheerfully but sometimes stoically, the Georgians endured the physical and mental pains of destitution, disease, and death as they followed the regimental battle flag from Georgia to Virginia, North Carolina, Maryland, Pennsylvania, Tennessee, and West Virginia. They logged more than five thousand miles, zigzagging across mountains, hills, streams, rivers, swamps, farmlands, and woodlands. This marching and countermarching always portended more fighting and dying. The regiment participated or came under fire in forty skirmishes, engagements, battles, and other operations, suffering casualties in twenty-one of them. The Eighteenth Georgia was prominent in eight of twelve battles where Union forces suffered the most casualties during the war: Gettysburg, Spotsylvania, the Wilderness, Chancellorsville, Second Manassas, Cold Harbor, Fredericksburg, and Sharpsburg. The Georgians were on the field for two of the other major battles-Chickamauga and Petersburg-but were not engaged. The only two major battles they missed were Murfreesboro and Shiloh. Yet miles covered, battles fought, and blood shed are not the sole, or even the most decisive, factors that constitute greatness in a military unit. Some units may fight in obscurity, while others appear at a decisive time and place on the battlefield. Most regiments in Lee's army distinguished themselves on one battlefield or another. Some were prominent on multiple battlefields, thus earning the undying admiration and respect of Southern people. But when it came to helping "Bobby" Lee win a decisive victory or stave off a disastrous defeat, no regiment was more conspicuous than the Eighteenth Georgia. Its name is forever inscribed on the scroll of Confederate regiments that were in the right place, at the right time, and in the right formation to make a significant difference during the battles of Gaines's Mill, Second Manassas, South Mountain, Sharpsburg, Fredericksburg, Chancellorsville and Salem Church, Gettysburg, Wilderness, Spotsylvania Court House, and Petersburg. Through recollections of his own great-grandfather and from other firsthand accounts, Brigadier General Jerry C. McAbee, USMC (ret.), takes us on the journey of the Civil War soldier. We follow the decision making and strategy that led to the end of the war. We understand the mentality of battle-weary men following the directions of a desperate leadership. And we see the side of the Civil War often overlooked by history. This is the true story of a regiment of stubborn men from Georgia. One woman's journey to the bottom of the bottle—and back. In this tragicomic memoir about alcoholism as spiritual thirst, Heather King—writer, lawyer, and National Public Radio commentator—describes her descent into the depths of addiction. Spanning a decades-long downward spiral, King's harrowing story takes us from a small-town New England childhood to hitchhiking across the country to a cockroach-ridden "artist's" loft in Boston. Waitressing at ever-shabbier restaurants, deriving what sustenance she could from books, she became a morning regular at a wet-brain-drunks' bar—and that was after graduating from law school. Saved by her family from the abyss, King finally realized that uniquely poetic, sensitive, and profound though she may have been, she was also a big-time mess. Casting her lot with the rest of humanity at last, she learned that suffering leads to redemption, that personal pain leads to compassion for others in pain, and, above all,**

The Parched Garden continues the couples progression after Roses Amidst the Thorn. In Roses, we experience the birth, the spiritual co-existence and the unforeseen crumbling of the couples relationship. The couple finds themselves in a season of dryness. They now live in the wilderness of a broken relationship. They experience a place within themselves where they find no reprieve or solace. They dont understand what has happened and why God seems to have not helped them find answers to their questions. Though the separation has come, there exist a spiritual connection which continues to bind the couple. They are very much aware of the hurt and pride keeping them from reaching out to each other. Instead of forming a mutual bridge of communication, they begin to search within themselves looking for understanding and insight. They search for what has brought them to this place. They try to make sense of the devastation left behind; to understand the indifference of their families and close friends, to judge whether their shaken foundation is beyond repair. Finally, to grasp some insight that allows them to know that they will come through their experience. Knowing within themselves that forgiveness and reconciliation are possibilities the couple must endure the winter season of their relationship. At its end, they will either continue as a couple or part as individuals who have grown from this ordeal. In Gods silence towards them, He still draws them closer to Him. He brings them closer to The Living Water that can only quench the thirst of those who have dwelled in this spiritual wilderness. For in this wilderness, water is available to any who choose to dig deep enough! The Parched Garden is the internal spiritual struggle to keep digging for The Healing Living Water, so that we learn to nourish the spiritual gardens inside ourselves. We must learn to love ourselves as much as our heavenly Father loves us. Thereby allowing us to extend that love and forgiveness unconditionally to others! Lark

Safe drinking water is essential to daily life. Meeting that demand with bottled water is a luxury too far, argues Emma Jones. She is not a lone critic of the packaged water industry. However, this author looks to history for solutions to a major sustainability problem: in the design, management and use of the city. With original stories from London's archives, *Parched City* tracks drinking-water obsessions through a popular architectural history tale.

In these stories, which make an important contribution to the literary heritage of South Africa, we have a kind of marriage between P G du Plessis and Herman Charles Bosman. The style is eloquent, the picaresque characters unique and typical at the same time. The writer manages, within the limited space of a short story, to print a picture of his

characters' physical attributes as well as their personality traits. There are a number of stories that tell why certain people are the way they are. The content and the style of writing give the stories a delightful South African flavour in the evocative use of appropriate figurative language and symbolism. There is a good balance between narration and dialogue. Settings, where necessary, are vividly described, especially the arid landscape, the farms and the vegetation. The stories are all the more interesting and topical for their pithy comment on the ills of modern society and the allusions to problems in the New South Africa. They make compelling reading, for the outcome of each is invariably unexpected. The author has written a quartette of stories, the other three titles of the quartette being *Pivot of Violence: Tales of the New South Africa*, *Flakes of Dark and Light: Tales From Southern Africa and Elsewhere*; and *Just a Bit Touched: Tales of Perspective*. All make a very vivid and lasting impression.

The Harpers, guardians of liberty throughout the Realms, have sent an agent to counter the Zhentarim. If she can help this stranger win the trust of the sheikhs, perhaps he can overcome the tribes' ancestral rivalries and drive the invaders from the desert.

*devastatingly imagined near future: Unrelenting drought has transfigured Southern California into a surreal, phantasmagoric landscape. With the Central Valley barren, underground aquifer drained, and Sierra snowpack entirely depleted, most "Mojavs," prevented by both armed vigilantes and an indifferent bureaucracy from freely crossing borders to lush regions, have allowed themselves to be evacuated to internment camps. In Los Angeles' Laurel Canyon, two young Mojavs—Luz, once a poster child for the Bureau of Conservation and its enemies, and Ray, a veteran of the "forever war" turned surfer—squat in a starlet's abandoned mansion. Holdouts, they subsist on rationed cola and whatever they can loot, scavenge, and improvise. The couple's fragile love somehow blooms in this arid place, and for the moment, it seems enough. But when they cross paths with a mysterious child, the thirst for a better future begins. They head east, a route strewn with danger: sinkholes and patrolling authorities, bandits and the brutal, omnipresent sun. Ghosting after them are rumors of a visionary dowser—a diviner for water—and his followers, who whispers say have formed a colony at the edge of a mysterious sea of dunes. Immensely moving, profoundly disquieting, and mind-blowingly original, Watkins's novel explores the myths we believe about others and tell about ourselves, the double-edged power of our most cherished relationships, and the shape of hope in a precarious future that may be our own. This “ fiercely written and endlessly readable ” novel of a teenage girl in thrall to a magnetic—and terrifying—preacher who promises to save her dying town is “ a godsend ” (Entertainment Weekly). Drought has settled on the town of Peaches, California. The area of the Central Valley where fourteen-year-old Lacey May and her alcoholic mother live was once an agricultural paradise. Now it ' s an environmental disaster, a place of cracked earth and barren raisin farms. In their desperation, residents have turned to a cult leader named Pastor Vern for guidance. He promises, through secret “ assignments, ” to bring the rain everybody is praying for. Lacey has no reason to doubt the pastor. But then her life explodes in a single unimaginable act of abandonment: her mother, exiled from the community for her sins, leaves Lacey and runs off with a man she barely knows. Abandoned and distraught, Lacey May moves in with her widowed grandma, Cherry, who is more concerned with her taxidermy mouse collection than her own granddaughter. As Lacey May endures the increasingly appalling acts of men who want to write all the rules and begins to uncover the full extent of Pastor Vern ' s shocking plan to bring fertility back to the land, she decides she must go on a quest to find her mother no matter what it takes. With her only guidance coming from the romance novels she reads and the unlikely companionship of the women who knew her mother, she must find her own way through unthinkable circumstances. Possessed of an unstoppable plot and a brilliantly soulful voice, *Godshot* is a book of grit and humor and heart, a debut novel about female friendship and resilience, mother-loss and motherhood, and seeking salvation in unexpected places. It introduces a writer who gives Flannery O ' Connor ' s Gothic parables a Californian twist and who emerges with a miracle that is all her own. “ [A] haunting debut . . . This is a harrowing tale, which Bieker smartly writes through the lens of a teenager on the cusp of understanding the often fraught relationship between religion and sexuality . . . It's a timely and disturbing portrait of how easily men can take advantage of vulnerable women—and the consequences sink in more deeply with each page.”—Annabel Gutterman, *Time* “ Drawn in brilliant, bizarre detail—baptism in warm soda, wisdom from romance novels—Lacey's twin crises of faith and femininity tangle powerfully. Fiercely written and endlessly readable, a novel like this is a godsend. A–. ” —Mary Sollosi, *Entertainment Weekly* “ [An] absolute masterpiece . . . Imagine if Annie Proulx wrote something like *White Oleander* crossed with *Geek Love* or *Cruddy*, and then add cults, God, motherhood, girlhood, class, deserts, witches, the divinity of women . . . Terrifying, resplendent, and profoundly moving, this book will leave you changed.” —T Kira Madden, author of *Long Live the Tribe of Fatherless Girls*

"...[This] is not an autobiography...it is not a history...it is a simple story of [what] I have witnessed over a period of fifty-one years in one small section of a great state. I send it forth with a prayer that it may somehow bless the hearts of my readers." -- from the Foreword.
