Who is running China? Where does real power lie? In *Party Time*, Rowan Callick goes behind the scenes of reveal the workings of the county's political elite. This is a vivid, ground-breaking book about the world's most powerful institutions: the Chinese Communist Party. Nearly a century after its underground beginnings in a Shanghai schoolroom, the party today exerts remarkable control. Business deals require party approval. University courses reflect party doctrine. Party families amass incredible wealth while other enterprises are squeezed out. The party itself has over 80 million members, who range from lowly functionaries to unapproachable princelings. Why and how do people join the party? Who are its up-and-coming leaders, how are they educated and what visions do they have for China's future? Callick show that this is a pivotal time for the party. Far from mellowing, the new leadership is as focused as ever on strengthening its role and silencing dissent. But how prepared is it for the challenges it now faces, and what will its success or failure mean for China and the world? *Party Time* is a remarkable portrait of China today. Rowan Callick writes with a twofold strength: 1) the outstanding quality of his information drawn mostly from the source: the Chinese people themselves (officials and dissenters, millionaires and paupers, artists, students, country people, urbanites, old and young) and 2) a rare ability not to draw conclusions, but to raise the questions that truly matter, with a subtle mixture of clear-sightedness, awe and human compassion.' - Simon Leys

Born in London in 1930, Harold Pinter holds an undisputed place in the front ranks of contemporary playwrights. These two plays, Party Time and The New World Order, work in chilling tandem, each demonstrating the inevitable brutality that comes with a total conviction of right. Party Time is a terrifying portrait of the culpable indifference of a privileged class, of the cruelty engendered in its members by political disruption, and of their merciless extinction of dissent. At an elegant cocktail party, a stylish bourgeoisie discusses country clubs and summer homes, while below in the streets a sinister military presence protects them from the unmentionable horrors of poverty, vulgarity, squalor. In The New World Order, two interrogators harass a man whom they condemn for his questioning of received ideas, and whom we know only as threat to their closed vision of democracy.

A National Book Award Finalist A Coretta Scott King Author Award Honor Book A Michael L. Printz Honor Book A Walter Dean Myers Honor Book With passion and precision, Kekla Magoon relays an essential account of the Black Panthers—as militant revolutionaries and as human rights advocates working to defend and protect their community. In this comprehensive, inspiring, and all-too-relevant history of the Black Panther Party, Kekla Magoon introduces readers to the Panthers' community activism, grounded in the concept of self-defense, which taught Black Americans how to protect and support themselves in a country that treated them like second-class citizens. For too long the Panthers' story has been a footnote to the civil rights movement rather than what it was: a revolutionary socialist movement that drew thousands of members—mostly women—and became the target of one of the most sustained repression efforts ever made by the U.S. government against its own citizens. Revolution in Our Time puts the Panthers in the proper context of Black American history, from the first arrival of enslaved people to the Black Lives Matter movement of today. Kekla Magoon's eye-opening work invites a new generation of readers grappling with injustices in the United States to learn from the Panthers' history and courage, inspiring them to take their own place in the ongoing fight for justice.
