changes which have been made in some key areas of public service management. PERSONNEL RECORDS: A STRATEGIC RESOURCE FOR PUBLIC SECTOR MANAGEMENT is part of the Public Service Thematic Series which envisages setting out the results of research projects, in selected countries or group of countries, to provide real insight into the real managerial and structural changes within selected areas of public service. In providing some firm ground on which those public servants, who are faced with the challenge of public service reform, can stand while assessing the options available, the Public Service Thematic Series marks a milestone in the debate concerning

definitive desk reference for project management practitioners. The Handbook gives an introduction to, and overview of, the essential knowledge required for managing projects. The team of expert contributors, selected to introduce the reader to the knowledge and skills required to manage projects, includes many of the most experienced and highly regarded international writers and practitioners. The Fifth Edition has been substantially restructured. All but two of the authors are new, reflecting the fast-changing and emerging perspectives on projects and their management. The four sections in the book describe: ¢ Projects, their context, value and how they are connected to organizational strategy; ¢ Performance: describing how

to manage the delivery of the project, covering scope, quality, cost, time, resources, risk and sustainability **Process: from start up to close down** **Portfolio: the project and its relationship to the organization** The discrete nature of each chapter makes this Handbook a wonderful source of advice and background theory that is easy to consult. Gower Handbook of Project Management is an encyclopaedia for the discipline and profession of project management; a bible for project clients, contractors and students.

2nd edition (colour) Probably the biggest – and potentially most risky – undertaking for any Human Resources or payroll professional is the selection of new software. Additionally, it is almost inevitable that they

will be involved with it at some point in their career. The litany of failures in this area has been alarmingly high, from selecting the wrong systems in the first place all the way through to ineffective implementation; all of this against a heavy cost to the organisation in both financial terms and lost opportunities. Denis Barnard is a consultant specialising in the selection of HR & payroll systems, and other HRIS, and is acknowledged as one of the UK's leading experts in the field. Drawing on many years of experience, he gives crucial insight to the actions needed to minimise the risks inherent to this type of project, as well as a step-by-step blueprint of how the right result can be achieved. Written in a style aimed to demystify the relatively unknown, this is a
