valuable than a business degree? Most people enter their professional careers not understanding how to grow a business. At times, this makes them feel lost, or worse, like a fraud pretending to know what they're doing. It's hard to be successful without a clear understanding of how business works. These 60

daily readings are crucial for any professional or business owner who wants to take their career to the next level. New York Times and Wall Street Journal bestselling author, Donald Miller knows that business is more than just a good idea made profitable – it's a system of unspoken rules, rarely taught by MBA schools.

If you are attempting to profitably grow your business or career, you need elite business knowledge—knowledge that creates tangible value. Even if you had the time, access, or money to attend a Top 20 business school, you would still be missing the practical knowledge that propels the best and brightest forward.

equivalency of qualifications and coach credentials, as well as questions over standards and governance, as part of a wider debate around professionalization.

Coaching then, as with the transfer of knowledge and professionalization in other disciplines, is not immune to

ethnocentricity.

Through a combination of adopting a meta-analysis of coaching, supported with narratives of coaching practice drawn from different socio-political/cultural contexts, the aim of this book is to challenge current knowledge, understanding and norms of how coaching

is, or should, be practised in different cultural contexts. This book will provide a foundation for further research in coaching as an academic field of study and as an emerging profession. It will resonate with critical scholars, coach educators, and coach practitioners who want to develop their praxis
