Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

This textbook presents basic financial accounting concepts and shows your students how they apply to the hospitality industry. Hospitality Industry Financial Accounting, Fourth Edition, was prepared in conjunction with the brand-new 11th revised edition of the USALI, to which Ray Schmidgall was a key participant. Revisions to a number of chapters have been made to reflect all of the changes made in this latest edition of the USALI.
