Project Management for Engineering, Business and Technology

This fascinating narrative recounts the history of astronomy and, with more than 100 full-color illustrations, it shows readers how to find the planets and constellations in the night sky. In ancient times, people thought that the Sun, Moon, and stars were gods. They recorded their movements and imagined that the stars made pictures in the sky. The Greeks and the Romans related these "pictures" of animals and men--or constellations--to their legends. They also identified planets and named them for their gods--Venus, Mars, Saturn, and Jupiter. Their observations marked the first step in the development of astronomy, which today is a sophisticated science. Modern astronomers have followed the tradition of naming heavenly bodies after ancient gods. For instance, the solar system's outer planets weren't identified until after the telescope's invention, but with their discoveries they were named after Uranus, a Greek god of the sky . . . Neptune, the Roman god of the sea . . . and Pluto, the Roman god of the underworld. The author recounts the legends connected with many constellations, including Aquarius, Aries, Cancer, Orion, and others. This beautifully illustrated book helps readers navigate their way around the night sky as they learn the significance of heavenly bodies' names. Color photos and illustrations throughout.

Project Management in Practice, 4th Edition focuses on the technical aspects of project management that are directly related to practice.

Intended for K-3 classroom teachers, explains how to create a balanced literacy program based on guided reading and supported by reading aloud, shared reading, interactive writing, and other approaches.

"This workbook will introduce your child to grade six vocabulary and reading comprehension exercises in a step-by-step manner."--Cover.

The fun and excitement of English and Language Arts learning continues in Grade 2 of Reading Street. This comprehensive and dynamic curriculum for homeschooling is geared toward young children who have some foundational English and Language Arts knowledge and are ready to strengthen their skills. Comprised of engaging activities, challenging content and weekly quizzes, Reading Street: Grade 2 is the next step in your child's path toward becoming a lifelong learner and reader. As with all Reading Street products, the Grade 2 system is formatted to help students meet certain age-appropriate goals. After completing this English and Language Arts homeschool program, your child should be able to: Read and comprehend two-syllable words. Identify common prefixes (such as pre-, un-, or re-) and suffixes (such as -able, -ad and -er). Correct mistakes made when reading out loud. Read books with two or more chapters. Understand the structure of stores (i.e. beginning, middle and end). Start selecting reading materials based on his/her own interests. Identify the "who," "what," "when," "where," "why" and "how" of the text. While the goals of second Grade English and Language Arts are numerous, Reading Street will help you craft engrossing lessons. Your child will garner important English and Language Arts skills while completing a workbook, reading stories and poems, and taking assessments. Planning these lessons will be easier than ever, as all Reading Street systems are broken down into weekly Big Ideas. All the work your child does on a given week is formulated around that single concept for an organized and challenging curriculum. With six easy-to-follow units, Reading Street: Grade 2 is the perfect tool for homeschooling parents. Your child will enjoy the reading selections and activities, and you'll love to see your student growing into a knowledgeable individual. We're confident that this product is the right one for you. For more information on the specific materials found in Grade 2 of Reading Street, check out the Features and Benefits page.

This easy-to-follow guide is filled with practical approaches to help teachers transition towards a balanced literacy framework. Designed for both newer and veteran teachers alike, this straightforward book offers simple techniques and concrete strategies to nurture classroom reading and writing skills through Shared/Guided/Independent Reading and Writing activities. This resource gives teachers in-depth lessons plans that take the away guesswork out of what is needed the Language Arts classroom implementing the Balanced Literacy approach. Pain is the most common symptom bringing a patient to a physician's attention. Physicians training in pain medicine may originate from different disciplines and approach the field with varying backgrounds and experience. This book captures the theory and evidence-based practice of behavioral, psychotherapeutic and psychopharmacological treatments in modern pain medicine. The book's contributors span the fields of psychiatry, psychology, anesthesia, neurology, physical medicine and rehabilitation, and nursing. Thus the structure and content of the book convey the interdisciplinary approach that is the current standard for the successful practice of pain management. The book is designed to be used as a text for training fellowships in pain medicine, as well as graduate courses in psychology, nursing, and other health professions.

The third installment of the Reading Street series, Grade 3, delivers structured content designed for children who have a firm foundation in English and Language Arts and are ready to continue on the path to lifelong reading. This curriculum for homeschooling brings together classic reading selections, fun activities and parent/teacher guides to help you develop lessons that boost your student's English and Language Arts learning. As with all levels of Reading Street, Grade 3 was created using educational research to ensure your child is guided through his or her work by age-appropriate and cutting-edge content. Each week, your child will work through a series of reading and writing activities that center around a Big Idea. This structure supports your child's critical thinking skills and ensures he or she builds knowledge suitable for a child in third Grade. By the end of the year, children at this level in their homeschooling program should be able to: Read third-grade level material at a steady pace. Identify errors when reading aloud and know how to correct them. Answer questions using examples from the text. Comprehend and explain main ideas found in the reading. Develop a point of view different than those of characters in stories. Edit writing after completing it. Use transitions in writing, such as "therefore," "for example" and "also." Reading Street: Grade 3 will give you the tools you need to achieve these learning goals during your homeschool program. Grade 3 comes in a two-volume set that's packed with engaging reading materials and helpful teacher tools. You'll be able to keep tabs on your child's progress through this level by using the assessment materials. If your child needs to revisit a certain lesson, you can ensure he or she does so and fully comprehends the subject. Check out these and other great components of Reading Street: Grade 3 by visiting the Features and Benefits page.

The Educated Mind offers a bold and revitalizing new vision for today's uncertain educational system. Kieran Egan reconceives education, taking into account how we learn. He proposes the use of particular "intellectual tools"--such as language or literacy--that shape how we make sense of the world. These mediating tools generate successive kinds of understanding: somatic, mythic, romantic, philosophical, and ironic. Egan's account concludes with practical proposals for how teaching and curriculum can be changed to reflect the way children learn. "A carefully argued and readable book. . . . Egan proposes a radical change of approach for the whole process of education. . . . There is much in this book to interest and excite those who discuss, research or deliver education."--Ann Fullick, *New Scientist* "A compelling vision for today's uncertain educational system."*--Library Journal* "Almost anyone involved at any level or in any part of the education system will find this a fascinating book to read."*--Dr. Richard Fox, British Journal of Educational Psychology* "A fascinating and provocative study of cultural and linguistic history, and of how various kinds of understanding that can be distinguished in that history are recapitulated in the developing minds of children."*--Jonty Driver, New York Times Book Review*

Preparing to Teach Writing, Fourth Edition is a comprehensive survey of theories, research, and methods associated with teaching composition successfully at the middle, secondary, and college levels. Research and theory are examined with the aim of informing teaching. Practicing and prospective writing teachers need the information and strategies this text provides to be effective and well prepared for the many challenges they will face in the classroom. Features Current--combines discussions and references to foundational studies that helped define the field of rhetoric and composition, with updated research, theories, and applications Research based--thorough examination of relevant research in education, literacy, cognition, linguistics, and grammar Steadfast adherence to best practices based on how students learn and on how to provide the most effective writing instruction A Companion Website provides sample assignments and student papers that can be analyzed using the research and theory presented in the text.

Although proficiency in vocabulary has long been recognized as basic to reading proficiency, there has been a paucity of research on vocabulary teaching and learning over the last two decades. Recognizing this, the U.S. Department of Education recently sponsored a Focus on Vocabulary conference that attracted the best-known and most active researchers in the vocabulary field. This book is the outgrowth of that conference. It presents scientific evidence from leading research programs that address persistent issues regarding the role of vocabulary in text comprehension. Part I examines how vocabulary is learned; Part II presents instructional interventions that enhance vocabulary; and Part III looks at which words to choose for vocabulary instruction. Other key features of this timely new book include: *Broad Coverage. The book addresses the full range of students populating current classrooms--young children, English Language Learners, and young adolescents. *Issues Focus. By focusing on persistent issues from the perspective of critical school populations, this volume provides a rich, scientific foundation for effective vocabulary instruction and policy. *Author Expertise. Few volumes can boast of a more luminous cast of contributing authors (see table of contents). This book is suitable for anyone (graduate students, in-service reading specialists and curriculum directors, college faculty, and researchers) who deals with vocabulary learning and instruction as a vital component of reading proficiency.

The fifth installment of the Reading Street curriculum for homeschooling series, Grade 5, is the perfect tool for your child's educational journey. This set of materials is designed to help your child develop a love of learning he or she will carry throughout the rest of his or her life. Not only does Reading Street aid you in educating your child on the subject of reading, the system is also designed to improve language arts and writing abilities. Now that your child is ready to begin the Grade 5 curriculum, he or she will encounter more challenging content and in-depth reading assignments. All Reading Street installments integrate flawlessly with the rest of your homeschool program materials and make it easy for you to plan engaging lessons. Use the Teacher Resource DVD to print out curriculum-aligned worksheets and rubrics, and administer quizzes. Reading Street: Grade 5 comes with two volumes that cover six units. Each unit spans six weeks, for a total of 12 weeks' worth of English and Language Arts content. By the time you and your child complete Reading Street: Grade 5, he or she should be able to: Read several types of literature, including poetry, drama and prose. Use direct text examples to support ideas about the reading. Recognize themes within a story. Develop an individual writing style. Include correct punctuation, capitalization and grammar in writing. Conduct course-related research using the text and outside sources. Adapt writing style to speak to a specific audience. Each stage of the Reading Street series is increasingly more complex, giving your child the challenge they need to develop high levels of writing, reading and language skills. The lesson plans you design using this system will keep your student interested in learning. You can learn more about the materials included in the Reading Street: Grade 5 set by visiting the Features and Benefits page.

Dogs have worked with humans over a vast span of time. They roamed with hunters in ancient times, tracking down prey. They guarded homes and castles, fought side-by-side with soldiers, and even rescued drowning swimmers. Today, dogs still perform some of these jobs and more. - p. 4.

In a world of rapid technological advancements, it can be easy to forget that writing is the original Information Technology, created to transcend the limitations of human memory and to defy time and space. The Writing Revolution picks apart the development of this communication tool to show how it has conquered the world.

Explores how writing has liberated the world, making possible everything from complex bureaucracy, literature, and science, to instruction manuals and love letters Draws on an engaging range of examples, from the first cuneiform clay tablet, Egyptian hieroglyphs, and Japanese syllabaries, to the printing press and the text messaging Weaves together ideas from a number of fields, including history, cultural studies and archaeology, as well as linguistics and literature, to create an interdisciplinary volume Traces the origins of each of the world's major written traditions, along with their applications, adaptations, and cultural influences

With more than 70 percent of its population living in cities, Latin America and the Caribbean (LAC) is among the most urbanized regions in the world. Yet, although its cities are, on average, more productive than those elsewhere in the world, their productivity lags that of North American and Western European cities. Closing this gap provides LAC with the opportunity to raise living standards and join the ranks of the world's richest countries. Raising the Bar: Cities and Productivity in Latin America and the Caribbean is about the productivity of cities in LAC and the factors that help to explain its determination. Based on original empirical research, the report documents the high levels of population density and other features of LAC cities that mark them out from those in the rest of the world. The report also studies the role of three key factors --"urban form, skills, and access to markets --" in determining the productivity of LAC cities. It shows that while excessive congestion forces and inadequate metropolitan coordination seem to be stifling the benefits of agglomeration, LAC cities benefit from strong human capital externalities. It also finds that, within individual LAC countries, cities are poorly integrated with one another, which contributes to large differences in performance across cities and undermines their aggregate contribution to productivity at the national level.

By the time your child reaches Reading Street: Grade 4, he or she is ready to learn more complex English and Language Arts skills. This set of homeschool program materials is packed with educational activities, lesson ideas, reading assignments and quizzes to help your child rise to the next step in his or her academic career. The Grade 4 system is not only designed as a learning tool for children, but as a guide for you as the teacher. Use the materials included in the set to form unique, fun and engaging lesson plans for your child. The comprehensive structure of Reading Street: Grade 4 makes it easy to use. The curriculum for homeschooling comes with two volumes of content that are broken down into weekly lessons. Each week centers on a Big Idea or key concept. Your child will complete writing tasks, reading assignments, quizzes and discussions that relate back to the Big Idea. By the time your child completes Grade 4 of Reading Street, he or she should be able to: Explain character motives, central themes and specific events within a text. Comprehend the meaning of unfamiliar words using context clues. Break down poems by verses. Identify different types of literature, such as prose, poetry and drama. Use introductions and conclusions in writing. Cite sources in writing if necessary. Prepare and present oral presentations. Reading Street: Grade 4 transitions flawlessly into more challenging content to help your child expand his or her English and Language arts skills. The material is all uniform in design, making it easy for you and your child to navigate. You can use the components in the Teacher Resource DVD to create dynamic lessons for your child. Print out worksheets, use the provided games and incorporate the writing prompts as you teach your child. The structure of the Reading Street sets is straightforward and easy to follow. You'll know exactly how much you've accomplished in your child's education as you progress, and you'll be able to keep track of his or her Grades without difficulty.
