Queer. Muslim. Arab American. A proudly Fat femme. Randa Jarrar is all of these things. In this "exuberant, defiant and introspective" memoir of a cross-country road trip, she explores how to claim joy in an unraveling and hostile America (The New York Times Book Review). Randa Jarrar is a fearless voice of dissent who has been called "politically incorrect" (Michelle Goldberg, The New York Times). As an American raised for a time in Egypt, and finding herself captivated by the story of a celebrated Egyptian belly dancer's journey across the United States in the 1940s, she sets off from her home in California to her parents' in Connecticut. Coloring this road trip are journeys abroad and recollections of a life lived with daring. Reclaiming her autonomy after a life of survival--domestic assault as a child, and later, as a wife; threats and doxxing after her viral tweet about Barbara Bush--Jarrar offers a bold look at domestic violence, single motherhood, and sexuality through the lens of the punished-yet-triumphant body. On the way, she schools a rest-stop racist, destroys Confederate flags in the desert, and visits the Chicago neighborhood where her immigrant parents first lived. Hailed as "one of the finest writers of her generation" (Laila Lalami), Jarrar delivers a euphoric and critical, funny and profound memoir that

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents.
