

Personnel Technician Study Guide

Includes Part 1, Number 2: Books and Pamphlets, Including Serials and Contributions to Periodicals (July - December)

The principal purpose of this study guide is to assist you in preparing to take the Certified Ophthalmic Technician (COT®) examination. This guide will help build on what you have already learned, aid you in identifying where you need to focus your study time, identify areas where you feel less confident, and help you study more effectively. While this study guide cannot give you the questions and answers for the examination, it does provide you with the knowledge and content areas for the examination, describes study methods that have worked for other COTs, and offers you a self-assessment of sample items and a practice examination so you will have a better idea of what to expect when you take the actual examination. Also included are the Quick Study Cards to help you prepare for IJCAHPO's certification examinations. These flashcards assist in preparation for the COT exam. The questions highlighted on the Quick Study Cards will help you prepare for each examination content area.

Guide to the Evaluation of Educational Experiences in the Armed Services: Coast Guard, Marine Corps, Navy, Department of Defense

Management education and training programs are established throughout the Federal Government to provide personnel engaged in management and staff support functions an opportunity to obtain the specialized education required by their job. These programs are primarily Service/Agency operated schools offering management training covering a variety of subjects. Within the Department of Defense, the Management Education and Training Program includes more than 273 resident courses with a capacity to train over 32,000 personnel. These courses address common concepts and common skills for management needs. The information contained in this booklet pertains to the GS-343 and GS-895 Job Classification Series. The data was compiled from various training publications

promulgated throughout the Federal Government. It is assembled, primarily, for personnel directly working for the Department of Defense within the parameters set forth in DoD Directive 5010.31 'DoD Productivity Program' and DoD Instruction 5010.34, 'Productivity Enhancement, Measurement, and Evaluation - Operating Guidelines and Reporting Instructions.'

Your exam performance will improve after using this system! Exam Prep: Hazardous Materials Technician, Second Edition is designed to thoroughly prepare you for a Hazardous Materials Technician certification, promotion, or training examination by including the same type of multiple-choice questions you are likely to encounter on the actual exam. To help improve examination scores, this preparation guide follows Performance Training Systems, Inc.'s Systematic Approach to Examination Preparation. Exam Prep: Hazardous Materials Technician, Second Edition is written by fire personnel explicitly for fire personnel, and all content has been verified with the latest reference materials and by a technical review committee. Benefits of the Systematic Approach to Examination Preparation include: Emphasizing areas of weakness Providing immediate feedback Learning material through context and association Exam Prep: Hazardous Materials Technician, Second Edition includes: Practice Hazardous Material Technician examinations Self-scoring guide with page references for further study Winning test-taking tips and helpful hints Coverage of NFPA 472, Standard for Competence of Responders to Hazardous Materials/Weapons of Mass Destruction Incidents, 2008 Edition.
