

Persuasive Paper 2nd Grade

This Volume, is the first of 2 volumes that are being released together, but under separate covers. Volume 1, contains the instructional guide to teach special education students and English language learners to be successful writers, in 7 easy steps. In view of the increasing educational dropout rate of these special populations, this unique, simple program offers encouragement, hope, and success to students who are struggling in developing their writing skills. Not only is this program easy to learn and remember, but students are able to increase their writing skills in shorter periods of time. This Volume contains five, no-frills, bare-bones lesson plans along with teacher comments. It also includes reproducible Master Guide Sheets, and student Self-evaluation forms. The simplified color coding system is used as a consistent, predictable routine in each writing activity. This program, like no other, promotes student self-confidence and renewed interest in learning. The words, "I can't write" turn into "Yes, I can!" However, the best kept secret is that these 7 easy steps will help all students. Listen to what the kids are saying: "I had a lot of fun with Steps 1 to 7. They really helped me with my work," (comments from an 8th grade student). "The first thing I learned was Steps 1-7. I learned how to write better paragraphs," (comments from an 8th grade student). "I learned how to web my ideas using complete sentences," (comments from an 8th grade student). "I did really well on my writing assessment because I used the 7 steps," (comments from a 9th grade student) "I couldn't write a complete sentence. With these steps, I can write complete paragraphs and essays for Language Arts and Geography. I did well in my writing test, too," (comments from a 9th grade student). Listen to what teachers are saying: "I have been in meetings where parents have commented how effective her writing program has been with helping their kids. I've often heard parents express their gratitude for their child's success due to Ms. Posey's teaching," (comments from a junior high teacher). "After the 9th graders took the writing assessment, several of the students commented on how good they felt about their writing abilities that were a direct result of the efforts of Ms. Posey," (comments from a junior high teacher). "Her strategies and writing

techniques resulted in 50% improvement, an impressive increase, in the scores of resource students for the 9th grade direct writing assessment. This is the highest achievement I've seen in my 30 years of teaching," (comments from a secondary special education teacher).

Alex just has to convince his mom to let him have an iguana, so he puts his arguments in writing. He promises that she won't have to feed it or clean its cage or even see it if she doesn't want to. Of course Mom imagines life with a six-foot-long iguana eating them out of house and home. Alex's reassurances: It takes fifteen years for an iguana to get that big. I'll be married by then and probably living in my own house. and his mom's replies: How are you going to get a girl to marry you when you own a giant reptile? will have kids in hysterics as the negotiations go back and forth through notes. And the lively, imaginative illustrations show their polar opposite dreams of life with an iguana.

This book shares the author's discoveries in a first-grade classroom about Family Message Journals--notebooks in which children write a message to their families each day about something they did, learned, or thought about in school, and then a family member writes a message in reply. The book is intended to spur other teachers to reflect on how they might incorporate Family Message Journals into their programs, in their own ways. The author analyzes how two primary grade teachers implement Family Message Journals in their classrooms, illustrating that the journals are a workable, realistic, and effective strategy for literacy and content learning. She focuses on journal entries of four representative students and their families; questions widespread assumptions about teaching writing; and identifies teachers' and families' roles in helping elementary students appropriate new genres, topics, and purposes for writing. The book's 7 chapters are: (1) Challenging Assumptions about Learning To Write and Teaching Writing; (2) Why Family Message Journals? The Intersection of Writing Instruction, Writing To Learn, and Family Involvement; (3) Family Message Journals in the Classroom; (4) Writing for a Purpose: Writing as a Tool across the Curriculum; (5) Writing for an Audience: The Functions of Children's Messages; (6) Families' Perspectives and Replies; and (7) Family Message Journals Document Growth. (Contains 100 references.) (SR)

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

Turk's parents are proud of him, the biggest, strongest, most graceful bird at Wishbone Farm.

"He's a dancer," says his mother. "He's an athlete," says his father. "He's a goner," says his little brother, Runt. But no one ever listens to Runt -- even after people with seasonal plans and roasting pans begin showing up at Wishbone Farm, or even after the juiciest turkeys are chosen, one by one. "Chosen for what?" Turk asks. No one wants to hear Runt's answer. But you will laugh at what he has to do to get his family's attention. They are, after all, turkeys.

A hilarious, timely conversation about the differences between facts and opinions, by the

creator of the #1 New York Times bestseller *Goodnight Goon* Do you know the difference between a fact and an opinion? It can be a hard thing to understand. Some things are facts--like the number of robots in this book. Other things are opinions--like which robot would make the best friend, or which robot dances best. And sometimes to tell the difference between a fact and an opinion, you need to wait to get more information--that's because facts can be proven true or false, and opinions are things you feel and believe--but that you can't prove. Mike Rex introduces young readers to the very important distinction between facts and opinions, and he reminds us that it is nice to listen to one another's opinions, and to stand up for the facts!

He knows he's Chase. But who is Chase? When he gets back to school, he sees that different kids have very different reactions to his return. Some kids treat him like a hero. Some kids are clearly afraid of him. One girl in particular is so angry with him that she pours her frozen yogurt on his head the first chance she gets. Pretty soon, it's not only a question of who Chase is -- it's a question of who he was . . . and who he's going to be. A hilarious companion to *I Wanna Iguana*. Ever since their baby sister came along, Alex has been forced to share a

room with his little brother, Ethan, and it's a nightmare. Ethan always breaks stuff, snores like a walrus, and sticks crayons up his nose. Writing letters to his mom convinced her to let him get his pet iguana, so Alex puts pencil to paper again, this time determined to get his own room. Though all of his powers of persuasion can't get his dad to expand the house, he does come through with a fun alternative to give Alex some space of his own.

Gum. It's been around for centuries—from the ancient Greeks to the American Indians, everyone's chewed it.
