Introduction to PET Pack

**This popular series gives teachers practical advice and guidance, along with resource ideas and materials for the classroom. The tasks and activities are clearly presented, and offer teachers the information they need about level, time, preparation, materials, classroom management, monitoring, and follow-up activities. Each book offers up to 100 ideas, as well as variations that encourage teachers to adapt the activities to suite their individual classrooms.**

**In the late 20th and 21st centuries, the meteoric rise of countless social media platforms and mobile applications have illuminated the profound need friendship and connection have in all of our lives; and yet, very few scholarly volumes have focused on this unique and important bond during this new era of relating to one another. Exploring such topics as friendship and social media, friendship with current and past romantic partners, co-workers, mentors, and even pets, editors Mahzad Hojjat and Anne Moyer lead an expert group of global contributors as they each explore how friendship factors within our lives today. What does it mean to be a friend? What roles do friendships play in our own development? How do we befriend those across the race, ethnicity, gender, and orientation spectrums? What happens when a friendship turns sour? What is the effect of friendship - good and bad - on our mental health? Providing a much needed update to the field of interpersonal relations, The Psychology of Friendship serves as a field guide for readers as they shed traditional definitions of friendship in favor of contemporary contexts and connections.**
