*childrearing: “Parentology is brilliant, jaw-droppingly funny, and full of wisdom...bound to change your thinking about parenting and its conventions” (Amy Chua, author of Battle Hymn of the Tiger Mother). If you’re like many parents, you might ask family and friends for advice when faced with important choices about how to raise your kids. You might turn to parenting books or simply rely on timeworn religious or cultural traditions. But when Dalton Conley, a dual-doctorate scientist and full-blown nerd, needed childrearing advice, he turned to scientific research to make the big decisions. In Parentology, Conley hilariously reports the results of those experiments, from bribing his kids to do math (since studies show conditional cash transfers improved educational and health outcomes for kids) to teaching them impulse control by giving them weird names (because evidence shows kids with unique names learn*

*not to react when their peers tease them) to getting a vasectomy (because fewer kids in a family mean smarter kids). Conley encourages parents to draw on the latest data to rear children, if only because that level of engagement with kids will produce solid and happy ones. Ultimately these experiments are very loving, and the outcomes are redemptive—even when Conley's sassy kids show him the limits of his profession. Parentology teaches you everything you need to know about the latest literature on parenting—with lessons that go down easy. You'll be laughing and learning at the same time.*

**This textbook is appropriate for senior undergraduate and first year graduate students in mechanical and automotive engineering. The contents in this book are presented at a theoretical-practical level. It explains vehicle dynamics concepts in detail, concentrating on their practical use. Related theorems and formal proofs are provided, as are real-life applications. Students, researchers and practicing engineers alike will**

worldwide. *Liberator: The Harley-Davidson WLA in the Second World War* for the first time tells the full story of how the U.S. Army and Marine Corps and other Allied armed forces used the Harley-Davidson WLA and other American military motorcycles during the war. The book traces the development of the WLA in 1940-42 from the civilian Forty-Five models of 1929-39, describes the evolution of U.S. Army and Marine Corps usage of motorcycles through the motorcycle-borne mechanized cavalry experiments of 1940-41, and addresses wartime use of motorcycles in each major type of U.S. Army unit (mechanized cavalry, armored divisions, infantry divisions, airborne divisions, military police, etc.) and in Marine Divisions, with detailed tables of organization and equipment for each. Moreover, *Liberator:*

The Harley-Davidson WLA in the Second World War describes the use of the WLA, Indians, and other Harley-Davidsons in each Allied army that used them. It especially emphasizes their use by the Soviet Union, which was the largest user of the WLA, receiving more through Lend-Lease than the number used by the U.S. armed services. These countries include:- Soviet Union- Canada- United Kingdom- Australia- New Zealand- South Africa- India- Poland - France - Brazil- Iran- Republic of China Although primarily focused on the Harley-Davidson WLA, the book also describes use of other Harley-Davidsons, Indians, and small motorcycles designed for airborne troops, in the U.S. armed services and other allied armies. These other models include:- Harley-Davidson WL- Harley-Davidson "Big Twins"- Indian 741, 640,

344, and 340- Cushman Model 53 scooter - Simplex ServicycleUnique human perspectives on the Harley-Davidson WLA and other American military motorcycles during the war come from the stories of several individual U.S. Army soldiers who fought on motorcycles, and the histories of a U.S. Army military police unit and a Red Army motorcycle battalion. These stories, several of them previously unpublished, are reminders of the men who once rode these machines during the war. This book will be of interest to enthusiasts of Harley-Davidson, Indian, and military motorcycles, and to military historians and preservationists worldwide.
