## Question Papers Biochemistry

book is a Pacific yew tree, found in the ancient forests of the Pacific Northwest.

The bark of the Pacific yew tree produces Taxol, found to be a highly effective drug against ovarian and breast cancer. Taxol blocks mitosis during eukaryotic cell division. The supply of

# Read Free Pharm D 1st Year

## Question Papers Biochemistry

Taxol from the Pacific yew tree is vanishingly small, however. A single 100-year-old tree provides only about one dose of the drug (roughly 300 mg). For this reason, as well as the spectacular molecular architecture of Taxol, synthetic organic chemists fiercely undertook

# Read Free Pharm D 1st Year

## Question Papers Biochemistry

efforts to synthesize it. Five total syntheses of Taxol have thus far been reported. Now, a combination of isolation of a related metabolite from European yew needles, and synthesis of Taxol from that intermediate, supply the clinical demand. This case clearly
