Dilemmas of hydropower development in Vietnam

Opera omnia Marsilio Ficino interprete... [Ed Simon Grynaeus. Add. sex dialogi, trad Sebastianus Conradus]

Lugduni apud Ioannem Lertout [Excudebat Ioannes Marcorelius]

Hydropower is one of the biggest controversies in Vietnam in recent decades because of its adverse environmental and social consequences, especially negative impacts on displaced people who make way for hydropower dam construction. This book explains the controversies related to hydropower development in Vietnam in order to make policy recommendations for equitable and sustainable development. The book focuses on the analysis of emerging issues, such as land acquisition, compensation for losses, displacement and resettlement, support for livelihood development, and benefit sharing from

The Book of Concealed Mystery

This is a book of the key text of the Kabbalah, a work known as the Zohar ("Splendour"). The Zohar is a commentary on the Torah and although it is sometimes ascribed to a second-century rabbi, Simon Bar-Yochai, the form in which it is most widely known originates with Moses of Leon, a native of Granada, who died in 1305. The kabbalists believe that the undefinable origin of all things

is Ein Sof - the cause of causes, the infinite, that which underlies everything. The universe emanates from the divine in successive layers called esefiroti. Everything exists in God, but God extends infinitely beyond existence. All we know and are is linked together, pervaded and maintained by the divine. According to this work, the light of God must be concealed in order to be revealed to creation. Even though the kabbalists believe that ultimately Ein Sof is beyond expression or understanding, the contemplation of God's presence in all things causes our thoughts to be purified.

The Kabbalah Unveiled is a book concerning Kabbalah by freemason and occultist by S. L. MacGregor Mathers. Kabbalah is an esoteric method, discipline, and school of thought in Jewish mysticism. It is a set of esoteric teachings meant to explain the relationship between the unchanging, eternal God—the mysterious Ein Sof ("The Infinite")—and the mortal, finite universe (God's creation). It forms the foundation of mystical religious interpretations within Judaism. Historically, Kabbalah emerged from earlier forms of Jewish mysticism, in 12th- to 13th-century Spain and Southern France, and was reinterpreted during the Jewish mystical renaissance in 16th-century Ottoman Palestine. Jewish Kabbalists originally developed their own transmission of sacred texts within the realm of Jewish tradition. The Kabbalah Unveiled includes translations and commentaries of the books of Zohar: The Book of Concealed Mystery; The Greater Holy Assembly; and The Lesser Holy Assembly. Being an Improvement on the American Spelling Book

There's a common belief that cyberspace cannot be regulated—that it is, in its very essence, immune from the government's (or anyone else's) control. Code argues that this belief is wrong. It is not in the nature of cyberspace to be unregulable; cyberspace has no "nature." It only has code—the software and hardware that make cyberspace what it is. That code can create a place of freedom—as the original architecture of the Net did—or a place of exquisitely oppressive control. If we miss this point, then we will miss how cyberspace is changing. Under the influence of commerce, cyberspace is becoming a highly regulable space, where our behavior is much more tightly controlled than in real space. But that's not inevitable either. We can—we must—choose what kind of cyberspace we want and what freedoms we will guarantee. These choices are all about architecture: about what kind of code will govern cyberspace, and who will control it. In this realm, code is the most significant form of law, and it is up to lawyers, policymakers, and especially citizens to decide what values that code embodies.

before. But that past has caught up with her. Convicted and sentenced to fifteen months at the infamous federal correctional facility in Danbury, Connecticut, the well-heeled Smith College alumna is now inmate #11187-424—one of the millions of people who disappear “down the rabbit hole” of the American penal system. From her first strip search to her final release, Kerman learns to navigate this strange world with its strictly enforced codes of behavior and arbitrary rules. She meets women from all walks of life, who surprise her with small tokens of generosity, hard words of wisdom, and simple acts of acceptance. Heartbreaking, hilarious, and at times enraging, Kerman’s story offers a rare look into the lives of women in prison—why it is we lock so many away and what happens to them when they’re there. Praise for *Orange Is the New Black* “Fascinating . . . The true subject of this unforgettable book is female bonding and the ties that even bars can’t unbind.”—People (four stars) “I loved this book. It’s a story rich with humor, pathos, and redemption. What I did not expect from this memoir was the affection, compassion, and even reverence that Piper Kerman demonstrates for all the women she encountered while she was locked away in jail. I will never forget it.”—Elizabeth Gilbert, author of *Eat, Pray, Love* “This book is impossible to put down because [Kerman] could be you. Or your best friend. Or your daughter.”—Los Angeles Times “Moving . . .
