**“Not only does Huffman bring Tim back to life**

**. . . but he also leads us through some of the most harrowing combat of our generation” (Sebastian Junger, New York Times-bestselling author of Tribe). Tim Hetherington (1970-2011) was one of the world’s most distinguished and dedicated photojournalists, whose career was tragically cut short when he died in a mortar blast while covering the Libyan Civil War. Someone far less interested in professional glory than revealing to the world the realities of people living in extremely difficult circumstances,**

**Hetherington nonetheless won many awards for his war reporting, and was nominated for an Academy Award for his critically acclaimed documentary, Restrepo. In Here I Am, Alan Huffman tells Hetherington's life story, and through it analyses, what it means to be a war reporter in the twenty-first century. Praise for the first edition: This collection of essays comes mainly from academics but nobody should bridle at theorists lecturing practitioners. They properly challenge the way September 11th was reported - in a way that's both an endorsement of the role of the media and a wake-up call on its failures . . . anyone interested in our trade should read it.' - Roger Mosey, Ariel 'A thoughtful and engaging examination of the effects of 9/11 on the field of journalism. Its unique aim is to discuss the impact of the attack as a personal trauma and its current and future effects on journalism and the reporting of the news. . . highly recommended.' - Library Journal

Journalism After September 11 examines how the traumatic attacks of that day continue to transform the nature of journalism, particularly in the United States and Britain.

Familiar notions of what it means to be a journalist, how best to practice journalism, and what the public can reasonably expect of journalists in the name of democracy, were shaken to their foundations. Ten years on, however, new questions arise regarding the lasting implications of that tragic day and its aftermath. Bringing together an internationally respected collection of scholars and media commentators, *Journalism After September 11* addresses topics such as: journalism and public life at a time of crisis; broadsheet and tabloid newspaper coverage of the attacks; the role of sources in shaping the news; reporting by global news media such as CNN; Western representations of Islam; current affairs broadcasting; news photography and trauma; the emotional well-being of reporters; online journalism; as well as a host of

Here I Am

Photography

It is all but impossible to think of September 11th 2001 and not, at the same time, recall an image. The overwhelmingly visual coverage in the world's media pictured a spectacle of terror, from images of the collapsing towers, to injured victims and fatigued firefighters. In the days, weeks and months that follow this vast collection of photographs continued to circulate relentlessly. This book investigates the psychological impact of those photographs on a stunned American

audience. Drawing on trauma theory, this book asks whether the prolonged exposure of audience to photographs was cathartic or damaging. It explores how first the collective memory of the event was established in the American psyche and then argues that through repetitive use of the most powerful pictures, the cultural industry created a dangerously simple 9/11 metanarrative. At the same time, people began to reclaim and use photography to process their own feelings, most significantly in 'communities' of photographic memorial websites. Such exercises were widely perceived as democratic and an aid to recovery. This book interrogates

that assumption, providing a new understanding of how audiences see and process news photography in times of crisis.

Recent decades have seen a flourishing interest in and speculation about the origins of photography. Spurred by rediscoveries of 'first' photographs and proclamations of photography's death in the digital age, scholars have been rethinking who and what invented the medium. *Photography and Its Origins* reflects on this interest in photography's beginnings by reframing it in critical and specifically historiographical terms. How and why do we write about the origins of the medium? Whom or what

we rely on to construct those narratives? What's at stake in choosing to tell stories of photography's genesis in one way or another? And what kind of work can those stories do? Edited by Tanya Sheehan and Andrés Mario Zervigón, this collection of 16 original essays, illustrated with 32 colour images, showcases prominent and emerging voices in the field of photography studies. The research cuts across disciplines and methodologies, shedding new light on old questions about histories and their writing. *Photography and Its Origins* will serve as a valuable resource for students and scholars in art history, visual and media studies, and the history of science and
