The only problem is, there's just not enough of 'em. So we thought, "Wouldn't it be cool if there was a Photoshop book, and the whole book, cover-to-cover, was nothing but those great sidebar tips." That's what we've created in this book, which is all about the fun (and bragging rights) that come with knowing "all the inside tips." The reason why the book's slogan is "speed kills!," is because this is the book that will make you faster and more
