## Design and Build the Ultimate Cars

There is no secret to creating a winning Pinewood Derby car; all racers need is a great design and an understanding of these tips that trick their cars out for maximum speed. In three sections, this handbook takes builders from the beginning of car construction to ultimate derby-winning modifications. The "basic car" section addresses broad building concerns such as cutting the design, attaching and lubricating the wheels, and balancing the weight. "Winning car" secrets include extending the vehicle base, polishing axles, and modifying and aligning the wheels. Finally, the championship techniques of the "ultimate car" are revealed, allowing builders to shave those last tenths of a second off their times and go home with the trophy.

wrangle gators, snakes, bats that bite, and a reality show host gone rogue! This is Carl Hiaasen's Florida—where the creatures are wild and the people are wilder! When Wahoo Cray's dad—a professional animal wrangler—takes a job with a reality TV show called Expedition Survival!, Wahoo figures he'll have to do a bit of wrangling himself to keep his father from killing Derek Badger, the show's inept and egotistical star. But the job keeps getting more complicated: Derek Badger insists on using wild animals for his stunts; and Wahoo's acquired a shadow named Tuna—a girl who's sporting a shiner courtesy of her father and needs a place to hide out. They've only been on location in the Everglades for a day before Derek gets bitten by a bat and goes missing in a storm. Search parties head out and promptly get lost themselves. And then Tuna's dad shows up with a gun . . . It's anyone's guess who will

through the process of leveraging classroom technology in order to foster empathy and broaden horizons. With a warm, inviting style, and drawing from the rich examples of their own classrooms, Jessica and Christine offer a treasure trove of actionable, impactful tips that will help you seamlessly connect your students with the world around them. "Christine and Jessica have created an incredibly insightful, realistic, robust guide to innovating early childhood education based on their own classroom instruction. Their masterfully crafted pedagogy weaves together authentic learning, design thinking, and tech integration all through the play and discovery learning so crucial for our youngest learners. Innovating Play is guaranteed to inspire, guide, and support meaningful technology integration for authentic learning experiences." -Lisa Highfill, technology integration specialist, co-author and creator
