Over the past twenty years, historians have overturned nearly everything we once took for granted about human sexuality. Gender, sexual orientation, "deviance," and even the biology of sex have been unmasked for what they are-historically specific, culturally contested, and above all, unstable constructions. Taylor Shaw had the perfect life-until she was sixteen. That was when everything changed. From that moment on, life went from bad to worse...to the worst. After recovering from a brain tumor, months later, she suffers the tragic loss of her whole family. Since that fateful day, she's been coasting through life. Now, the brain tumor has returned, and Taylor decides she's had enough. She's going to take her fate into her own hands. No more hospital's. No more surgeries. No more anything. She's going to join her family. It's her decision. What she longs for. The ending she wants. She just has a list of things to do before she goes. First, go to England. Second, kiss a stranger... Only, Taylor didn't expect Liam Hunter, the stranger-with his handsome face, his six-foot-three of gorgeousness, and his oh-so-hot English accent-to change things. To change her. To change the ending she wanted. What is a girl, who is standing on the edge of nothing, to do when offered the chance of everything?

Flourishing in Emerging Adulthood highlights the third decade of life as a time in which individuals have diverse opportunities for positive development. There is mounting evidence that this time period, at least for a significant majority, is a unique developmental period in which positive development is fostered. Dr. Lene Arnett Jensen highlights the importance of this work in an engaging foreword, and chapters are written by leading scholars in diverse disciplines who address various aspects of flourishing. They discuss multiple aspects of positive development including how young people flourish in key areas of emerging adulthood (e.g., identity, love, work, worldviews), the various unique opportunities afforded to young people to flourish, how flourishing might look different around the world, and how flourishing can occur in the face of challenge. Most chapters are accompanied by first-person essays written by a range of emerging adults who exemplify the aspect of flourishing denoted in that chapter and make note of how choices and experiences have helped them transition to adulthood. Taken together, this innovative collection provides rich evidence and examples of how young people are flourishing as a group and as individuals in a variety of settings and circumstances. This unique resource will be useful to students, faculty, professionals, clinicians, and university personnel who work with young adults or who study development during emerging adulthood.

What exactly is a shadow? Is it light tracing an object or the shape a body throws when it comes between a light source and a surface? Is it a metaphor for the intimate, darker side of a persons nature, the unconscious side of ones self, where demons and secrets are kept hidden or repressed? Is it an allegorical place or state of being, somewhere between darkness and light, living and dying? Or is it a state of illusion, like Platos cave? Is it a verb that means to follow or accompany, or even to spy on shadows, a neo-collaborative series by Alexandra Grant and Keanu Reeves, explores the real and symbolic nature of the shadow as image and figure of speech. Grants photographs capture Reeves shadow at times as a silhouette and at others as traces of light as he and the camera move together. In transforming the images into color and reversing light for dark, Grant has made the shadows themselves the source of light. Reeves texts, written in tandem with the creation of the images, give voice to the multiple manifestations of the shadow: as a projected figure, a place of concealed emotion, and an invocation to shadow play.

Simpson's poetry combines themes of freedom and the ocean with the wisdom of an old soul.

A long-term study providing rare insights into the precarious career and ordinary working culture of professional footballers. Away from the celebrity-obsessed media gaze, the work of a professional footballer is rarely glamorous and for most players a career in football is insecure and short-lived. A former professional, Martin Roderick's familiarity with the world of football is the foundation for this privileged research into a world that is typically closed to the public gaze and ignored by media reportage and academic research which prefers to focus on a small, unrepresentative group of elite players. Key themes explored within the text include: the culture of work in professional football the changing identity, orientation and expectations of players during their careers the fragile and uncertain nature of professional sport careers the performance and dramatic aspects of a career under public scrutiny the role of relationships with managers, owners, support staff and partners players' responses to the insecurities inherent in professional football such as injury, ageing, performance and transfer. The text deals with a wide range of issues of interest to sports students and academics, particularly those with a focus on the sociology of sport but also including sport development, sport management and coaching studies. The text will also be of interest to researchers in the fields of careers, industrial relations and the sociology of work.

Love the One You Hate

From New York Times bestselling author Samantha Towle comes a gripping psychological thriller that will have you on the edge of your seat. I'd once believed that nothing would equal the pain of losing my parents. I was wrong. I had barely even begun to process their deaths when it started. I had a stalker. A murderous one. And I had no clue who he was. He never showed me his face. Not even when he carved his final message into me. I survived that night. But my life was over. It had ended the moment Tobias Ripley's infatuation with me began. So, I changed my name and moved away. Now, I live a life of solitude. I don't make connections with anyone. Until Jack Canti walks into my life with his sharp eyes and easy smiles. Only Jack isn't the man he says he is. And when the murders start again, I'm left wondering if this is a copycat. Or worse ... What if Tobias wasn't the real killer after all ... and the murderer has been right here with me all along?

The ethnomusicologist Frederick Moehn introduces a generation of Rio-based musicians who build on the música popular brasileira (MPB) of previous decades, but who have yet to receive scholarly attention. This generation, the "children of the dictatorship," reinvigorated Brazilian genres such as samba and maracatu through juxtaposition with international influences, including rock, techno, and funk. Moehn offers vivid depictions of Rio musicians as they creatively combine and reconcile local realities with global trends and exigencies.

This book challenges white and Western feminist approaches to embodied politics, or the use of the body in everyday enactments of resistance, while mapping transgressive performances of femininities by the funkeiras, marginalized women and transfeminine people of color artists in Brazilian favela funk. Often studied from a white feminist perspective, embodied politics reflects debates about agency and structural change that are generally applicable to white women in the West. Concurrently, studies of femininity tend to underestimate the gender oppression encountered by white women to women across the globe. In this work, the author offers a transnational perspective on the performative force of embodied politics as a possible means to disrupt white, classist heteropatriarchal structures that oppress particularly poor women and transfeminine people of color in Brazil. This project has a threefold goal: first, it challenges the theoretical shortcomings of white feminist approaches to embodied politics, providing instead a transnationalist take on the concept. Secondly, this project aims to shed light on how traditional methodological approaches have hindered nuanced understandings of women and people of color and their performances. Third and finally, by challenging and re-envisioning the potential of embodied politics from a transnational perspective, the text intends to contribute to the field of critical intercultural communication's growing but still limited research around bodies and performance, especially on those who are marginalized in global contexts.

"Marry me." "What?" I stared back at him, blinking. He moved closer, taking my face in his hands. "I love you, Evie. I look into the future, and the only thing I see clearly is you. Marry me." What's an eighteen-year-old girl who was madly in love with her nineteen-year-old boyfriend say? Of course, I said yes. Twenty-four hours later, I married Adam Gunner at a Vegas chapel to the sounds of "Livin' on a Prayer" by Bon Jovi. Not the best omen. I get that now. Then, exactly one week later, I left him. I walked out, leaving behind my wedding ring, annulment papers, and my heart, and he never knew why. I haven't seen him since. Not in ten long years. Now, he's here, standing before me. Looking at me with nothing but hurt and hatred in his eyes, he wants answers. Answers I can't give.

A steamy and hilarious standalone romance from New York Times best-selling author Samantha Towle. I'm used to being in charge. In and out of the office. So, when my parents go behind my back and hire a co-CEO to help me manage my family's business, let's just say, I don't take it too well. Especially not when the woman they've hired is the one girl who hated my guts in college. She thinks I'm an overprivileged, womanizing man-whore. I think she's an uptight, stuck-up bitch. And, now, she's here, in my office, telling me how to run my company. I don't think so. It doesn't matter that she has legs that go on for days or that I keep imagining bending her over my desk and showing her just how bossy I can be. I've worked my ass off and paid my dues to get to where I am, and she's not taking it from me. No freaking way. Morgan Stickford is about to learn the hard way that Wilder Cross is the only boss around here.

Nicholas Hunt is the man I hate.For good reason.His opinion of me is tainted by prejudice even before my arrival at his grandmother's estate, and my first impression of him is just as abysmal.His arrogance and icy demeanor make it clear that he's the type of man who's best handled at a distance.Fortunately, space shouldn't be an issue inside this Gilded Age mansion and its lush gardens. If I stick with the servants and he keeps to his sailboat and vintage Porsche, we should hardly cross paths at all. Unfortunately, at Rosethorn, I find that all roads eventually lead to Nicholas Hunt.Sparks fly as we spar at the dinner table. Fighting words are flung in the shadows of the palatial halls. We hang suspended in our hatred of one another, painfully oblivious to the heat and tension that build with every moment we're left alone. We're liable to kill one another, I think...right up until my eyes land on his lips and a new feeling grips hold of me: lust. What's worse? He knows it. They say you should keep your enemies close, but when Nicholas tightens his grip on my waist and draws me near, I'm not sure if it's out of loathing or love. One thing's for sure-I intend to find out.

"The Last Nizam tells the astonishing story of an Indian prince's misadventure as a farmer in Australia... A fascinating new book." (Time) "Zubrzycki approaches his subject with the assurance of an historian, the concision of a journalist and the language of a poet." (Goodreading) In early 1972 His Exalted Highness, the Rustam of the Age, the Aristotle of the Times, Wal Mamaluk, Asaf Jah VIII, the Conqueror of Dominions, the Regulator of the Realm, Nawab Mir Barakat Ali Khan Bahadur, The Victor in Battles, the Leader of Armies, the Nizam of Hyderabad and Berar, arrived in Western Australia and bought himself an outback station. So began one of the most incongruous episodes in the history of India's richest princely dynasty. The Last Nizam is the story of an extraordinary dynasty, the Nizams of Hyderabad, and how the last Nizam gave up a Kingdom to come to the backblocks of outback Australia. With vivid detail and anecdote the book charts the rise of the dynasty to fabulous wealth and prominence under the Mughul emperors of India, giving a rich and vibrant portrait of a realm soaked in blood and intrigue. Above all it describes the strange - sometimes comic, sometimes tragic - life of Mukarram Jah, the last Nizam, who left behind him the stakelous wealth of Golconda and the palaces of Hyderabad to drive bulldozers in the Australian bush.

"Scientific theory is essential to research on sexuality and sexual experiences in emerging adulthood. Theory serves a number of important functions for research, including prediction and explanation. Research has often utilized theory to help enhance what we know about sexuality among those in the developmental period of emerging adulthood. In this chapter we offer a primer on theories that have been used regularly when studying sex and relationships using emerging adult samples, including Life Course Development Theory, Symbolic Interactionism, Social Exchange Theory, and The Theory of Sexual Possible Selves. At the conclusion of our discussion of these theories and their role in guiding research and explaining findings on sex and sexuality, we offer theoretical directions to enhance the rigor of the use of theory in future research on sexual experiences among emerging adults"--
