Marley: Messy Dog

Badger just can't face eating the same old apples, worms, and roots. They're too boring! He dreams of eating something new and fancy. Badger gets some yummy ideas from seeing the animals who live near his den, but the main ingredients he tries to catch aren't so eager to become his lunch. And in the end, they unwittingly convince Badger that he should have appreciated what he had in the first place.

This book brings together work on Turkish natural language and speech processing over the last 25 years, covering numerous fundamental tasks ranging from morphological processing and language modeling, to full-fledged deep parsing and machine translation, as well as computational resources developed along the way to enable most of this work. Owing to its complex morphology and free constituent order, Turkish has proved to be a fascinating language for natural language and speech processing research and applications. After an overview of the aspects of Turkish that make it challenging for natural language and speech processing tasks, this book discusses in detail the main tasks and applications of Turkish natural language and speech processing. A compendium of the work on Turkish natural language and speech processing, it is a valuable reference for new researchers considering computational work on Turkish, as well as a one-stop resource for commercial and research institutions planning to develop applications for Turkish. It also serves as a blueprint for similar work on other Turkic languages such as Azeri, Turkmen and Uzbek.

Immerse students in the world of intellectual property law and provide essential perspectives to practice in this area. The Fifth Edition of Loren & Miller's *Intellectual Property Law* continues to provide engaging and challenging coverage of all the major types of intellectual property law: trade secret, patent, copyright, and trademark law. Covering cases and developments through Spring 2017, the book includes all the latest Supreme Court cases that are vital to a survey course, including *Star Athletica v. Varsity Brands* (as a principal case) and contextualized discussion of *Matal v. Tam* and *Impression Products v. Lexmark International*. Each chapter has been fully revised, with changes—some small, some more extensive—that optimize clear presentation of tightly edited cases and concise notes and questions. The book kicks off with an introduction that explores the basic policies animating i.p. law and concludes with two overarching chapters—one on i.p. limits (preemption and first sale), and one on remedies (to redress past harm and prevent future harm). This book will both guide student analysis and challenge students to make vital connections within and across doctrines and policies.

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies. Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools. It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardized up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook. This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation. ***Caldecott Honor winner David Shannon applies his wonderful off-beat humor to the story of a duck who decides to try riding a bike—and loves it! Another young, funny book perfect for reading aloud. One day down on the farm, Duck got a wild idea. "I bet I could ride a bike," he thought. He waddled over to where the boy parked his bike, climbed on and began to ride. At first he rode slowly and he wobbled a lot, but it was fun! Duck rode past Cow and waved to her. "Hello, Cow!" said Duck. "Moo," said Cow. But what she thought was, "A duck on a bike? That's the silliest thing I've ever seen!" And so Duck rides past sheep, horse, and all the other barnyard animals. Suddenly, a group of kids ride by on their bikes and run into the farmhouse, leaving the bikes outside. Now ALL the animals can ride bikes, just like Duck!***

*Mr Gumpy has decided to go for a ride in his motor car. It's a nice day and the sun is shining, so off he goes. But he only gets as far as the lane before the children, the rabbit, the cat, the dog, the pig, the sheep, the chickens, the calf and the goat ask if they can come along too. As the motor car and its passengers make their way across the field, the weather begins to turn and the rain is soon pouring down. The tyres cannot grip the muddy ground, so Mr Gumpy asks for volunteers to push the car. But everyone has an excuse, until it gets so bad that they all have to get out and help. Eventually, the sun shines once more as they drive across the bridge - and there's time for a swim on the way home.*

**Is foreign direct investment good for development? Moving beyond the findings of his previous book Does Foreign Direct Investment Promote Development? (CGD and IIE, 2005), Theodore H. Moran presents surprisingly good--and startlingly bad--news. The good news highlights how foreign direct investment can make a contribution to development significantly more powerful and more varied than conventional measurements indicate. The bad news reveals that foreign direct investment can also distort host economies and polities with consequences substantially more adverse than critics and cynics have imagined. This book rigorously examines the principal controversies and debates about FDI in manufacturing and assembly, extractive industries, and infrastructure, in light of new evidence and analysis. Written in engaging prose, it identifies how developed and developing countries, multilateral lending agencies, and civil society can work in concert to harness foreign direct investment to promote the growth and welfare of developing countries.**

Andrew McCarthy grows concerned for his family after he catches a young man, Zachary Denton, photographing his daughter, Grace McCarthy, and other children at a park. To his dismay, Zachary talks his way out of trouble when he's confronted by the police. He hopes that's the end of it. Then he finds Zachary at a diner and then at a grocery store. He knows their encounters aren't coincidences. And just as Andrew prepares to defend his family, Grace vanishes. As the police search stalls and the leads dry up, Andrew decides to take matters into his own hands. He starts by searching for sex offenders in the area and researching enhanced interrogation techniques... He convinces himself he'll do anything to rescue his daughter, unaware of the pure evil he'll face in his journey. He's willing to hurt-to torture-anyone to save his family. Jon Athan, the author of Into the Wolves' Den and The Abuse of Ashley Collins, delves into the underworld of internet predators in this disturbing horror novel. Are your children safe? International Electronics Directory '90, Third Edition: The Guide to European Manufacturers, Agents and Applications, Part 1 comprises a directory of various manufacturers in Europe and a directory of agents in Europe. This book contains a classified directory of electronic products and services where both manufacturers and agents are listed. This edition is organized into two sections. Section 1 provides details of manufacturers, including number of employees, production program, names of managers, as well as links with other companies. The entries are listed alphabetically on a country-by-country basis. Section 2 provides information concerning agents or representatives, including names of manufacturers represented, names of managers, number of employees, and range of products handled. A number of these companies are also active in manufacturing and so appear in both Section 1 and Section 2. This book is a valuable resource for private consumers.
