PPPs have the potential to fill the void between government accounting and capital budgeting. This volume provides a survey of PPPs in critical infrastructure, combining theory and case studies to provide a comprehensive view of possible applications. Written by a diverse group of international experts, the chapters detail PPPs across industries such as transportation, social infrastructure, healthcare, emergency services, and

Teenage Shooters is about Freddy Louche's world. Who is Freddy Louche? If you asked him he would tell you that he is an all-American teenage loser who lives in a neighborhood populated by gangbangers and bullies. He hates school because the classes are boring and many of the students are intimidators. But there are three things Freddy loves: his skateboard, his video games, and his father. His skateboard is a Serial

Resident Evil is Freddy's favorite video games because in the world of survival horror he can defend himself against the zombies and other monsters that remind him of the cretin bullies who hang out in the corridors of his school and the thugs that roam the streets of his city, a city that is in many ways like Raccoon City, which was also an all-American city until the walking dead and other beasties took control of its streets.
