#1 NEW YORK TIMES BESTSELLER • The author of *Small Great Things* returns with a powerful and provocative new novel about ordinary lives that intersect during a heart-stopping crisis. “Picoult at her fearless best . . . Timely, balanced and certain to inspire debate.”—*The Washington Post* The warm fall day starts like any other at the Center—a women’s reproductive health services clinic—its staff offering care to anyone who passes through its doors. Then, in late morning, a desperate and distraught gunman bursts in and opens fire, taking all inside hostage. After rushing to the scene, Hugh McElroy, a police hostage negotiator, sets up a perimeter and begins making a plan to communicate with the gunman. As his phone vibrates with incoming text messages he glances at it and, to his horror, finds out that his fifteen-year-old daughter, Wren, is inside the clinic. But Wren is not alone. She will share the next and tensest few hours of her young life with a cast of unforgettable characters: A nurse who calms her own panic in order to save the life of a wounded woman. A doctor who does his work not in spite of his faith but because of it, and who will find that faith tested as never before. A pro-life protester, disguised as a patient, who now stands in the crosshairs of the same rage she herself has felt. A young woman who has come to terminate her pregnancy. And the disturbed individual himself, vowing to be heard. Told in a daring and enthralling narrative structure that counts backward through the hours of the standoff, this is a story that traces its way back to what brought each of these very different individuals to the same place on this fateful day. One of the most fearless writers of our time, Jodi Picoult tackles a complicated issue in this gripping and nuanced novel. How do we balance the rights of pregnant women with the rights of the unborn they carry? What does it mean to be a good parent? *A Spark of Light* will inspire debate, conversation . . . and, hopefully, understanding. Praise for *A Spark of Light* “This is Jodi Picoult at her best: tackling an emotional hot-button issue and putting a human face on it.”—*People* “Told backward and hour by hour, Jodi Picoult’s compelling narrative deftly explores controversial social issues.”—*Us Weekly*

#1 NEW YORK TIMES BESTSELLER • Bren é Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she’s showing us how to put those ideas into practice so we can step up and lead. Look for Bren é Brown’s new podcast, *Dare to Lead*, as well as her ongoing podcast *Unlocking Us!* **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG** Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don’t pretend to have the right answers; we stay curious and ask the right questions. We don’t see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don’t avoid difficult conversations and situations; we lean into vulnerability when it’s necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we’re choosing not to invest in developing the hearts and minds of leaders at the exact same time as we’re scrambling to figure out what we have to offer that machines and AI can’t do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Bren é Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It’s why we’re here.” Whether you’ve read *Daring Greatly* and *Rising Strong* or you’re new to Bren é Brown’s work, this book is for anyone who wants to step up and into brave leadership.

#1 NEW YORK TIMES BESTSELLER • From the author of *Small Great Things* and *A Spark of Light* comes a “powerful” (*The Washington Post*) novel about the choices that alter the course of our lives. **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY MARIE CLAIRE** Everything changes in a single moment for Dawn Edelstein. She’s on a plane when the flight attendant makes an announcement: Prepare for a crash landing. She braces herself as thoughts flash through her mind. The shocking thing is, the thoughts are not of her husband but of a man she last saw fifteen years ago: Wyatt Armstrong. Dawn, miraculously, survives the crash, but so do all the doubts that have suddenly been raised. She has led a good life. Back in Boston, there is her husband, Brian, their beloved daughter, and her work as a death doula, in which she helps ease the transition between life and death for her clients. But somewhere in Egypt is Wyatt Armstrong, who works as an archaeologist unearthing ancient burial sites, a career Dawn once studied for but was forced to abandon when life suddenly intervened. And now, when it seems that fate is offering her second chances, she is not as sure of the choice she once made. After the crash landing, the airline ensures that the survivors are seen by a doctor, then offers transportation to wherever they want to go. The obvious destination is to fly home, but she could take another path: return to the archaeological site she left years before, reconnect with Wyatt and their unresolved history, and maybe even complete her research

on *The Book of Two Ways*—the first known map of the afterlife. As the story unfolds, Dawn’s two possible futures unspool side by side, as do the secrets and doubts long buried with them. Dawn must confront the questions she’s never truly asked: What does a life well lived look like? When we leave this earth, what do we leave behind? Do we make choices . . . or do our choices make us? And who would you be if you hadn’t turned out to be the person you are right now?

Review

#1 NEW YORK TIMES BESTSELLER • From the author of *Small Great Things* and *The Book of Two Ways* comes “a powerfully evocative story of resilience and the triumph of the human spirit” (Taylor Jenkins Reid, author of *The Seven Husbands of Evelyn Hugo* and *Daisy Jones & The Six*) Rights sold to Netflix for adaptation as a feature film • Named one of the best books of the year by *She Reads* Diana O’Toole is perfectly on track. She will be married by thirty, done having kids by thirty-five, and move out to the New York City suburbs, all while climbing the professional ladder in the cutthroat art auction world. She’s an associate specialist at Sotheby’s now, but her boss has hinted at a promotion if she can close a deal with a high-profile client. She’s not engaged just yet, but she knows her boyfriend, Finn, a surgical resident, is about to propose on their romantic getaway to the Galápagos—days before her thirtieth birthday. Right on time. But then a virus that felt worlds away has appeared in the city, and on the eve of their departure, Finn breaks the news: It’s all hands on deck at the hospital. He has to stay behind. You should still go, he assures her, since it would be a shame for all of their nonrefundable trip to go to waste. And so, reluctantly, she goes. Almost immediately, Diana’s dream vacation goes awry. Her luggage is lost, the Wi-Fi is nearly nonexistent, and the hotel they’d booked is shut down due to the pandemic. In fact, the whole island is now under quarantine, and she is stranded until the borders reopen. Completely isolated, she must venture beyond her comfort zone. Slowly, she carves out a connection with a local family when a teenager with a secret opens up to Diana, despite her father’s suspicion of outsiders. In the Galápagos Islands, where Darwin’s theory of evolution by natural selection was formed, Diana finds herself examining her relationships, her choices, and herself—and wondering if when she goes home, she too will have evolved into someone completely different.

Thirteen-year-old Tatum's dream of competing in the grueling 1,049-mile Iditarod Trail Sled Dog Race may be at an end when she becomes lost in a freak snowstorm during a training run on Alaska's remote Santa Ysabel Island.

“Finally: an engaging, evidence-based book about how to battle biases, champion diversity and inclusion, and advocate for those who lack power and privilege. Dolly Chugh makes a convincing case that being an ally isn’t about being a good person—it’s about constantly striving to be a better person.” –Adam Grant, New York Times bestselling author of Give and Take, Originals, and Option B with Sheryl Sandberg Foreword by Laszlo Bock, the bestselling author of Work Rules! and former Senior Vice President of People Operations at Google An inspiring guide from Dolly Chugh, an award-winning social psychologist at the New York University Stern School of Business, on how to confront difficult issues including sexism, racism, inequality, and injustice so that you can make the world (and yourself) better. Many of us believe in equality, diversity, and inclusion. But how do we stand up for those values in our turbulent world? The Person You Mean to Be is the smart, "semi-bold" person’s guide to fighting for what you believe in. Dolly reveals the surprising causes of inequality, grounded in the "psychology of good people". Using her research findings in unconscious bias as well as work across psychology, sociology, economics, political science, and other disciplines, she offers practical tools to respectfully and effectively talk politics with family, to be a better colleague to people who don’t look like you, and to avoid being a well-intentioned barrier to equality. Being the person we mean to be starts with a look at ourselves. She argues that the only way to be on the right side of history is to be a good-ish— rather than good-person. Good-ish people are always growing. Second, she helps you find your "ordinary privilege"—the part of your everyday identity you take for granted, such as race for a white person, sexual orientation for a straight person, gender for a man, or education for a college graduate. This part of your identity may bring blind spots, but it is your best tool for influencing change. Third, Dolly introduces the psychological reasons that make it hard for us to see the bias in and around us. She leads you from willful ignorance to willful awareness. Finally, she guides you on how, when, and whom, to engage (and not engage) in your workplaces, homes, and communities. Her science-based approach is a method any of us can put to use in all parts of our life. Whether you are a long-time activist or new to the fight, you can start from where you are. Through the compelling stories Dolly shares and the surprising science she reports, Dolly guides each of us closer to being the person we mean to be.

From the Preface: This manual, *Child Protective Services: A Guide for Caseworkers*, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in *A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice*. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based—including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

This raw, moving novel follows two teenagers—one, a Mohawk-wearing 17-year-old violent misfit; the other, a gay 13-year-old cast out by his family, hustling on the streets and trying to survive. Acclaimed author Davida Wills Hurwin creates a riveting narrative told in alternating perspectives of their lives before and after the violent hate crime that changed both their futures. This tragic but ultimately inspirational journey of two polarized teens, their violent first meeting, and their peaceful reunion years later is an unforgettable story of survival and forgiveness. This story is inspired by the real lives of Matthew Boger and Timothy Zaal, who have shared their story on *The Oprah Winfrey Show* and NPR.

#1 New York Times Bestseller From Liane Moriarty, the #1 New York Times bestselling author of *Big Little Lies* and *Nine Perfect Strangers*, comes *Apples Never Fall*, a novel that looks at marriage, siblings, and how the people we love the most can hurt us the deepest. The Delaney family love one another dearly—it's just that sometimes they want to murder each other . . . If your mother was missing, would you tell the police? Even if the most obvious suspect was your father? This is the dilemma facing the four grown Delaney siblings. The Delaneys are fixtures in their community. The parents, Stan and Joy, are the envy of all of their friends. They're killers on the tennis court, and off it their chemistry is palpable. But after fifty years of marriage, they've finally sold their famed tennis academy and are ready to start what should be the golden years of their lives. So why are Stan and Joy so miserable? The four Delaney children—Amy, Logan, Troy, and Brooke—were tennis stars in their own right, yet as their father will tell you, none of them had what it took to go all the way. But that's okay, now that they're all successful grown-ups and there is the wonderful possibility of grandchildren on the horizon. One night a stranger named Savannah knocks on Stan and Joy's door, bleeding after a fight with her boyfriend. The Delaneys are more than happy to give her the small kindness she sorely needs. If only that was all she wanted. Later, when Joy goes missing, and Savannah is nowhere to be found, the police question the one person who remains: Stan. But for someone who claims to be innocent, he, like many spouses, seems to have a lot to hide. Two of the Delaney children think their father is innocent, two are not so sure—but as the two sides square off against each other in perhaps their biggest match ever, all of the Delaneys will start to reexamine their shared family history in a very new light.

When a mysterious man claims to be her long-missing brother, a woman must confront her family's closely guarded secrets in this "delicious hybrid of mystery, drama, and elegance" (Jodi Picoult, #1 New York Times bestselling author). Washington, DC, 2019: Laura Preston is a reclusive artist at odds with her older sister Beatrice as their elegant, formidable mother slowly slides into dementia. When a stranger contacts Laura claiming to be her brother who disappeared forty years earlier when the family lived in Bangkok, Laura ignores Bea's warnings of a scam and flies to Thailand to see if it can be true. But meeting him in person leads to more questions than answers. Bangkok, 1972: Genevieve and Robert Preston live in a beautiful house behind a high wall, raising their three children with the help of a cadre of servants. In these exotic surroundings, Genevieve strives to create a semblance of the life they would have had at home in the US—ballet and riding classes for the children, impeccable dinner parties, a meticulously kept home. But in truth, Robert works for American intelligence, Genevieve finds herself drawn into a passionate affair with her husband's boss, and their serene household is vulnerable to unseen dangers in a rapidly changing world and a country they don't really understand. Alternating between past and present as all of the secrets are revealed, *What Could Be Saved* is an unforgettable novel about a family broken by loss and betrayal, and "a richly imagined page-turner that delivers twists alongside thought-provoking commentary" (Kirkus Reviews).

A Guide to Teaching Effective Seminars provides college and university faculty with a new approach to thinking about their teaching and helps them develop a deeper understanding of conversation itself. Seminars often inspire collaborative learning and produce rich educational environments, yet even experienced faculty find these conversations can range in quality. A Guide to Teaching Effective Seminars addresses this challenge by presenting a sociolinguistic perspective on seminars and providing instructors with best practices to manage successful seminars. Grounded in research, data, and her own deep experience teaching seminars, author Susan Fiksdal reveals ways students negotiate perspectives on reading, on conversation, and on social identities and power. By giving readers an appreciation of the discourse of seminars, the book helps to undermine stereotypes about language and people, increase civility, reduce misunderstandings, and foster tolerance for new ideas and diverse ways of expressing them. This important resource is for faculty members at all levels of experience and in every discipline who want practical advice about facilitating effective seminars. Special Features: Each chapter explores a key aspect of conversation with examples from a wide range of seminars across disciplines. Transcripts from videotaped seminars showcase authentic conversations and negotiations between students. End-of-chapter best practices promote critical thinking and collaboration. Now, having left her father behind in Chicago for dreams of art school and marriage to an ambitious young doctor, she finds herself with a child of her own. But her mother's absence and shameful memories of her past force her to doubt whether she could ever be capable of bringing joy and meaning into the life of her child, gifts her own mother never gave. Harvesting the Heart is written with astonishing clarity and evocative detail, convincing in its depiction of emotional pain, love, and vulnerability, and recalls the writing of Alice Hoffman and Kristin Hannah. Out of Paige's struggle to find wholeness, Jodi Picoult crafts an absorbing novel peopled by richly drawn characters, and explores motherhood with a power and depth only she is capable of. "A brilliant, moving examination of motherhood, brimming with detail and emotion." –Richmond Times-Dispatch "Jodi Picoult explores the fragile ground of ambivalent motherhood in her lush second novel. This story belongs to... the lucky reader." –The New York Times Book Review

Autobiography of a Recovering Skinhead is Frank Meeink's raw telling of his descent into America's Nazi underground and his ultimate triumph over drugs and hatred. Frank's violent childhood in South Philadelphia primed him to hate, while addiction made him easy prey for a small group of skinhead gang recruiters. By 16 he had become one of the most notorious skinhead gang leaders on the East Coast and by 18 he was doing hard time. Teamed up with African-American players in a prison football league, Frank learned to question his hatred, and after being paroled he defected from the white supremac.

"The Bestselling Hardcover Novel of the Year."--Publishers Weekly From the number-one bestselling author of *The Nightingale* and *The Great Alone* comes a powerful American epic about love and heroism and hope, set during the Great Depression, a time when the country was in crisis and at war with itself, when millions were out of work and even the land seemed to have turned against them. "My land tells its story if you listen. The story of our family." Texas, 1921. A time of abundance. The Great War is over, the bounty of the land is plentiful, and America is on the brink of a new and optimistic era. But for Elsa Wolcott, deemed too old to marry in a time when marriage is a woman's only option, the future seems bleak. Until the night she meets Rafe Martinelli and decides to change the direction of her life. With her reputation in ruin, there is only one respectable choice: marriage to a man she barely knows. By 1934, the world has changed; millions are out of work and drought has devastated the Great Plains. Farmers are fighting to keep their land and their livelihoods as crops fail and water dries up and the earth cracks open. Dust storms roll relentlessly across the plains. Everything on the Martinelli farm is dying, including Elsa's tenuous marriage; each day is a desperate battle against nature and a fight to keep her children alive. In this uncertain and perilous time, Elsa—like so many of her neighbors—must make an agonizing choice: fight for the land she loves or leave it behind and go west, to California, in search of a better life for her family. *The Four Winds* is a rich, sweeping novel that stunningly brings to life the Great Depression and the people who lived through it—the harsh realities that divided us as a nation and the enduring battle between the haves and the have-nots. A testament to hope, resilience, and the strength of the human spirit to survive adversity, *The Four Winds* is an indelible portrait of America and the American dream, as seen through the eyes of one indomitable woman whose courage and sacrifice will come to define a generation.

A riveting novel about what we choose to keep from our past, and what we choose to leave behind, from the New York Times bestselling author of *Wish You Were Here* and the bestselling author of *She's Not There*. Olivia McAfee and Ava Campanello have each had a change of life forced upon them. Olivia never dreamt that after her messy divorce she would find herself back in her sleepy New Hampshire home town, living in the house she grew up in and taking over her father's beekeeping business. Ava is also in search of a fresh start, moving to Adams with her daughter Lily who is in her final year of high school. For a short while these new beginnings are just what everyone hoped for. Olivia's son Asher falls for the new girl at school and Lily can't help but fall for him too. With Ash she feels happy for the first time, yet at times she wonders if she can trust him completely. Then one day Olivia receives a phone call. Lily is dead and Ash is being questioned by the police. Olivia is adamant that her son is innocent, but she also has to acknowledge to herself the flashes of his father's dangerous temper in him. As the case unfolds she realises Ash has hidden more than he's shared with her. *Mad Honey* is a gripping novel of suspense, a poignant love story, and a moving and powerful exploration of the secrets we keep and the risks we take.

In 2010, Debra Meyerson, a Stanford University professor, suffered a severe stroke in which she lost all speech and was paralyzed on her right side. Identity Theft centres on Debra's experience: her stroke, her extraordinary efforts to recover, and her journey to redefine herself. She draws on her skills as a social scientist and conversations with dozens of fellow survivors-, family members, friends, colleagues, therapists, and doctors to paint a new picture of the emotional journey through the identity-based challenges born from stroke and other accidents and illnesses that rob people of important capabilities. She shares amazing personal stories and uses them to illustrate lessons we can all learn from. She addresses these important questions: Who are you after a stroke? How do I define myself in the face of more limited abilities? How do you grieve the loss of you? What is really important to me? Who do you become during your recovery? How do I fit in? This is not a how-to book for recovery, nor will it tell you what you'll experience or how you should deal with the loss of ability, but it's a book full of hope for stroke survivors. It gives them and their support network a broad picture of what might lie ahead. And it explores some critical questions that, in the more prevalent focus on physical recovery, are all too often overlooked in the effort to help people who have lost capabilities from stroke or otherwise.
