She's a 50-year-old divorcee with an empty nest and a lonely heart. He's a truck driver who's in it for the long haul. Rose Chambers is a divorcee with an empty nest, two businesses, and a lonely heart. At least she doesn't have to talk to herself. Her 1-900-HOT-TALK clients are happy to converse—among many other imaginary oral activities—to help her pay the bills her small-town lumberyard can't cover. When she hires a new delivery driver, her life gets even more interesting. Harley-riding Barton Holloway is happy to trade driving a big rig for delivering building materials, especially when he discovers his new boss is an old flame. Overhearing her risqué phone calls brings the spark back to life, but a little challenge from her friends adds fuel to the no-longer-dormant attraction. He'll have to convince her to ride off into the sunset with him on his motorcycle built for two.

Inspired to Design

The 924 Carrera was a homologation model built to qualify the 924 model to race in Group 4. One of the great supercars of the 1980s, the 924 Carrera was considered by many to have better handling characteristics than Porsche's flagship 911. The book features interviews with many of those involved with the car at the time together with race stories, statistics, and a unique exposé of component failures during racing.

For both road and mountain bikes.

Nigel Bennett's unique autobiography describes his life and career, from growing-up influenced by car design, to his education and the building of his 750 specials. He describes his work as Firestone Development Manager, recounting many tales of the outstanding designers and drivers of the period. Detailing his work in Formula 1, as a Team Lotus engineer, and then as Team Ensign designer, he also covers his Indycar designs at Theodore, Lola Cars and Penske Cars. Life after his retirement, his involvement in boat design and with modern F1 teams, are also recounted.

Fiat & Abarth 500 & 600

Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves. Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.
