The present book 'Himachal Pradesh - General Knowledge' has been specially published for the people who want to explore more about the beautiful state of Himachal Pradesh to quench their thirst of knowledge for the purpose of Competitive Exams, Business Opportunities, Travel & Tourism or any other reason. The book is the outcome of months of painstaking research and careful study carried out about the state and its various important features and aspects covered at appropriate length, such as: Origin, History, Geography, Government, Economy, People, Art & Culture, Customs & Traditions, Festivals, Rivers & Temples, Forests & Wildlife, Industries, Education, Transport & Tourism, etc.
For every story of optimism about the growth of medical tourism to India, there are multiple others about medical neglect. Scratch the surface and you find a thick layer of corruption in this life-sustaining sector. This hard-hitting volume shows a mirror to society and, more specifically, to those associated with the health sector—on how healers, in many cases, are shifting shape to becoming predators. In the essays by contributors from within and outside the medical fraternity, we see the many faces, the many facets of corruption—from exorbitant billing by corporate hospitals to the non-merit-based selection in medical colleges to questionable motives playing strong in the area of organ transplantation. But Healers or Predators? is not only about the illness affecting the sector. It also offers solutions, and some stories of hope. The Foreword by Amartya Sen is an added bonus. 'This splendid, if depressing, book will do a lot to remedy [the] momentous neglect [of healthcare]. We have excellent reasons to be grateful to the authors and editors of this important collection of investigative studies.'—Amartya Sen

With its common colonial experience, an overarching cultural unity despite apparent diversities, and issues of nation-building cutting across national frontiers, South Asia offers a critical site on which to develop a discourse on regional security that centres on the notion of human security. This book analyses the progress that has been achieved since independence in multiple intersecting areas of human security development in India, the largest nation in South Asia, as well as considering the paradigms that might be brought to bear in future consideration and pursuance of these objectives. Providing original insights, the book analyses the idea of security based on specific human concerns cutting across state frontiers, such as socio-economic development, human rights, gender equity, environmental degradation, terrorism, democracy, and governance. It also discusses the realisation that human security and international security are inextricably inter-linked. The book gives an overview of Indian foreign policy, with particular focus on its relationship with China. It also looks at public health care in India, and issues of microfinance and gender. Democracy and violence in the country is discussed in-depth, as well as Muslim identity and community. Human and International Security in India will be of particular interest to researchers of contemporary South Asian History, South Asian Politics, Sociology and Development Studies.
