

Porfirio Diaz Dictator Of Mexico 1st Edition

Porfirio Diaz-President of Mexico, the Master Builder of a Great Commonwealth, is a 1910 biography of Porfirio Diaz (1830-1915), a Mexican general and politician who served seven terms as President of Mexico, a total of 31 years, from 1877 to 1880 and from 1884 to 1911.

Barra became interim president of Mexico in 1911 after the fall of dictator Porfirio Diaz, whom he had long supported, and ruled only a short time before popular insurrection and revolution swept the country. Drawing on extensive archival material, Henderson (history, Winona State U., Minnesota) presents a biography that portrays him as a reformer and bridge between the old and new governments. Francisco León de la Barra and the Mexican Revolution

President of Mexico, the Master Builder of a Great Commonwealth

The biography of General Don Porfirio Diaz, president of the Republic of Mexico

Report Presented by Gen. Porfirio Diaz, President of the United Mexican States to His Follow [sic] Countrymen Covering His Administration During the Constitutional Period from the 1st of December, 1900 to the 30th of November, 1904

President of Mexico

In 1908 Franciso I. Madero wrote to arouse his people to free themselves from the domination of the Diaz Administration by taking advantage of the opportunity afforded in the scheduled elections of 1910. His program voiced the rationale for the Mexican Revolution, 1910-1917: Effective suffrage, No re-election. Now in a precise translation one may read the true story of Madero's political program - a milestone in Mexican History." Excerpt from Porfirio Diaz, President of Mexico: The Master Builder of a Great Commonwealth "I look at Porfirio Diaz, the President of Mexico, as one of the greatest men to be held up for the hero-worship of mankind." These words, uttered by Senator Elihu Root, when in 1907 and as Secretary of State of the United States, he visited the Mexican Republic, fully justify the publication of any work which, containing reliable data, may give an impartial and truthful account of the life of President Diaz. The wonderful career of this great man, both owing to his military achievements and to his great success as a statesman cannot fail, and has not failed up to now, to claim the attention not only of his countrymen, but also of the whole civilized world. In the English speaking countries, the desire to have a thorough knowledge of the past deeds and present achievements of General Porfirio Diaz, is frequently manifested. The writer of this work, therefore, thinks that a book prepared like the present one and based upon accurate information, a great deal of which has been obtained through personal observation, will prove interesting to the reading public of the United States and England. The Master Builder of a Great Commonwealth (Classic Reprint)

Félix Diaz, the Porfirians, and the Mexican Revolution

Barbarous Mexico

Seven Times President of Mexico

The Maker of Modern Mexico

Porfirio Diaz was a soldier and president of Mexico who is known for establishing a strong centralized state during his term. Considered a dictator by a few, Diaz is a dubious figure in Mexican history. History specialists assert that he stifled the media and controlled the court framework, figuring out how to keep his people in a steady condition of uncertainty while controlling all parts of the administration from his seat.

Excerpt from Porfirio Diaz: Seven Times President of Mexico Simply because he thought I had done something for his country in Mexico as I Saw It, and because I did not want to be commissioned or paid for my work - but undertook it as an independent person, and a friend. Simple reasons, but they won his heart, and I can only regret my own inability to draw his character more dramatically for the world. He deserves the pen of a John Morley, who has so graphically given us the characteristics and personality of a statesman in his Life of Gladstone, whom in some ways Diaz resembles. He te sembles him in his quiet simplicity, the charm of his home life, and his keen interest in many varied subjects. By the hour, day after day, during my visit, the President, Madame Diaz and I talked. They knew I could not remain long in Mexico - not six months as previously - and they gave much of their time to help me. From General to President

Mexico's Crucial Century, 1810-1910

The History of the Mexican Revolution of 1910-1942

Porfirio Díaz

The Presidential Succession of 1910

After Mexico gained its independence from Spain in 1821, it began the work of forging its identity as an independent nation, a process that would endure throughout the crucial nineteenth century. A weakened Mexico faced American territorial ambitions and economic pressure, and the U.S.-Mexican War threatened the fledgling nation's survival. In 1876 Porfirio Díaz became president of Mexico, bringing political stability to the troubled nation. Although Díaz initiated long-delayed economic development and laid the foundation of modern Mexico, his government was an oligarchy created at the expense of most Mexicans. This accessible account guides the reader through a pivotal time in Mexican history, including such critical episodes as the reign of Santa Anna, the U.S.-Mexican War, and the Porfiriato. Colin M. MacLachlan and William H. Beezley recount how the century between Mexico's independence and the outbreak of the Mexican Revolution had a lasting impact on the course of the nation's history.

The fall of Porfirio Diaz has traditionally been presented as a watershed between old and new: an old style repressive and conservative government, and the more democratic and representative system that flowered in the wake of the Mexican Revolution. Now this view is being challenged by a new generation of historians, who point out that Diaz originally rose to power in alliance with anti-conservative forces and was a modernising force as well as a dictator. Drawing together the threads of this revisionist reading of the Porfiriato, Garner reassesses a political career that spanned more than forty years, and examines the claims that post-revolutionary Mexico was not the break with the past that the revolutionary inheritors claimed.

Contemporary American Opinion of Porfirio Diaz, Dictator of Mexico

The Land where Hope Marches with Despair

Porfirio Diaz

An Introduction

Report Presented by Gen. Porfirio Diaz, President of the United Mexican States to His Follow [Sic] Countrymen Covering His Administration During the Constitutional Period from the 1st of December, 1900 to the 30th of November, 1904

American historians preoccupied with the stirring events of the Mexican Revolution and the years following tend to neglect the basic causes of the conflict. John Kenneth Turner—a crusading California newspaperman—presents these causes with brilliance and passion in Barbarous Mexico, his exposé of the Díaz regime. Published serially beginning in the fall of 1909, his articles received scores of favorable reviews. The Rochester Times wrote: "The abolitionists in our own ante bellum days did not formulate an indictment as repulsive as that brought against Mexico by this impassioned writer." A British periodical called Turner "an American humanitarian who deserves the thanks of civilisation." Mexican President Francisco I. Madero himself said that Barbarous Mexico contributed greatly to the success of the Revolution. Despite its fame early in the twentieth century, Barbarous Mexico was out of print for close to sixty years. The present edition, with an introductory biographical essay on Turner by Sinclair Snow and photographs of the principal characters involved, not only reemphasizes the causes of the Mexican Revolution, but provides both lay reader and scholar with a vivid and exciting account of life in Mexico under Porfirio Díaz.

“100 pages of text and 184 historical news photographs . . . This is the Mexican Revolution in its drama, its complexity, its incompleteness.” —Bertram D. Wolfe
The Mexican Revolution began in 1910 with the overthrow of dictator Porfirio Díaz. The Wind That Swept Mexico, originally published in 1943, was the first book to present a broad account of that revolution in its several different phases. In concise but moving words and in memorable photographs, this classic sweeps the reader along from the false peace and plenty of the Díaz era through the doomed administration of Madero, the chaotic years of Villa and Zapata, Carranza and Obregón, to the peaceful social revolution of Cárdenas and Mexico’s entry into World War II. The photographs were assembled from many sources by George R. Leighton with the assistance of Anita Brenner and others. Many of the prints were cleaned and rephotographed by the distinguished photographer Walker Evans. “Here is the history of the revolution in 184 of the best photographs of the time. The whole disintegration and painful reintegration of a society is marvelously set before the eyes.” —Times Literary Supplement
“A classic and sympathetic statement of the first of the great twentieth century revolutions—its words and pictures command our attention and our respect.” —Military History
“One could not have seen it more closely and fully had one taken part in it.” —Bertram D. Wolfe

Porfirio Díaz and the Furture of Mexico

The Master Builder of a Great Commonwealth

Porfirio Diaz, Seven Times President of Mexico ... With Over 100 Illustrations and a Map

Porfirio Diaz, President of Mexico

Porfirio Diaz and His Work

Providing both an analysis of the Mexican Revolution and a compelling story of the notorious Pancho Villa, this book describes this historical period from the perspective of its most iconic figure. • Provides a chronology of Villa's life linked to important revolutionary events • Includes photos of Pancho Villa in different stages of his life, some of which depict other important revolutionary leaders as well • Logically organized and clearly written to facilitate reading comprehension and research on specific topics

Study of diplomatic relations between Mexico and the U.S. during Diaz' first term as President of Mexico, 1877-1880.
