election! The race is tougher than she expected: her popular opponent declares that he's the "best man for the job" and seems to have captured the votes of all of the class's boys. But Grace is more determined than ever. Even if she can't be the best man for the job, she can certainly try to be the best person! This timely story not only gives readers a fun introduction to the American electoral system but also teaches the value of hard work, courage, independent thought -- and offers an inspiring example of how to choose our leaders.

A guide to help aspiring special education teachers pass their test Twenty states require would-be special education teachers to pass various Praxis II tests for licensure. All six special education tests in the Praxis II series are covered in this book, which includes focused subject reviews and a full-length practice test for each subject assessment exam. Praxis Core tests measure skills in reading, writing and mathematics. Universities may use the Core tests to evaluate individuals for entry into teacher education programs, and many states also require Core scores as part of their licensing process. This guide, with access to 12 practice tests, is designed for those studying for the Core Academic Skills for Educators: Reading (5712), Core Academic Skills for

Philosophy for Children (P4C) is a movement that teaches reasoning and argumentative skills to children of all ages. This book looks at the progress that P4C has made in the UK in addressing issues of literacy, critical thinking, PSHE, education for sustainable development and wider issues such as bullying. Chapters identify the different theories and practices that have emerged and discuss the necessity for a reflective approach that P4C brings to education. The book highlights how this movement can fit into the early years, primary and secondary curriculum and the challenges and rewards that

and transformation. Based on innovative research, the author presents new approaches to learning in early childhood education, shifting attention to the force and impact which material objects and artefacts can have in learning. Drawing upon the theories of feminist Karen Barad and philosophers Gille Deleuze and Félix Guattari, Hillevi Lenz Taguchi discusses examples of how pens, paper, clay and construction materials can be understood as active and performative agents, challenging binary divides such as theory/practice, discourse/matter and mind/body in teaching and

learning. Numerous examples from practice are explored to introduce an intra-active pedagogy. 'Methodological' strategies for learning with children in preschools, and in teacher education, are brought to the fore. For example: the neighbourhood around the preschool and children's homes is explored, using drawing and construction-work on the floor; mathematics is investigated in teacher education, using the body, dance and music to investigate mathematical relationships and problems; taken-for-granted forms of academic writing are challenged by different forms of praxis- and experience-based

writings that transgress the theory/practice divide; children, students and teacher educators use pedagogical documentation to understand their own learning, and to critique dominant habits of thinking and doing. Challenging the dominant understanding of 'inclusion' in educational contexts, and making 'difference' actively visible and positive, this book is rooted in the experiences, practices and words of teachers, teacher educators and student teachers. It will appeal to all those involved in early childhood education and also to those interested in challenging educational thinking and practices.

Among the welter of books on critical pedagogy, this volume will be especially valued for its direct focus on early years and elementary educators. Benefiting from the considered views of two veteran teachers of critical pedagogy, the volume is far more than a knowledge-rich resource, offering as it does vital support in applying the tenets of critical pedagogy to classroom practice. Alongside specific examples of teachers engaging in critical pedagogy in elementary and early-childhood classrooms, the material features close analysis and guidance that will help ease teachers into reflective practice in critical

Indeed, the authors move readers even further than this, showing how students as well as teachers can transform their experience of education through critical reflection. After surveying the field of critical pedagogy, the authors discuss the core precepts that inform the classroom practice of critical pedagogues. They move on to discuss how vital these early and elementary years are in forging children's nascent identities. Other topics covered include discrimination, gender issues, the
