delimitation of the -civic- as a category, connections between local and global in the civic project, the question of political advocacy in the classroom, and the role of normative commitments.

Collectively these chapters illustrate the real possibility of connecting the scholarly study of religion with the societies in which we, our students, and our institutions exist. The contributing authors model new ways of engaging questions of civic belonging and social activism in the religion classroom,

builds on the book's three-pronged coverage of party organization, party in the electorate, and party in government and integrates contemporary examples—such as campaign finance reform, party polarization, and social media—to bring to life the fascinating story of how parties shape our political system. New to the 17th Edition Fully updated through the 2016 election, including changes in virtually all of the boxed materials, the chapter openings, and the data presented. Explores increasing partisan hostility, the status of voter ID laws and other efforts to affect voter turnout, young voters' attitudes and participation, and the role of big givers such as the energy billionaire Koch brothers in the 2016 campaigns. Critically examines the idea that Super PACs are replacing, or can replace, the party organizations in running campaigns. New and expanded online Instructor's Resources, including author-written test banks, essay

*The New York Times has described James Martin as maybe "the only Jesuit priest with a degree from the Wharton School," and in the wake of our current economic crisis, the story of his remarkable journey from corporate America to the Society of Jesus couldn't be more timely. From the halls of General Electric under Jack Welch to his entry into the priesthood, *In Good Company* tells this seeker's powerful story with humor and grace. The book's gems of wisdom will appeal to anyone seeking meaning in daily life. Fast-paced, compelling, and often humorous, his story offers a fresh, inside look at corporate America, the Jesuit vocation, and the human quest for a life well-lived. This Tenth Anniversary Edition features a new preface by the author.*

Drawing on new approaches in comparative politics, *Democratic Latin America* focuses on analyzing political institutions as a way to assess broader trends in the region's politics, including the rise of democracy. The text looks at the major institutions—executive, legislature, judiciary, military, and more—in 18 democratic countries to not only provide an expansive view of politics in Latin America but to also facilitate cross-national

predominant power of the system, its object is to illustrate everything Congressional. Everybody has seen, and critics without number have said, that our form of national government is singular, possessing a character altogether its own; but there is abundant evidence that very few have seen just wherein it differs most essentially from the other governments of the world. There have been and are other federal systems quite similar, and scarcely any legislative or administrative principle of our Constitution was young even when that Constitution was framed. Contents: The House of Representatives The House of Representatives. Revenue and Supply The Senate The Executive Through the lens of real estate transactions from 1890 to 1920, Kevin McGruder offers an innovative perspective on Harlem's history and reveals the complex interactions between whites and African Americans at a critical time of migration and development. During

these decades Harlem saw a dramatic increase in its African American population, and although most histories speak only of the white residents who met these newcomers with hostility, this book uncovers a range of reactions. Although some white Harlem residents used racially restrictive real estate practices to inhibit the influx of African Americans into the neighborhood, others believed African Americans had a right to settle in a place they could afford and helped facilitate sales. These years saw Harlem change not into a "ghetto," as many histories portray, but into a community that became a symbol of the possibilities and challenges black populations faced across the nation. This book also introduces alternative reasons behind African Americans' migration to Harlem, showing that they came not to escape poverty but to establish a lasting community. Owning real estate was an essential part of this plan, along with building churches, erecting

Decades of research have demonstrated that the parent-child dyad and the environment of the family—which includes all primary caregivers—are at the foundation of children's well-being and healthy development. From birth, children are learning and rely on parents and the other caregivers in their lives to protect and care for them. The impact of parents may never be greater than during the earliest years of life, when a child's brain is rapidly developing and when nearly all of her or his experiences are created and

shaped by parents and the family environment. Parents help children build and refine their knowledge and skills, charting a trajectory for their health and well-being during childhood and beyond. The experience of parenting also impacts parents themselves. For instance, parenting can enrich and give focus to parents' lives; generate stress or calm; and create any number of emotions, including feelings of happiness, sadness, fulfillment, and anger. Parenting of young children today takes place in the context

The British Tradition

American Military History provides the United States Army-in particular, its young officers, NCOs, and cadets-with a comprehensive but brief account of its past. The Center of Military History first published this work in 1956 as a textbook for senior ROTC courses. Since then it has gone through a number of updates and revisions, but the primary intent has remained the same. Support for military history education has always been a principal mission of the Center, and this new edition of an invaluable history furthers that

purpose. The history of an active organization tends to expand rapidly as the organization grows larger and more complex. The period since the Vietnam War, at which point the most recent edition ended, has been a significant one for the Army, a busy period of expanding roles and missions and of fundamental organizational changes. In particular, the explosion of missions and deployments since 11 September 2001 has necessitated the creation of additional, open-ended chapters in the story of the U.S. Army in action. This first volume covers the Army's history from its birth in 1775 to the eve of World War I. By 1917, the

United States was already a world power. The Army had sent large expeditionary forces beyond the American hemisphere, and at the beginning of the new century Secretary of War Elihu Root had proposed changes and reforms that within a generation would shape the Army of the future. But world war-global war-was still to come. The second volume of this new edition will take up that story and extend it into the twenty-first century and the early years of the war on terrorism and includes an analysis of the wars in Afghanistan and Iraq up to January 2009.
