

## Preschool Lesson Plan The Very Hungry Caterpillar

Imagine having weeks of complete lesson plans. No more long hours of trying to come up with fun and interesting curriculum. Our lesson plans are written, tested and used by expert teachers of over 16 years. Our instructors understand what kids think is fun and what they need to know to do well in preschool, kindergarten and beyond. They know how to make curriculum that teaches kids while having fun, sometimes without them even knowing that they are learning. All our lesson plans meet and exceed federal rules and guidelines regarding preschool programs. Students are taught important skills that are the necessary building blocks for learning to read, advanced mathematics, etc. All lesson plans include activities in the following areas: Music & Movement Language & Literacy Math & Cognitive Fine Motor Skills Creative Arts Sensory Dramatic Play & Social Development Science Gross Motor Field Trip Ideas Each "subject" for the lesson plans is designed to cover at least one to two weeks, depending on the length and frequency of your classes. These lesson plans are written by a current, licensed, educated teacher for anyone who teaches; a professional teacher or homeschooling parents. What do I get? You will receive lesson plans that will cover four to eight weeks of teaching, depending on how often you hold class. The topics in Volume 3 include: All About Me Wheat and Grains Health, Doctor and Dentist Thanksgiving While Thanksgiving is specific to the time of year, other units can be taught any time during the calendar year.

Bestselling Caldecott Honor artist David Shannon tells the story of a determined duck who decides to jump on a tractor and drive it around the barnyard and through town, with hilarious consequences! Shannon's wildly popular, award-winning Duck on a Bike left children begging him to tell them another story about Duck after seeing him pictured alongside a shiny red tractor. Now Duck is back and turning the farm upside down! Flushed with the success of his trailblazing bike ride around the farm, Duck decides he's ready to drive the tractor. As in the bestselling Duck on a Bike, all the barnyard animals share their humorous comments as they watch Duck do the unthinkable. Then, one by one, they join him on the tractor for a ride! But what happens when Duck drives the big red tractor through town, past the popular diner where all the locals are having lunch? What will those folks really think when they see Duck and all the other animals riding around on Farmer O'Dell's tractor? Filled with entertaining detail and sly jokes, readers will pore over each picture again and again. Perfect for reading aloud! This book is designed for a teacher working with children ages 3-5 in a classroom, homeschool or home preschool environment. One of the most important aspects of this series is that it includes fun activities that will enhance their skills. These are complete lessons and activities that have been designed for compliance with federal and state guidelines for education. We go above and beyond to bring you MORE than what's expected in the public school system. The skills we will be working with include: listening skills, music, movement, language and literacy, mathematics, science, fine motor, creative art, sensory, dramatic play, and social skills. The book is organized by themes which will help you quickly find just the right information. The headings in the book will direct you quickly to large group, small group, and free time activities. It will also provide ideas for field trips. This volume covers: Winter Weather, Holiday Happenings, Machines and Tools, Fairy Tales in Three's.

Preschool Lesson Plans

All Are Welcome

**The earlier that children develop a love for physical activity, the better able they are to acquire the healthy habits that will serve them well throughout their lives. Moving With Words & Actions is designed to help them develop that critical physical literacy. Moving With Words & Actions offers early childhood and physical education teachers more than 70 lesson plans that can be used immediately or can be used as models for creating additional lessons. The plans reinforce both physical literacy and language literacy; they use words related to children's academic learning and understanding of their immediate environment to entice them to move. The lesson plans • Use an interdisciplinary approach, integrating academic concepts from language arts, math, science, health and nutrition, community awareness, and environmental awareness • Are highly adaptable for various settings, including those working with individualized education programs and 504 accommodation plans as well as those teaching in limited spaces • Offer great noncompetitive activities that are perfect for use by recess, lunchtime, and before- and after-school specialists • Have been field tested according to best practices to ensure age appropriateness Each lesson plan includes three learning tasks that help children apply a variety of action words and movement concepts to the moderate- to vigorous-intensity physical activities prescribed in the tasks. Most tasks are easy to implement, requiring no equipment or specialized setting. What's more, all lesson plans address SHAPE America's National Standards and Grade-Level Outcomes for K-12 Physical Education, so preschool children will have a head start on their kindergarten learning. This SHAPE America book, based on the authors' classic Movement-Based Learning, has been completely revamped with new lessons and new material to reflect current research, address the new standards and outcomes, and emphasize physical literacy. Part I offers expert guidance in selecting age-appropriate content, creating and implementing lesson plans, making the most of every lesson, and assessing your students' learning and progress. In part I, you'll explore the importance of words in young children's lives and learn what constitutes an appropriate learning task and how that understanding should inform your teaching. These chapters also highlight two primary instructional strategies for this age group, identify five teaching practices to help student teachers create preservice lessons, and outline three assessment techniques for teachers in early-childhood settings. Part II supplies the lesson plans themselves, categorized by these units: • Healthy Bodies (examining body parts and the ways they move, and increasing awareness of healthy nutrition) • Our Community (enhancing children's understanding of community helpers in familiar roles) • Living Creatures (helping children appreciate animals by imitating their movements, behaviors, and characteristics) • Science and**

**Math (using action rhymes, riddles, and games to learn math and science concepts) • Language Arts (expanding on children’s language arts and movement vocabularies with alphabet challenges, action poems, movement riddles, and more) Moving With Words & Actions will help you plan lessons with confidence, use sound instructional strategies, and assess your students effectively as they learn how their bodies function, move, and grow in healthy ways. Children will enjoy the movement activities, which are fun in and of themselves; but, more importantly, they will be taking a solid first step toward becoming physically literate learners who will gain the knowledge, skills, and confidence they need to move with competence in multiple environments and lead active lives.**
