This series is endorsed by Cambridge International Examinations and is part of Cambridge Maths.

Global Citizenship is not an additional subject, but a way of teaching the existing curriculum, which promotes social justice and equity. This handbook explains Global Citizenship and develops its principles into clear, practical pointers for use in school. By discussing the issues, ideas and approaches in this handbook, users will be able to explore and develop their own understanding of Global Citizenship. Teachers will be able to bring its concepts into their educational practice, through every subject area, into assemblies, and across the whole school. The handbook will be a valuable tool for classroom teachers, head teachers, teacher educators, school governors and home school educators. It will also be of interest to non-teaching school governors/school-board members, and parents. Global Citizenship: The Handbook for Primary Teaching contains: an exploration of issues for In-Service Training; strategies for implementing whole-school change; ideas and activities for assemblies and classroom work; specific sections mapping Global Citizenship to subject areas.

for England, Scotland and Wales; a wide range of activities to deliver subject areas including Citizenship/PSHE, PSD and PSE through Global Citizenship; lesson plans and photocopiable resource material to support Literacy/English in the classroom; material relevant to Environmental Studies 5-14; ideas and guidance on incorporating Global Citizenship into the QCA Geography Schemes of Work; a comprehensive list of useful books for children and teachers, resources, weblinks and contact addresses

Cambridge Primary Mathematics Stage 4 Teacher's Resource with CD-ROM

New Heinemann Maths Year 5

Provides ideas and advice for teachers who are asked to teach English to very young children (3-6 years). Offers a wide variety of activities such as games, songs, drama, stories, and art and craft, all of which follow sound educational principles. Includes numerous photocopiable pages.

Written for use with the Cambridge Primary Mathematics Curriculum Framework, and endorsed by Cambridge International Examinations, the Cambridge Primary Mathematics series is informed by the most up-to-date teaching philosophies from around the world. It aims to support teachers to help all learners become confident and successful mathematicians through a fun and engaging scheme. Through an investigatory approach children learn the skills of problem solving in the context of other mathematical strands in the course. The course will encourage learners to be independent thinkers with the confidence to tackle a wide range of problems who understand the value and relevance of their mathematics. Classroom discussion is encouraged to help learners become good mathematical communicators, to justify answers and to make connections between ideas. This series is part of Cambridge Maths (www.cie.org.uk/cambridgeprimarymaths), a project between Cambridge University Press and Cambridge International Examinations and is appropriate for learners sitting the Primary Checkpoint test.

Series has been developed in accordance with the requirements of the new generation of agreed syllabuses based on the model syllabus guidelines Teacher's Books provide a concise introduction to each religion and consist of 10 units of work based on key themes Poster Packs contain a series of high-quality images to be used with the activities in the Teacher Books to stimulate ideas and discussion

Extension activities (64 pages and 53 photocopy master sheets) for Levels 4-7 of the Cambridge Primary Mathematics course (pupil's books, teacher's resource books, skill support activities, an answer book, games, puzzles, project booklets, software, and more); fits National Curriculum requirements.
