This is the first multi-volume collection of major writings on cultural anthropology, the sub-field of anthropology which is concerned with how people in different places live and understand the world around them. It covers key methodologies (participant observation, ethnography) and topics (kinship, ritual, values) and maps the development of the field from its beginnings in the mid-nineteenth century through to recent and current debates on the 'critique of anthropology' and the rise of new methodologies such as multi-sited research. The four volumes are arranged thematically and each is separately introduced. Drawing upon essays from anthropology and related disciplines, the volumes together chart the origins of the field, explore its core theories and methods, and trace the proliferation of sub-fields that it has generated, including anthropology of art, urban anthropology, medical anthropology and the anthropology of gender and sexuality. With key texts from James George Frazer, Lewis Henry Morgan, Bronislaw Malinowski, Franz Boas, Ruth Benedict, Margaret Mead, Lucy Mair, Claude Levi Strauss, Melford Spiro, Marshall Sahlins, Laura Nader, Maurice Godelier, David Graeber, Suad Joseph and many more, this set is an essential resource for scholars and students of the subject. Brian and his friends are not part of the cool crowd. They're the misfits and the troublemakers—the ones who jump their high school's fence to skip class regularly. So when a deadly virus breaks out, they're the only ones with a chance of surviving. The virus turns Brian's classmates and teachers into bloodthirsty attackers who don't die easily. The whole school goes on lockdown, but Brian and his best friend, Chad, are safe (and stuck) in the theater department—far from Brian's sister, Kenzie, and his ex-girlfriend with a panic attack problem, Laura. Brian and Chad, along with some of the theater kids Brian had never given the time of day before, decide to find the girls and bring them to the safety of the theater. But it won't be easy, and it will test everything they thought they knew about themselves and their classmates. Praise for SICK "The gore and action will leave enthralled readers thrilled and then sated with each kill on either side." —Booklist "Between the pacing and the heroes' salty, blue language (full of lovingly creative, genital-inspired insults), reluctant readers who love zombies will devour it, right up to the abrupt end." —Kirkus Reviews "Sick is well written, with great detail, even if it is a little gory." —VOYA Magazine Awards 2014 Quick Picks for Reluctant Young Readers list from YALSA

Author of the forthcoming What She Ate: Six Remarkable Women and the Food That Tells Their Stories (Summer 2017) With a swooping voice, an irrepressible sense of humor, and a passion for good food, Julia Child ushered in the nation’s culinary renaissance. In Julia Child, award-winning food writer Laura Shapiro tells the story of Child’s unlikely career path, from California party girl to coolheaded chief clerk in a World War II spy station to bewildered amateur cook and finally to the Cordon Bleu in Paris, the school that inspired her calling. A food lover who was quintessentially American, right down to her little-known recipe for classic tuna fish casserole, Shapiro’s Julia Child personifies her own most famous lesson: that learning how to cook means learning how to live.

Britain, in the mid 21st century. A new prime minister, Lev Solokov is elected. In spite of his Russian surname, he is the charismatic politician who, on the surface, appears to be just what Britain needs. But he's not what Gavin needs. Gavin is a Pustoy, a human who, among countless others, Solokov's researchers has declared a soulless, subhuman race. Solokov joins a dark lineage of genocidal tyrants that have gone before him. In synthesizing his own race to persecute others, perhaps he has succeeded in a horror more insidious than any of his forebears, especially as he appears to have done so with both overwhelming public blessing and encouragement. Or at least he would have, if not for the increasing din of the Pustoy protesting outside his offices. Chosen at random owing to his position as a forefront campaigner for the rights of the Pustoy, Gavin is framed for a crime he didn't commit and is forced to go on the run, and so Solokov in one fell swoop kills any budding sympathy the people may have had for the Pustoy, and would appear to have silenced one of his loudest protestors. Just who are the Pustoy of this world? The persecutors or the persecuted? Will Gavin remain a hunted scapegoat? Is Solokov acting for the greater good, are the Pustoy really devoid of a soul? More importantly, how far away is this future, really? Philippe Lenne's conceptual poetry collection demands these questions of the reader, whilst offering an unflinching examination of the human psyche, exploring the clouded moral hues between black and white, between right and wrong, that exist inside all of us. For fans of "1984," "Brave New World," and other greats of dystopian fiction, Philippe Blenkiron's debut poetry collection is shocking, unsettling, and closer to real-life than we dare admit...

A collection of essays on music and life by the famed classical pianist and composer Stephen Hough is one of the world's leading pianists, winning global acclaim and numerous awards, both for his concerts and his recordings. He is also a writer, composer, and painter, and has been described by The Economist as an of "Twenty Living Polymaths." Hough writes informally and engagingly about music and the life of a musician, from the broader aspects of what it is to walk out onto a stage or to make a recording, to specialist tips from deep inside the practice room: how to trill, how to pedal, how to practice. He also writes vividly about people he's known, places he's traveled to, books he's read, paintings he's seen; and he touches on more controversial subjects, such as assisted suicide and abortion. Even religion is there—the possibility of the existence of God, problems with some biblical texts, and the challenges involved in being a gay Catholic. Rough Ideas is an illuminating, constantly surprising introduction to the life and mind of one of our great cultural figures.
