Book Jacket.

Concepts and Cases in Nursing Ethics maps the ethical landscape of contemporary nursing. The book is the product of a collaboration between philosopher-ethicist Michael Yeo, nurse-ethicist Anne Moorhouse, and six representatives of various

## Bookmark File PDF Professional Standards Ethics Cno

areas of professional nursing. It thus combines philosophical and ethical analysis with nursing knowledge and experience in a manner that is both understandable and relevant. The book is organized around six main concepts in nursing ethics: beneficence, autonomy, confidentiality, truth-telling, justice, and integrity. A chapter is devoted to the elucidation of each of these concepts. In each chapter, historical background and conceptual analysis are supplemented by case studies that exemplify issues and show how the concept applies in nursing practice. In this new edition, the materials in each chapter have been updated to reflect recent

humanitarian work of nurses, doctors, and other health care providers in the fight against COVID-19 and beyond. *Concepts and Cases in Nursing Ethics* is an introduction to contemporary ethical issues in health care, designed especially for Canadian audiences. The book is organized around six key concepts: beneficence, autonomy, truth-telling, confidentiality, justice, and integrity. Each of these concepts is explained and discussed with reference to professional and legal norms. The discussion is then supplemented by case studies that exemplify the relevant concepts and show how each applies in health care and nursing practice. This new fourth

by changing nurses'™ working conditions and demands. Licensed nurses and unlicensed nursing assistants are critical participants in our national effort to protect patients from health care errors. The nature of the activities nurses typically perform — monitoring patients, educating home caretakers, performing treatments, and rescuing patients who are in crisis — provides an indispensable resource in detecting and remedying error-producing defects in the U.S. health care system. During the past two decades, substantial changes have been made in the organization and delivery of health care — and consequently in the job description and work environment of nurses. As patients are increasingly cared for as outpatients, nurses in hospitals and nursing homes deal with greater severity of illness. Problems in management

initiated staff performance evaluation of the past and the true peer review aspects of professional practice for the future. This text follows in line with the Magnet program requirement "that nurses at all levels use self appraisal performance review and peer review, including annual goal settings, for the assurance of competence and professional development" page 30 of the 2008 Magnet manual. This unique text teaches nurses the skills they need to demonstrate organizational processes, structures, and outcomes that

help insure accountability, competence and autonomy.

Prepared under the auspices of the International Council of Nurses (ICN), this first volume provides a comprehensive overview of the rapidly emerging field of advanced nursing practice. It addresses central issues in the role and practice development that are fundamental to defining and differentiating the nature of this field. Topics include defining the role, role characteristics, scope of practice, education, regulation and

research. Obstacles to and facilitators of that role are addressed and include ethical questions arising in the context of practice development. With an international focus, this volume examines international developments in the field, as reflected in country-specific case studies and examples. It offers a valuable resource for advanced practice nurses, educators and administrators at healthcare institutions.

In *Realities of Canadian Nursing*, influential scholars throughout Canada

give voice to the unheard concerns of nurses and go to great lengths to ensure the text offers readers more than an update on current and pressing professional, legal, ethical, political, social, economic, and environmental issues in nursing and healthcare. In chapter 1 of the text, authors Carol McDonald PhD, RN and Marjorie McIntyre RN, PhD offer a Framework for Analysis, which gives students and educators a shared and organized format through which to identify, analyze, and strategize about

solving the issues. Students will be inspired to influence professional associations, collective bargaining units, government, and workplace and participate in political action. In this edition, the authors will retain the content and features that have made this text the mostly widely used issues and trends book in the Canada, while adding new coverage of Canada's Truth and Reconciliation Commission (TRC) and the subsequent Calls to Action. Student and Instructor resources on thePoint will help prepare
