Designed as a textbook for use in courses on natural theology and used by Immanuel Kant as the basis for his Lectures on The Philosophical Doctrine of Religion, Johan August Eberhard's Preparation for Natural Theology (1781) is now available in English for the first time. With a

strong focus on the various intellectual debates and historically significant texts in late renaissance and early modern theology, Preparation for Natural Theology influenced the way Kant thought about practical cognition as well as moral and religious concepts. Access to Eberhard's complete text makes it

Identifying new unexplored lines of research, this translation provides a deeper understanding of Kant's explicitly religious doctrines and his central moral writings, such as

significant contribution  
to twenty-first century  
Kantian studies.
