AN INSTANT #1 NEW YORK TIMES BESTSELLER "A charming, wholehearted love story that's sure to make readers swoon."—Entertainment Weekly "Nicola Yoon writes from the heart in this beautiful love story."—Good Morning America "It's like an emotional gut punch—so beautiful and also heart-wrenching."—US Weekly In this romantic page-turner from the author of Everything, Everything and The Sun is Also a Star, Evie has the power to see other people's romantic fates—what will happen when she finally sees her own? Evie Thomas doesn't believe in love anymore. Especially after the strangest thing occurs one otherwise ordinary afternoon: She witnesses a couple kiss and is overcome with a vision of how their romance began . . . and how it will end. After all, even the greatest love stories end with a broken heart, eventually. As Evie tries to understand why this is happening, she finds herself at La Brea Dance Studio, learning to waltz, fox-trot, and tango with a boy named X. X is everything that Evie is not: adventurous, passionate, daring. His philosophy is to say yes to everything--including entering a ballroom dance competition with a girl he's only just met. Falling for X is definitely not what Evie had in mind. If her visions of heartbreak have taught her anything, it's that no one escapes love unscathed. But as she and X dance around and toward each other, Evie is forced to question all she thought she knew about life and love. In the end, is love worth the risk?

Takes a tutorial approach towards developing and serving Java applets, offering step-by-step instruction on such areas as motion pictures, animation, applet interactivity, file transfers, sound, and type. Original. (Intermediate).

I was born and raised in Rockland County, which until the mid-fifties, was a region of New York State characterized by small villages and farms just 18 miles or so from New York City. After high school and college and having seen enough of "progress" destroying this wonderful way of life, my wife and I moved to a small community a few miles from Cooperstown, New York, home of the Baseball Hall of Fame. After raising three daughters and a career in education I decided to change the tempo of life and began a new occupation as a full-time writer of automotive history. This was simply an extension of what I had been doing since my preadolescent years when my brother and I would collect sales brochures from any auto dealer who wouldn't show us the exit/door, since we obviously had no cash, no credit and no intention of buying a new car. Ever since I was in elementary school I was fascinated by the hopped-up Fords and Chevys (and even an occasional Plymouth) of the late '30's and '40's that the older "cool" boys drove to school. Recollections of those cars from long ago instantly came to mind when I first saw the PT Cruiser in 2000. Having previously written numerous articles and several books on Chrysler vehicles, my interest in the PT as the subject of a forthcoming volume was instantaneous.

Englishman Frank Collinson went to Texas in 1872, when he was seventeen, to work on Will Noonan's ranch near Castroville. He lived the rest of his life in the southwestern United States, and at the age of seventy-nine began writing about the Old West he knew and loved. He had a flair for writing, a phenomenal memory, and a passion for truth that is evident in what he wrote and said. His writings for Ranch Romances, his letters, and transcriptions of his conversations have been arranged here in roughly chronological order, so that their importance for frontier history is readily apparent. Collinson ranged the West in his writings as he did in person, telling of the last tragic days of buffalo hunting on the Plains; clashes between hunters or cowboys and the Plains Indians; the character of trail drivers; and the definitive nature of violence, particularly at gun-point. J. Frank Dobie said of Collinson: "In the realm of frontier chronicles, the writing of educated Englishmen. . . men with the perspective of civilization, with imagination, and a lust for primitive nature, stand out. To this class of men belongs Frank Collinson."

Sexbeat's self-titled song is definitive of the postpunk scene. It describes the originality, the freedom and the communal spirit of a subculture: old, young, poor, and rich a group that accepted it all. Released in 1983, the song is a generation's anthem about a scene caught between the outbreak of punk and grunge. With more complexity than punk and more darkness than pop's cheerful mentality, postpunk maintained prosperity because of its atmosphere and romance. The movement in its inception was nameless. It, as we found, has many definitions and associations. Some original members of the scene referred to themselves as punks, others new romantics, new wavers, the bats, or the morbids, for example. Goth often did not become a term until the late 1980s or, in some countries such as Peru, a label in the 1990s. Therefore, postpunk in all its variety, is deemed as the "single" word that encompasses all evolutions of the 1980s proto-punk alternative movement. In one decade, the genre evolved, grew darker and crossed borders: from Argentina to the Netherlands, Greece to Canada and Belgium to Japan. Even though the postpunk and goth timeline varied between countries, the movement began at approximately 1978 and concluded around 1992. Some regions reflected the economic challenges and sentiments towards social issues, while others relied on the individual desire to gain solace in a subculture that accepted diversity. To identify and encompass the words postpunk and goth are arduous since everyone has a different perspective on such definitions. There is no "one" truth about their timeline or attributes. Therefore, this book "is about the music, the individual, and the creativity of a worldwide community rather than theoretical definitions of a subculture. Though not a complete historical essay on postpunk and goth, "Some Wear Leather, Some Wear Lace" is a visual and oral history of the first decade of the scene. The team found and interviewed both the performers and the audience in order to capture the community both on and off stage. Participants of the project dug through their personal archives for photographs of their past and these are

placed alongside professional photography. By combining both personal collections and professional images, a unique range of fashions, bands and scenes are revealed within these pages. "
