This edited volume focuses on India's experiences waging counterinsurgency campaigns since its independence in 1947. Filling a clear gap in the literature, the book traces and assess the origins, evolution and current state of India's counterinsurgency strategies and capabilities, focusing on key counterinsurgency campaigns waged by India within and outside its territory. It also analyzes the development of Indian doctrine on counterinsurgency, and locates this within the overall ebb and flow of India's defense and security

policies. The central argument is that counterinsurgency has been an integral part of India's overall security policy and can thereby impart much to political and military leaders in other states. Since its emergence from British colonialism, India's defence policies have not merely sought to protect and preserve India's inherited colonial borders from threats by rival states, but have also sought to prevent and suppress secessionist movements. In countering insurgencies, the Indian state has fashioned strategies that seek to repress militarily any secessionist movement, while simultaneously forging a range of civilian administrative and institutional arrangements that attempt to address the grievances of disaffected populations. The book highlights key strategic and

tactical innovations that the Indian Army and security forces made to deal with a range of insurgent movements. Simultaneously, it also examines how the civilian-military nexus enabled India's policy makers to utilize existing, and formulate novel, institutional means to address extant political grievances. India has been most successful where it has managed to use calibrated force, obtained the trust of much of the aggrieved population and made persuasive commitments to political and institutional reform. Examination of these elements of India's counterinsurgency performance can be compared to counterinsurgency doctrine developed by other countries, including the United States, and thus yield comparative policy prescriptions and

This book explores the contemporary phenomenon of forced marriage and 'honour' killings in Britain. Set against a background of increasing 'honour'-based violence within the country's South Asian and Muslim Diasporas, the book traces the development of the 'honour' question over the past two decades. It accordingly witnesses unprecedented changes in public awareness and government policy including groundbreaking 'honour'-specific legislation and the

criminalisation of forced marriage. All of which makes Britain an important context for the study of this now indigenous and self-perpetuating social problem. In considering the scale of the challenge and its underlying causes, attention is paid to the intersections of gendered power structures that disadvantage female members of 'honour' cultures as well as feminist theories that seek to explain them. The book features five key case-studies of 'honour' killings and draws from a wide range of narratives including those of 'honour' violence survivors, grassroots service providers and legislators. Such myriad of perspectives reveals the complexity of the 'honour' issue and the deep ideological divisions that characterise it. With the UK's multiculturalist discourse

unable to reconcile protecting patriarchal minority cultures with safeguarding gender equality and human rights, the book raises fundamental questions about the country's future direction. Following a long trend of state-sponsored integrationist policies, the government's response to the 'honour' question points decisively in the direction of a post-multicultural British nation.

**Prosecutors are the most powerful actors in the legal system. Their decisions have significant implications for how crime is defined, who is charged, and the punishment they receive. This volume draws together classic and recent scholarship that critically examines how prosecutorial power is constituted through their decision-making processes, the relationships between legal changes and court actors, and the consequences of this for society. Taken as a whole, this collection offers insights into law in action, how social change shapes the legal system, and alternative forms of case resolution.**

Anchoring himself firmly on the ever-contested space of Indian Law and Legal Processes, and drawing substantive support from his rich and varied experience as a Law Enforcement Officer in the Police Department of Tamil Nadu, India, the author, V. Sithannan in presenting this scholarly work, has sought to fulfill the legitimate requirements of Police Officers, Advocates, Judicial Officers, Social Activists, NGOs, Gender Activists and the general public. The Author's utopian ideal that no innocent person

should be punished and no offender should go unpunished is the dominant message of the book. For this purpose, the Author has given a balanced treatment of the whole problem of crime and its investigation. The book contains 27 Chapters and 4 Annexures. For example, the 1st Chapter deals with the origin, growth and development of Military and Police and the succeeding chapters elaborate the structure, powers and the duties of police, the conduct of investigation, the first information report, the jurisdictional limitations of police, dying declaration, inquest, search and seizure, examination of witnesses, arrest, interrogation, confession, bail, remand and custody, test identification parade, tender of pardon to approver, letter rogatory, extradition, burden of proof and presumptions, Police

diaries, final report, further investigation and maintenance of Police records. The comparative chart given to aid the Police Officers to conclude whether death is suicidal or homicidal or accidental in all forms of death that are encountered by the Police while conducting investigation will be of immense use with scientific accuracy. Another Chart provided indicating the procedural steps starting from the collection of evidence through the final analysis of the whole crime and its commission would surely empower the investigating officers with fool-proof methods of investigation. A most praise-worthy feature of the book is its detailed discussion on the immature juveniles, who are in conflict with law and the crimes against children and women. The annexure to the book is of immense use as a ready- reckoner,

especially annexure I and II by which a Police Officer may easily find whether a particular offence in any of the most frequently used special enactment is cognizable, bailable etc. The Author has fulfilled the needs of the investigating Officers in the epilogue by providing 47 points which may go against the prosecution, and therefore, has given 48 tips for the successful prosecution of a criminal case by a Police Officer. Again, in the spirit of an academic researcher, the Author has given a catalogue of 724 Checklists in all the Chapters so that the readers would find the book highly informative to have a statutorily authorised answer to any doubt in a given situation in any of the investigative procedures. The citation of 785 landmark judgements of various High Courts and the Supreme Court for the period 1965-2008 in

Human rights enshrined in the Constitution of India protect Indian citizens against misuse of powers by the State and its functionaries. However, detainee rights are often neglected in custody. Arrest and Detention in India: Law, Procedure and Practice critically examines arrest and detention laws in India, focusing on constitutional guarantees and criminal jurisprudence. The book studies legislations that have invited much criticism from human rights activists, such as the Code of Criminal Procedure (CrPC), Unlawful Activities (Prevention) Act

(UAPA), Armed Forces (Special Powers) Act (AFSPA) and Narcotic Drugs and Psychotropic Substances Act (NDPS). It explores topical areas such as inter-state arrests, juvenile crime, remand and detainee rights. This book evaluates the controversial powers of arrest and detention, arguing for stricter regulation in terms of the international, constitutional and human rights mandates. The book examines public safety and whether it can be implemented through legal standards that compromise personal liberty.
