The modern public prosecutor is a figure both powerful and enigmatic. Legal scholars and criminologists often identify “three essential components” of criminal justice systems: police,

corrections. Yet
increasingly, the
public prosecutor
occupies a distinct
role independent from
any of these
branches. Acting
outside of the court,
and therefore largely
out of the public eye,
the prosecutor's
control over whether

From the initial investigation of a crime to the sentencing of an offender, many everyday practices within the criminal justice system involve complex psychological

processes. This volume analyzes the processes involved in such tasks as interviewing witnesses, detecting deception, and eliciting eyewitness reports and identification from adults and

Evidence-Based
Ability Test
Practice

Practice (EBP) has over the last decade made an increasing mark in several fields, notably health and medicine, education and social welfare. In recent years it has begun to make its mark in criminal justice. As
