The Travel Atlas

Combining our extensive mapping experience and unrivalled destination knowledge, our first dedicated atlas is packed with insightful commentary and inspiring images to help you explore the world and plan trips with ease. Each large page of mapping is accompanied with top sights and activities, while popular regions are presented at greater scale.

Culled from the pages of the Chicago Tribune, this collection of articles features the most relevant and recent business stories on innovation, entrepreneurship, and technology as reported by the award-winning Tribune columnists and reporters. Innovation and Technology encapsulates the cutting-edge developments in the tech world that are affecting large corporations, small business, start-ups, and consumers alike. Innovation and Technology is divided into three main sections: Innovation in Chicago, Profiles in Innovation, and Technology in the News. The Innovation in Chicago section discusses the latest start-ups in Chicago, as well as how innovative technologies (anywhere from 3D printing to so-called "civic" apps) are being used by businesses and institutions throughout the Windy City. The Profiles in Innovation section is full of fascinating interviews with thought leaders, business owners, CEOs, and entrepreneurs from the Midwest and Greater Chicagoland area. Finally, the Technology in the News section gathers the big tech stories of 2013, from Google Glass to the latest investments in burgeoning new companies. Extensive first-person interviews and in-depth reporting by the Chicago Tribune makes Innovation and Technology a broad yet detailed look at the larger concept of innovation and how it pertains to individuals and businesses on the local level.

Road maps are accompanied by information on federally-designated routes and trucking restrictions.

This book covers the planning, organizing, and controlling of activities such as transportation, inventory maintenance, order processing, purchasing, warehousing, materials handling, packaging, customer service standards, and product scheduling. It is specifically designed to help learners solve the actual problems that they will encounter in today's market place. It provides the basic decision making tools and concepts used for finding cost reduction and strategic opportunities.

"Written specifically for the businessperson, Geo-Business: GIS in the Digital Organization is the first book to provide comprehensive coverage of GIS applications in the business and organizational environment. Going beyond a strictly geographical focus, this book sets GIS in the context of business information systems and other business sub-disciplines such as logistics, marketing, finance, and strategic management. It presents from an organizational perspective the advantages of spatially enabling existing enterprise systems and illustrates how GIS is applied in the real world through rigorous case study analyses of twenty companies."--BOOK JACKET.
