In the course of its extraordinary history, the Jersey Devil has been exorcised, shot, electrocuted, declared officially dead, and scoffed as foolishness--none of which has had any effect on it or the people who persist in seeing it!This mysterious creature is said to prowl the lonely sand trails and mist-shrouded marshes of the Pine Barrens, and emerge periodically to rampage through the towns and cities of New Jersey and eastern Pennsylvania, leaving many communities in near-hysteria.The authors show that while a few appearances can be explained as the right fraud and others have likely been the result of mass hysteria, this creature has been seen by enough sane, sober, and responsible citizens to keep the possiblity of its existence alive and tantalizing.Over 50,000 in print

Totalitarian states attempt to filter political information in such a way that, in the main, the population receives exposure only to those sources, materials, and presentations that serve and reinforce the goals and ideals of the state. In eastern and southeastern Europe before 1989, the teaching of the English language proved a delicate yet critical field, since it provided a mediated introduction to the (capitalist) English-speaking world. This study examines the fashion in which EFL (English as a Foreign Language) textbooks represented the United States, in order to ascertain the East Bloc's image of the US. The selection and arrangement of topics is investigated to discuss what kind of knowledge (and judgments) the textbooks attempted to impart. Then, new EFL textbooks appearing after 1989 are examined.

10 Short-Chapter Stories with Activities

According to government reports, new Internet technologies present readers with new reading opportunities and challenges (National Institute of Child Health and Human Development, 2000; RAND Reading Study Group [RRSG], 2002). However, we are just beginning to understand the specific complexities that Internet text imposes on the reading comprehension process (Coiro, 2003; Leu, Kinzer, Coiro & Cammack, 2004), and we know even less about what these complexities mean for particular student populations who are reading texts in a variety of online environments. The present study purposefully targeted the online reading strategies of upper-elementary and middle school students with and without learning disabilities (LD), in the U.S. and in Taiwan, as they read expository text. Several aspects of the comprehension process were studied, including: (1) Internet navigation strategies and behaviors, (2) students' sensitivity to the organizational structure of hypertexts, (3) online search strategies, and (4) online reading strategies. Data collection involved surveys, structured metacognitive interviews, observations, reading comprehension activities, and online search tasks that were administered to 119 American and Taiwanese students in the fifth and sixth grades. The results suggested that the fifth- and sixth-grade students in this study (1) had opportunities to use computers and use the Internet, but they were not taught sufficient online reading and search strategies; (2) were easily disorientated by the non-linear nature and unfamiliar structure of online texts, especially when Websites or Web pages lacked appropriate tabs or organizational cues for informational passages; (3) did not employ recommended online search strategies; and (4) had weak before-reading strategies, and had difficulty distinguishing before- and during-reading strategies, although their after-reading strategies were often advanced. The study findings suggested that: (1) students needed to be taught necessary online reading and search strategies, and (2) educators and instructional Website designers needed to be mindful of the characteristics of non-linear and unclearly structured text when designing Websites and hypermedia for upper-elementary and middle school students. Six appendices are included: (1) Group questionnaire about online reading comprehension strategies & information search; (2) Individual online reading comprehension; (3) Individual online search-engine task; (4) Individual metacognitive interview about online reading strategies; (5) Think-aloud practice (cited with permission from Dr. Laurie Henry (2003)); and (6) Independent Samples T-tests from American and Taiwanese Fifth- and Sixth-Grade Students' Survey Data. A bibliography is also included. (Contains 13 tables, 13 figures, and 12 footnotes.).

The Devil and Tom Walker by Washington Irving Classic Short Horror Stories - The Devil By his interest in popular legends the first of the great American writers shows his sympathy with the Romantic movement, which prevailed in his time in all the countries of Europe. His devil, however, has not been imported from the lands across the Atlantic, but is a part of the superstitions of the New World. The author himself did not believe in "Old Scratch." The real devils for him were the slave-traders and the witch-hunters of Salem fame. It is interesting now to read a contemporary critic of Washington Irving's devil-story: "If Mr. Irving believes in the existence of Tom Walker's master, we can scarcely conceive how he can so earnestly jest about him; at all events, we would counsel him to beware lest his own spells should prove fatal to him" (Eclectic Review, 1825). Few people in those days had the courage to take Old Nick good-naturedly. "Even the clever Madame de Stael," said Goethe, "was greatly scandalized that I kept the devil in such good-humour." The devil appears in many colours, principally, however, in black and red. It is a common belief in Scotland that the devil is a black man, as may also be seen in Robert Louis Stevenson's story "Thrawn Janet." There is no warrant in the biblical tradition for a black devil. Satan, however, appeared as an Ethiopian as far back as the days of the Church Fathers. The black colour presumably is intended to suggest his place of abode, whereas red denotes the scorching fires of hell. The devil was considered as a sort of eternal Salamander. In the New Testament he is described as a fiery fiend. Red was considered by Oriental nations as a diabolical colour. In Egypt red hair and red animals of all kinds were considered infernal. The Apis was also red-coloured. Satan's red beard recalls the Scandinavian god Donar or Thor, who is of Phoenician origin. Judas was always represented in mediaeval mystery-plays with a red beard; and down to the present day red hair is the mark of a suspicious character. The devil also appears as yellow, and even blue, but never as white or green. The yellow devil is but a shade less bright than his fiery brother. The blue devil is a sulphur-constitutioned individual. He is the demon of melancholy, and fills us with "the blues." As the spirit of darkness and death, the devil cannot assume the colours of white or green, which are the symbols of light and life. The devil's dragon-tail is, according to Sir Walter Scott, of biblical tradition, coming from a literal interpretation of a figurative expression. A few interesting remarks on the expression "The Devil and Tom Walker" current in certain parts of this country as a caution to usurers will be found in Dr. Blondheim's article "The Devil and Doctor Foster" in Modern Language Notes for 1918.

RedDevil 4 is spine-tingling techno-thriller based on cutting edge research from surgeon and inventor Eric C. Leuthardt. Renowned neurosurgeon Dr. Hagan Maerici is on the verge of a breakthrough in artificial intelligence that could change the way we think about human consciousness. Obsessed with his job and struggling to save his marriage, Dr. Maerici is forced to put his life's work on the line when a rash of brutal murders strikes St. Louis. Edwin Krantz, an aging, technophobic detective, and his partner, Tara Dezner, are tasked with investigating the horrifying killings. Shockingly, the murders have all been committed by prominent citizens who have no obvious motives or history of violence. Seeking an explanation for the suspects' strange behavior, Krantz and Denzer turn to Dr. Maerici, who believes that the answer lies within the killers' brains themselves. Someone is introducing a glitch into the in-brain computer systems of the suspects—a virus that turns ordinary citizens into murderers. With time running out, this trio of unlikely allies must face a gauntlet of obstacles, both human and A.I., as they attempt to avert disaster. Henri Ren é Albert Guy de Maupassant (5 August 1850 – 6 July 1893) was a popular 19th-century French writer, considered one of the fathers of the modern short story and one of the form's finest exponents.A prot é g é of Flaubert, Maupassant's stories are characterized by their economy of style and efficient, effortless d é nouements. Many of the stories are set during the Franco-Prussian War of the 1870s and several describe the futility of war and the innocent civilians who, caught in the conflict, emerge changed. He authored some 300 short stories, six novels, three travel books, and one volume of verse. His first published story "Boule de Suif" ("Ball of Fat", 1880) is often considered his masterpiece.He delighted in clever plotting, and served as a model for Somerset Maugham and O. Henry in this respect. His stories about expensive jewellery ("The Necklace", "La parure") are imitated with a twist by Maugham ("Mr Know-All", "A String of Beads") and Henry James ("Paste").Taking his cue from Balzac, Maupassant wrote comfortably in both the high-Realist and fantastic modes; stories and novels such as "L'H é ritage" and Bel-Ami aim to recreate Third Republic France in a realistic way, whereas many of the short stories (notably "Le Horla" and "Qui sait?") describe apparently supernatural phenomena.The supernatural in Maupassant, however, is often implicitly a symptom of the protagonists' troubled minds; Maupassant was fascinated by the burgeoning discipline of psychiatry, and attended the public lectures of Jean-Martin Charcot between 1885 and 1886. This interest is reflected in his fiction.Maupassant is notable as the subject of one of Leo Tolstoy's essays on art: The Works of Guy de Maupassant.Friedrich Nietzsche's autobiography mentions him in the following text:"I cannot at all conceive in which century of history one could haul together such inquisitive and at the same time delicate psychologists as one can in contemporary Paris: I can name as a sample – for their number is by no means small, ... or to pick out one of the stronger race, a genuine Latin to whom I am particularly attached, Guy de Maupassant."

'An irresistible page-turner that reads like the most compelling, sleep defying fiction' TIME OUT One was an architect. The other a serial killer. This is the incredible story of these two men and their realization of the Chicago World's Fair of 1893, and its amazing 'White City'; one of the wonders of the world. The architect was Daniel H. Burnham, the driving force behind the White City, the massive, visionary landscape of white buildings set in a wonderland of canals and gardens. The killer was H. H. Holmes, a handsome doctor with striking blue eyes. He used the attraction of the great fair - and his own devilish charms - to lure scores of young women to their deaths. While Burnham overcame politics, infighting, personality clashes and Chicago's infamous weather to transform the swamps of Jackson Park into the greatest show on Earth, Holmes built his own edifice just west of the fairground. He called it the World's Fair Hotel. In reality it was a torture palace, a gas chamber, a crematorium. These two disparate but driven men are brought to life in this mesmerizing, murderous tale of the legendary Fair that transformed America and set it on course for the twentieth century . . .

Drawing from observations of discussion in 24 different classrooms, this book will provide preservice and inservice teachers at the middle and school levels with the motivation and knowledge to use discussion to foster student comprehension of content area text assignments. The first chapter examines the distinctions between discussion and recitation, and redefines major issues related to content area discussion in light of recent research and school reform reports. The second chapter establishes a basis for the premise that discussion is important to the development of reading comprehension, illustrating those skills that enrich or refine students' understanding of text. The third chapter uses portions of transcripts from videotaped content class discussions to illustrate how classroom context influences discussion practices. Alternatives to teacher dominated discussions are described, and guidelines are provided for establishing the rights and responsibilities of critical readers. The fourth chapter demonstrates how to plan for classroom discussion of assigned material, describing five aspects of the planning process. The fifth chapter presents discussion strategies that help students master the content, examine more than one side of the issue, and evaluate alternative solutions to a text based problem, while the sixth chapter analyzes one content area teacher's implementation of a preplanned discussion. Finally, the seventh chapter describes two procedures for informally evaluating classroom discussion used to promote reading comprehension. References follow each chapter. (RTH)

Students are offered opportunities to explore multiple mathematical topics such as probabilities, statistics, linear equations, integers, and sequencing, as well as algebra, pre-calculus and calculus concepts through literature. "Dictionary, n: A malevolent literary device for cramping the growth of a language and making it hard and inelastic. This dictionary, however, is a most useful work." Bierce's groundbreaking Devil's Dictionary had a complex publication history. Started in the mid-1800s as an irregular column in Californian newspapers under various titles, he gradually refined the new-at-the-time idea of an irreverent set of glossary-like definitions. The final name, as we see it titled in this work, did not appear until an 1881 column published in the periodical The San Francisco Illustrated Wasp. There were no publications of the complete glossary in the 1800s. Not until 1906 did a portion of Bierce's collection get published by Doubleday, under the name The Cynic's Word Book—the publisher not wanting to use the word "Devil" in the title, to the great disappointment of the author. The 1906 word book only went from A to L, however, and the remainder was never released under the compromised title. In 1911 the Devil's Dictionary as we know it was published in complete form as part of Bierce's collected works (volume 7 of 12), including the remainder of the definitions from M to Z. It has been republished a number of times, including more recent efforts where older definitions from his columns that never made it into the original book were included. Due to the complex nature of copyright, some of those found definitions have unclear public domain status and were not included. This edition of the book includes, however, a set of definitions attributed to his one-and-only "Demon's Dictionary" column, including Bierce's classic definition of A: "the first letter in every properly constructed alphabet." Bierce enjoyed "quoting" his pseudonyms in his work. Most of the poetry, dramatic scenes and stories in this book attributed to others were self-authored and do not exist outside of this work. This includes the prolific Father Gassalasca Jape, whom he thanks in the preface—"jape" of course having the definition: "a practical joke." This book is a product of its time and must be approached as such. Many of the definitions hold up well today, but some might be considered less palatable by modern readers. Regardless, the book's humorous style is a valuable snapshot of American culture from past centuries. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

The passages in the Brilliant Activities for Reading Comprehension series are designed to provide children with a variety of engaging, enjoyable texts that will grab their attention. Tasks range from simple factual recall and vocabulary work to more open-ended questions enabling the reader to provide a more personal response.
