RELEP's national key point

of the law reviews and test questions reflect the topic emphasis of the three major testing services for the national portion of the state exam. A word about the test questions... RELEP's testing practice section consists of ten national practice tests and one sample test. The practice tests are roughly 50 questions in length and the sample test is 75 questions. The questions are direct, to the point, and designed to test your understanding. When you have completed a given test, you can check your answers against the

Your particular study and testing practice strategy using RELEP is up to you. But to fully exploit its comprehensive content coverage, you should try to review and memorize the key point reviews as much as possible. Then you should make every effort to take each exam, review your mistakes, and re-read the

key point reviews that cover your weaker areas. One note of caution is also in order: this National edition of RELEP does not contain state laws and practices applicable in your state of residence or where you intend to get your license. Therefore you will need to study state-level laws given to you by your prelicense school in order to pass the state portion of the state exam. While we are in the process of adding state-level materials to our RELEP series we still have a ways to go. So, until we have state review materials for your

Now that we've have been straightforward with you, a second word of caution. Don't be fooled by other national prep books - that contain no state-level materials - that advertise you will pass your state exam by learning and reviewing what's in their publication. You won't. It is absolutely essential that you develop a comprehensive

review of material included on the Connecticut General and State-only Sales portions of the licensing exam that is written in a direct, concise style with many updates for 2016. It is the ONLY book on the market for these tests that is grounded in the experience of an actual test-writer who spent years in charge of real estate test development for one of the three companies still providing real estate examinations for commissions nationwide. The book also

benefits from an
"insider's" commentary on
what is testable and what
is just too advanced or
complex for the exams. It
includes a full-length
80-question general-
portion sample broker test
AND a full-length
40-question state-portion
broker test, BOTH
assembled to match actual
exam "blueprints," or
internal-distribution
specifications. And every
question comes from a pool
of questions that match
PSI's quality and are
written to match or exceed
PSI 's guidelines for
