For those motivated to start building a real estate portfolio - or those who want to move their money out of the stock market or low yield accounts, this book shows that outstanding achievement in the rental property business is achievable and a matter of doing a sequence of simple actions. Teaching through stories, veteran landlord Fleming exposes his sometimes embarrassing rookie mistakes, allowing the reader to laugh and learn in an entertaining and memorable manner. Among Buy Your First Rental Property Fast's valuable insights: Wealth is a spiritual journey You can do well through doing good How to select and evaluate low risk properties How real estate is safer than stocks or savings How to get and manage the best tenants Buy Your First Rental Property Fast is a book about succeeding and thriving in a business that will not only grow your net worth, but that will grow you as a person, as a leader and as the CEO of your life. Fleming Schutrumpf is a veteran landlord who has more than 500 tenant years of landlording experience. Fleming built a portfolio of 35 properties while working full time as a management consultant. Fleming's philosophy is about "the long hold", collecting checks in the mail every month, indexed to inflation and providing true income in an era where real wages have been stagnant. Fleming blends contrarian strategies designed to outsmart the "experts" with sage business advice and inspiration.

Introduction In this book, we'll show you all the elements needed for real estate investment at two

different levels. At the Basic level, you'll learn the fundamental knowledge needed for buying real estate. First, you need to separate the truths from the myths so you have a clear understanding of the subject before you start to jump onto the boat. Then we'll show you the process in a step-by-step order, such as where you can find deals, how to analyze deals, how to make an offer and finally how to close the deal. Of course, it's unlikely that you can succeed in this business all by yourself. That's why we'll also explain to you who you should partner up with. In the advanced topics, we'll show you more complicated concepts in real estate investment as you're ready to take your investment to the next level. For instance, if buying a property isn't easy for a novice investor, renovating and managing one is definitely even more challenging. We'll show you what you can do to facilitate your property renovation and management and to protect yourself. Then, we'll explain the different ways real estate can earn you profits (i.e. profit centers), how you can sell a purchase contract instead of the underlying property (i.e. wholesaling), and how to profit while helping people in a "rent-to-own" arrangement (i.e. lease option). And the most interesting topic of all, we'll show you how you can invest in real estate without your own money! As you can see, real estate investment is more than just buy-and-hold; there are a lot more strategies available. But of course, more options also come with more potential for pitfalls. So, after finishing the book, you'll have the knowledge to devise an investment pathway that suits your own needs and preferences.

The mechanics of Real Estate Investing is simple: Buy a house and do something with it. Fix it and rent it, or just sell it. Sounds simple doesn't it? Yet only a small percentage of us have enough courage to go out and take advantage of the opportunities that are available to us. Real Estate Investing can be more promising than stocks, bonds and various other securities because of the higher rates of return.

In this book I show you how to get started by describing the different types of skills you need, by showing you how to take control of your personal and financial situation and by helping you decide what type of real estate investing you want to get involved in. I also show you how to find properties, how to analyze them and how to make an offer that makes sense. And finally I describe what you need to do to manage your investment and ultimately how to sell your investment for the most profit. I have been involved in real estate investing for over 20 years. I have yet to find a book that focuses on the investor and the overall process. Sure, there are lots of books on fix and flips, buy, rent and hold, rent to own, etc. However, I haven't found any good books on how to really get started in the real estate investing process from a practical viewpoint. The technical aspects of real estate investing are really quite easy. But if it's so easy, then why isn't everyone doing it? This book is for people who are serious about getting started in real estate investing and who want to join the 5% of those who actually take action and invest. This book provides a strategic approach with the tried and tested methods and principles that have helped others make millions in real estate.

challenging and highly risky. Joint ventures, wholesaling, and property management are just a few of the ways investors can profit from real estate. It also takes a little savvy to become successful in this highly competitive arena. In this book, the author uses her wealth of experience in the fields of real estate investment brokerage and mortgage lending to guide you on your way to a stable future in the face of changing financial circumstances. Starting with the basics of economic planning, Rene' explains how to establish a budget, calculate your month-to-month expenses (your "Tipping Point"), set up a safety net, and then go about the business of acquiring and maintaining property that will generate revenue as time goes on- including knowing when to hire people to handle work for you, and how to choose people who will keep your trust and look out for your interests. By the time you're through, you'll be able to ask the difficult questions you might hesitate to pose and know how to move forward in the face of loss. With a mixture of savvy and kindness, this book is a road map to protecting your assets and ensuring for yourself a stable financial future.

Power up your investment portfolio and earn more than you ever thought possible Have you been investing for a while but wish it could give you better returns? Are you looking to expand your portfolio beyond stocks and bonds? Do you want to invest in a stable, yet high-return market? If so, commercial real estate may make a good addition to your portfolio. Commercial real estate may seem like something only institutional investors or millionaires get into. Yes, they cost a lot more than single-family residential properties, but they also give you the opportunity to make a lot more. According to the National Council of Real Estate Investment Fiduciaries (NCREIF) Property Index, commercial real estate has made an

average of 12.7% annually over the past 15 years compared to 8.8% in the S&P 500. And you don't have to be a millionaire to get involved in commercial real estate. There are a variety of ways you can get financing, without getting yourself into millions of dollars in debt. Although there are risks to any investment, with commercial real estate, your risk is cushioned by multiple and better-quality tenants and longer-term leases. Not only that, but you also have more control over how you mitigate those risks. To know more about what is involved in commercial real estate investing, refer to this useful introduction to commercial real estate that will help you make the right investment decisions for your portfolio. Steps to Wealth is the only real estate book in Australia endorsed by three of Australia's property billionaires. It shares John L. Fitzgerald's own 35-year proven property strategy, supported statistically and with real life case studies from readers of earlier editions. Now in its 8th edition the book is completely up-to-date with the latest census data, location criteria and growth forecasts. Most importantly the book exposes the difference between property and real estate, proving that it's only the land that appreciates and that the buildings that sit on the land actually depreciate. Indeed 7 Steps to Wealth uses Warren Buffet's secret of compound growth but adapted for Australian property investors. Fitzgerald proves that certain residential land is Australia's best growth asset -- and will continue to be given current record population growth.

- Unlock the secret power of compound growth and make it work for you
- Avoid the common mistakes that most property investors make
- Read case studies and testimonials from millionaires using the 7 step strategies
- Understand how to safely build wealth in property, be cashflow positive and still get a tax deduction.

With Australia's record population growth, there is no better time for Australians to use this proven strategy to safely build wealth for a comfortable retirement, one that doesn't mean relying on government welfare.

What you should know so the house of your dreams doesn't become a nightmare Having your very own place to call home... is it a far-off fantasy or a reachable reality? If you're like most Americans, owning a home is probably one of your main financial goals. Aside from its wealth-building potential, the appeal of having your own house is being in control of how it looks and how it's used. You've likely spent hours on Pinterest, pinning amazing images of what your future house will look like. Or, you've stuck a photo of your dream house on your vision board, to inspire you to work harder. If you're serious about making this dream a reality sooner rather than later, there are a number of steps you'll need to take and important information you'll need to know. Although there are plenty of perks to owning a home that you will surely enjoy, there are also risks inherent in the process that you need to look out for. Fortunately, this is a journey you don't have to do alone. From searching for your perfect home, to getting and paying for it and keeping it in order, you can find it in this easy-to-follow reference that covers the whole home-buying process. Buying your first house is a big responsibility that shouldn't be taken lightly. You need to know what you're getting into and prepare for the obligations home ownership entails. But the benefits can make up for the downsides. Not only will you have your own home and not have to be at the mercy of your landlord, but you'll also have the opportunity to build equity with it, which will give you access to easier money. Plus, you can also benefit from possible increases in home value, helping you beat inflation. And luckily for you, since you have time on your side, you can enjoy higher gains over a longer period of time. Whether you're being driven out by your landlord, struggling with rising rental prices, or simply outgrowing your apartment, buying your first house could be your next big step into the future. Hey Real Estate Agent - Stop thinking a paycheck will secure your dreams- it won't. The focus of most people is money-as in a job-trading time for money. This kind of thinking, although embraced by the masses and accepted as conventional wisdom, is a severely limiting mindset. The problem with trading time for money is you are limited by the number of hours in a day. In order to experience true financial freedom, you must change the way you think about money and money in relationship to time. Start thinking about how money can be working for you. As a Real Estate Agent/Broker, real estate investing is the single most powerful avenue for creating wealth. It's a natural fit for you. Yet few have entered into this field. Why? I think mainly that is because most simply are not aware of the powerful potential real estate investing holds for them. The truth is, with a small investment of time any Agent/Broker can open the door to the dreams they hold most dear: college education for the kids, a secure retirement, and time to savor life. In short, real estate the key to a six, no make that seven, figure income. I will show you how to do it.

If you want to stop relying on your day job and have the freedom to pursue your dreams, then keep reading... Do you feel stuck in a miserable job, slaving away from 9 to 5 because you don't have any other income and are scared of not having enough to get by? Do you want to have the flexibility and freedom to spend more time with your family, travel the world, or work on your personal projects? Are you looking for a way to increase your income and build your wealth without spending a lot of money upfront and while still keeping your day job? If you answered "yes" to any of the above questions, then you may want to consider investing in real estate as a path towards financial freedom. According to Forbes, real estate offers the safest, steadiest, and simplest way to build wealth. In fact, Andrew Carnegie once claimed that "90% of millionaires become so by investing in real estate." Even millennials know that real estate is a key way to build wealth, with the average millennial millionaire already owning 3 properties. I know what you're thinking... I don't have millions of dollars to buy real estate! Well, you don't have to be a millionaire to get started in real estate investing. Many millionaires started with just a small investment and built up their portfolio from there. For example, Arnold Schwarzenegger

Most Real Estate Investing books tell you what to do but never really show you how to put it all together. Where do you begin? Which real estate investment is right for you? How do you finance your deals? How do you buy real estate with nothing down? Are you ready to be an investor? In "7 Steps To real Estate Riches" Jim Pellerin provides a step-by-step proven approach to Real Estate Investing. He has combined his years of real estate investing with his years of project and business management and created the AIMS Realty Investment Method. In this book, you will learn how to prepare yourself, both financially and mentally. You will also learn how to plan to become a real estate investor. Most people interested in becoming a real estate investor have read several books on the subject and have even attended some courses. Only a few of these people became investors because they were never really prepared and they never really planned. Once you have prepared and planned properly, the actual doing is easy, which is the focus of the second part of the book. "7 Steps to Real Estate Riches" is a must read for anyone who is just getting started in real estate investing and especially if you have been trying to become one for a long time. Introduction In this book, we'll show you all the elements needed for real estate investment at two different levels. At the Basic level, you'll learn the fundamental knowledge needed for buying real estate. First, you need to separate the truths from the myths so you have a clear understanding of the subject before you start to jump onto the boat. Then we'll show you the process in a step-by-step order, such as where you can find deals, how to analyze deals, how to make an offer and finally how to close the deal. Of course, it's unlikely that you can succeed in this business all by yourself. That's why we'll also explain to you who you should partner up with. In the advanced topics, we'll show you more complicated concepts in real estate investment as you're ready to take your investment to the next level. For instance, if buying a property isn't easy for a novice investor, renovating and managing one is definitely even more challenging. We'll show you what you can do to facilitate your property renovation and management and to protect yourself. Then, we'll explain the different ways real estate can earn you

profits (i.e. profit centers), how you can sell a purchase contract instead of the underlying property (i.e. wholesaling), and how to profit while helping people in a "rent-to-own" arrangement (i.e. lease option). And the most interesting topic of all, we'll show you how you can invest in real estate without your own money! As you can see, real estate investment is more than just buy-and-hold; there are a lot more strategies available. But of course, more options also come with more potential for pitfalls. So, after finishing the book, you'll have the knowledge to devise an investment pathway that suits your own needs and preferences.

In this book, we present seven very profitable ways that ANYONE can use to make money in real estate. These ways are all proven to work and can be pursued by the majority of the population (even if you're a bit lazy). Please note that we do not go in depth on all of the methods presented in this book. This book was created to give you useful investment ideas that you can actually pursue. Although real estate investments can provide a steady cash flow for decades, there's still a possibility that you can lose your hard-earned money if you're doing it wrong. The common mistake among new investors is that they think that they know it all. No matter what you put your money on, whether it's stocks, funds, cryptocurrencies, or properties, you need to know what you're doing or else you're going to fail. Investing without having a clue about what you're putting your money on is not even considered investing. That is known as gambling. What's in it for you when downloading this book today?
