The Bariatric Bible

In this captivating science fiction novel from an award-winning author, public gatherings are illegal making concerts impossible, except for those willing to break the law for the love of music, and for one chance at human connection. In the Before, when the government didn't prohibit large public gatherings, Luce Cannon was on top of the world. One of her songs had just taken off and she was on her way to becoming a star. Now, in the After, terror attacks and deadly viruses have led the government to ban concerts, and Luce's connection to the world--her music, her purpose--is closed off forever. She does what she has to do: she performs in illegal concerts to a small but passionate community, always evading the law. Rosemary Laws barely remembers the Before times. She spends her days in Hoodspace, helping customers order all of their goods online for drone delivery--no physical contact with humans needed. By lucky chance, she finds a new job and a new calling: discover amazing musicians and bring their concerts to everyone via virtual reality. The only catch is that she'll have to do something she's never done before and go out in public. Find the illegal concerts and bring musicians into the limelight they deserve. But when she sees how the world could actually be, that won't be enough. Presents a Spanish language grammar and vocabulary practice workbook to accompany a text book for classes in high school Spanish.

Study Guide to Passing the Salesperson Real Estate License Exam Effortlessly

Twenty-year-old Skyler saw the incident out her window: Some sort of metallic object hovering over the Golden Gate Bridge just before it collapsed and a mushroom cloud lifted above the city. Like everyone, she ran, but she couldn't outrun the radiation, with her last thoughts being of her beloved baby brother, Dorian, safe in her distant family home. Flash forward to a post-incident America, where the country has been broken up into territories and Muslims have been herded onto the old Indian reservations in the west, even though no one has determined who set off the explosion that destroyed San Francisco. Twelve-year old Dorian dreams about killing Muslims and about his sister—even though Dorian's parents insist Skyler never existed. Are they still shell-shocked, trying to put the past behind them . . . or is something more sinister going on? Meanwhile, across the street, Dorian's neighbor adopts a Muslim orphan from the territories. It will set off a series of increasingly terrifying incidents that will lead to either tragedy or redemption for Dorian, as he struggles to prove that his sister existed—and was killed by a terrorist attack. Not on Fire, but Burning is unlike anything you're read before—not exactly a thriller, not exactly sci-fi, not exactly speculative fiction, but rather a brilliant and absorbing adventure into the dark heart of an America that seems ripped from the headlines. But just as powerfully, it presents a captivating hero: A young boy driven by love to seek the truth, even if it means his deepest beliefs are wrong.

¡Qué chévere! is an engaging program that develops students' communication skills by providing ample speaking and writing practice in contextualized situations, working with partners and in groups.
