Red has a constant internal battle between her wild side and her strict, overprotective upbringing, and the issue of "control" as she discovers she has a hot temper when the "mean girls" push her too far. ("When we learn to control it, we needn't fear it," Rumpelstiltskin says in the series.) She has flashbacks to her 13th year when she received her cloak and the nickname "Red." Plagued by nightmares she doesn't understand and a temper she can't control, Red struggles to save Granny's troubled business and to nurture her budding romance with Peter, even as the betrayal of her classmates awakens the wolf within.

Drawing on previously unpublished eyewitness accounts, prizewinning historian Donald L. Miller has written what critics are calling one of the most powerful accounts of warfare ever published. Here are the horror and heroism of World War II in the words of the men who fought it, the journalists who covered it, and the civilians who were caught in its fury. Miller gives us an up-close, deeply personal view of a war that was more savagely fought -- and whose outcome was in greater doubt -- than readers might imagine. This is the war that Americans at the home front would have read about had they had access to the previously censored testimony of the soldiers on which Miller builds his gripping narrative. Miller covers the entire war -- on land, at sea, and in the air -- and provides new coverage of the brutal island fighting in the Pacific, the bomber war over Europe, the liberation of the death camps, and the contributions of African Americans and other minorities. He concludes with a suspenseful,

For more than a century, no US adversary or coalition of adversaries - not Nazi Germany, Imperial Japan, or the Soviet Union - has ever reached sixty percent of US GDP. China is the sole exception, and it is fast emerging into a global superpower that could rival, if not eclipse, the United States. What does China want, does it have a grand strategy to achieve it, and what should the United States do about it? In The Long Game, Rush Doshi draws from a rich base of Chinese primary sources, including decades worth of party documents, leaked materials, memoirs by party leaders, and a careful analysis of China's conduct to provide a history of

China's grand strategy since the end of the Cold War. Taking readers behind the Party's closed doors, he uncovers Beijing's long, methodical game to displace America from its hegemonic position in both the East Asia regional and global orders through three sequential "strategies of displacement." Beginning in the 1980s, China focused for two decades on "hiding capabilities and biding time." After the 2008 Global Financial Crisis, it became more assertive regionally, following a policy of "actively accomplishing something." Finally, in the aftermath populist elections of 2016, China shifted to an even more aggressive strategy for undermining US hegemony, adopting the phrase "great changes unseen in century." After charting how China's long game has evolved, Doshi offers a comprehensive yet asymmetric plan for an effective US response. Ironically, his proposed approach takes a page from Beijing's own strategic playbook to undermine China's ambitions and strengthen American order without competing dollar-for-dollar, ship-for-ship, or loan-for-loan.

#1 New York Times bestselling author Nora Roberts presents *Legacy*, a new novel of a mother and a daughter, of ambition and romance, and of a traumatic past reawakened by a terrifying threat... Adrian Rizzo was seven when she met her father for the first time. That was the day he nearly killed her—before her mother, Lina, stepped in. Soon after, Adrian was dropped off at her grandparents' house in Maryland, where she spent a long summer drinking lemonade, playing with dogs, making a new best friend—and developing the stirrings of a crush on her friend's ten-year-old brother. Lina, meanwhile, traveled the country promoting her fitness brand and turning it into a billion-dollar business. There was no point in dwelling on the past. A decade later, Adrian has created her own line of yoga and workout videos, following in Lina's footsteps but intent on maintaining creative control. And she's just as cool-headed and ambitious as her mother. They aren't close, but they're cordial—as long as neither crosses the other. But while Lina dismisses the death threats that Adrian starts getting as a routine part of her daughter's growing celebrity, Adrian can't help but find the vicious rhymes unsettling. Year after year, they keep arriving—the postmarks changing, but the menacing tone the same. They continue after she returns to Maryland and becomes reacquainted with Raylan, her childhood crush, all grown up and as gorgeously green-eyed as ever. Then she meets a very different kind of Dom—one whose quiet confidence, strength, and command bring her most willingly to her knees.

Undercover FBI agent Dex Alexander fits right into his assignment to expose terrorist links to one of L.A.'s most popular clubs. Ratatouille meets Broadway in this charming new middle grade novel about a little mouse with big dreams. Lulu is a little girl with a very big dream: she wants to be on Broadway.

She wants it more than anything in the world. As it happens, she lives in Broadway's Shubert Theatre; so achieving her dream shouldn't be too tricky, right? Wrong. Because the thing about Lulu? She's a little girl mouse. When a human girl named Jayne joins the cast of the show at the Shubert as an understudy, Lulu becomes Jayne's guide through the world of her theatre and its wonderfully kooky cast and crew. Together, Jayne and Lulu learn that sometimes dreams turn out differently than we imagined; sometimes they come with terms and conditions (aka the company mean girl, Amanda). But sometimes, just when we've given up all hope, bigger and better dreams than we'd ever thought could come true, do. Henry and Violet finally have a chance to be alone. Granted, it's on a school field trip, but with some clever planning and strategic maneuvering, they can orchestrate their own adventure in New York City, a fairytale land in its own right. While they search for a treasured item that once belonged to Violet's father, they are met with obstacles they could never have predicted. What they thought would be a romantic getaway ends up being a true test of their relationship. The question remains: Are they destined for a happily ever after?

Patrice Williams was happy living in Georgia with her grandmother, who called her "cocoa grandbaby." Then her mother lured her to Chicago and ended up in jail.
