

## Recon The Complete Series

Go to war or go to jail. For small-time street hustler Cam Alvarez, the choice is simple. He has no family, no friends, no place in the world...nothing to lose. When his latest con results in the death of a cartel hitman, Cam opts to join the Marines and leave Earth to fight a vicious alien enemy. Drafted into the Marine Drop-Troopers, Cam discovers there's one thing he's even better at than running street-con games, and that's killing the enemy. Wrapped in an armored battlesuit, Cam finds purpose amidst the horror and destruction of the war, and the opportunity for a new sort of friends and family...if he can break the habits of a life spent alone, trusting no one. And, if he can survive...Rick Partlow returns with another kickass Military Sci-Fi epic. It's perfect for fans of Jay Allan, Jasper T. Scott, and Scott Bartlett.

Swift, silent, and deadly—they strike where no one else dares. Fear is the fastest-growing crop on Haulover, a newly colonized planet where someone—or something—is destroying isolated farmhouses. The unseen enemy strikes without warning, then disappears, leaving no stone standing, no trace of families or farm animals. When the Confederation receives a desperate plea for help, it's time to send in the Marines. Impossible missions are a matter of course for Fourth Force Recon's second platoon squads, and the situation at Haulover—with no witnesses and few clues—is no exception. But this assignment turns out to be even tougher and bloodier than usual because the devastation is a ploy—to lure the nine Marines into a trap, and to force them to bust the Confederation's terrible secret wide open. And as for the Skinks lying in ambush on Haulover, they have no idea what trouble is . . . until they go up against a few good Marines.

Eli knows corruption runs deep within the compound. It's a reality he's forced to confront every year on Bid Day. She's the best developer in her year, and she's confident she'll find a place among the wealthy, respected Systems workers. But when an upset in the bidding changes the course of Harper's future, she'll be forced to rely on an unlikely ally - dark, unreadable Eli Parker. In her search for answers, Harper will learn that in the compound, the truth doesn't set you free. It gets you killed.

No ordinary wet-team, this group is only the vanguard of a power play threatening national security. Danger is everywhere . . . Behind-enemy-lines stories of elite Marines in Vietnam Force Recon companies were the eyes and ears of the Marine Corps in Vietnam. Classified as special operations capable, Force Recon Marines ventured into the enemy's backyard to conduct reconnaissance and launched deliberate strikes against the enemy. Lanning and Stubbe blend analysis and you-are-there stories of Force Recon in action to create the definitive account of Recon Marines.

Uncommon Valor is a look into the formation and operation of an advanced Special Forces recon company during the Vietnam War. Code-named the Studies and Observations Group, SOG was the most covert U.S. military unit in its time and contained only volunteers from such elite units as the Army's Green Berets, Navy SEALs, and Air Force Air Commandos. SOG warriors operated in small teams, going behind enemy lines in Laos and Cambodia and along the Ho Chi Minh Trail, tasked with performing special reconnaissance, sabotaging North Vietnamese Army ammunition, attempting to rescue downed U.S. pilots and other black ops missions. During that time, Forward Operating Base-2's (FOB-2's) recon company became the most highly decorated unit of the Vietnam War, with five of its men earning the Medal of Honor and eight earning the Distinguished Service Cross-America's second highest military award for valor. Purple Hearts were earned by SOG veterans at a pace unparalleled in American wars of the twentieth century, with casualties at times exceeding 100 percent. One, Bob Howard, was wounded on fourteen different occasions, received eight Purple Hearts, was written up after three different missions for the Medal of Honor, and emerged from Vietnam as the most highly decorated soldier since World War II's Audie Murphy.

**The first book in the classic vigilante action series from a "writer who spawned a genre" (The New York Times). Overseas, Mack Bolan was dubbed "Sgt. Mercy" for the compassion he showed the innocent. On the home front, they're calling him the Executioner for what he's doing to the guilty. In the jungles of Southeast Asia, American sniper Mack Bolan honed his skills. After twelve years, with ninety-five confirmed hits, he returns home to Massachusetts. But it's not to reunite with his family, it's to bury them—victims in a mass murder/suicide. Even though Bolan's own father pulled the trigger, he knows the old man was no killer. He was driven to madness by Mafia thugs who have turned his idyllic hometown into a new kind of war zone. Duty calls . . . Introducing an action hero "who would make Jack Reacher think twice," this is the first book in the iconic series of vigilante justice that has become a publishing phenomenon (Empireonline.com). With more than two hundred million Executioner books sold since its debut, the series continues to stimulate. Gerry Conway, cocreator of Marvel Comics' The Punisher, credits the Executioner as "my inspiration . . . that's what gave me the idea for the lone, slightly psychotic avenger." The series is also now in development as a major motion picture. War Against the Mafia is the 1st book in the Executioner series, but you may enjoy reading the series in any order.**

**THE A SHAU VALLEYWHERE THE NVA WAS KING . . . In order to prevent surprise attacks on U.S. forces as they were pulling out of Vietnam, someone had to be able to pinpoint the NVA's movements. That dangerous job was the assignment of then-major Alex Lee and the Marines of the 3rd Force Reconnaissance Company when he assumed command in late 1969. They became the tip of the spear for Lt. Gen. Herman Nickerson's III MAF. And each time one of Lee's small, well-motivated, well-led, and wildly outnumbered teams was airlifted into the field, the men never knew if the day would end violently. But whether tracking NVA movements, recovering downed air crews, or making bomb-damage assessments after B-52 strikes, Major Lee's Few Good Men never forgot who they were: Each of them was in Vietnam to live like a Marine, win like a Marine, and, if need be, die like a Marine. Fortright and unabashed, Lieutenant Colonel Lee leaves no controversy untouched and no awe-inspiring tale untold in this gripping account of 3rd Force Recon's self-sacrifice and heroic achievement in the face of overwhelming odds.
