This 1880 work by Dr. M. La Fayette Byrn is the eighth edition of a hugely popular manual on the distillation of spirits from a variety of fruits and vegetables. Providing directions for the distillation and preparation of brandies and other spirits, this edition had appended to it M.

Flinz's ""Practical Directions for Distilling,"" a text that had appeared separately in Paris and which the author felt would provide vital information to the reader.

A new, revised and updated edition of the James Beard award-winning guide to wine from The Culinary Institute of America.

A compact illustrated guide to the emerging and enormously popular category of natural wine, a style that focuses on minimal intervention, lack of additives, and organic and biodynamic growing methods. Today, wine is more favored

and consumed that it's ever been in the United States--and millennials are leading the charge, drinking more wine than any other generation in history. Many have been pulled in by the tractor beam of natural wine--that is, organic or biodynamic wine made with nothing added, and nothing taken away--a movement that has completely rocked the wine industry in recent years. While all of the hippest restaurants and wine bars are touting their natural wine lists, and while more and more consumers are calling for natural wine by name, there is still a lot of

confusion about what exactly natural wine is, where to find it, and how to enjoy it. In *Natural Wine for the People*, James Beard Award-winner Alice Feiring sets the record straight, offering a pithy, accessible guide filled with easy definitions, tips and tricks for sourcing the best wines, whimsical illustrations, a definitive list to the must-know producers and bottlings, and an appendix with the best shops and restaurants specializing in natural wine across the country, making this the must-buy and must-gift wine book of the year.

JAMES BEARD AWARD WINNER The expanded wine guide from the creators of Wine Folly, packed with new information for devotees and newbies alike. Wine Folly became a sensation for its inventive, easy-to-digest approach to learning about wine. Now in a new, expanded hardcover edition, Wine Folly: Magnum Edition is the perfect guide for anyone looking to take his or her wine knowledge to the next level. Wine Folly: Magnum Edition includes:

A comprehensive guide to the must-know wines and producers of California's "new generation," and the story of the iconoclastic young winemakers who have changed the face of California viniculture in recent years. The New California Wine is the untold story of the California wine industry: the young, innovative producers who are rewriting the rules of contemporary winemaking; their quest to

express the uniqueness of California terroir; and the continuing battle to move the state away from the overly-technocratic, reactionary practices of its recent past. Jon Bonné writes from the front lines of the California wine revolution, where he has access to the stories, philosophies, and techniques of top producers. In this groundbreaking debut, Bonné paints an unflinching portrait of the current state of the industry: its strengths and shortcomings, its essential wines and those not worth pursuing. Lush full-color photographs, as well as a region-by-region tour of some of California's lesser-

known growing areas, reveal the people and places behind the bottles. Finally, a comprehensive purchasing reference lists all the must-know producers and their best wines, making The New California Wine an essential resource for finding and buying the very best the state has to offer.
