Longlisted for the 2019 Center for Fiction First Novel Prize, Ryan Chapman's "gritty, bracing debut" (Esquire) set during a prison riot is "dark, daring, and laugh-out-loud hilarious...one of the smartest—and best—novels of the year" (NPR). A largescale riot rages through Westbrook prison in upstate New York, incited by a poem in the house literary journal. Our unnamed narrator, barricaded inside the computer lab, swears he's blameless—even though, as editor-in-chief, he published the piece in question. As he awaits violent interruption by his many, many enemies, he liveblogs one final Editor's Letter. Riots I Have Known is his memoir, confession, and act of literary revenge. His tale spans a childhood in Sri Lanka, navigating the postwar black markets and hotel chains; employment as a Park Avenue doorman, serving the widows of the one percent; life in prison, with the silver lining of his beloved McNairy; and his stewardship of The Holding Pen, a "masterpiece of post-penal literature" favored by Brooklynites everywhere. All will be revealed,

and everyone will see he ' s really a good guy, doing it for the right reasons. “ Fitfully funny and murderously wry, ” Riots I Have Known is “ a frenzied yet wistful monologue from a lover of literature under siege ” (Kirkus Reviews).

“ You ' ll never think the same way about your morning cup of coffee. ” —Mark McClusky, editor in chief of *Wired.com* and author of *Faster, Higher, Stronger Journalist* Murray Carpenter has been under the influence of a drug for nearly three decades. And he ' s in good company, because chances are you ' re hooked, too. Humans have used caffeine for thousands of years. A bitter white powder in its most essential form, a tablespoon of it would kill even the most habituated user. This addictive, largely unregulated substance is everywhere—in places you ' d expect (like coffee and chocolate) and places you wouldn ' t (like chewing gum and fruit juice), and Carpenter reveals its impact on soldiers, athletes, and even children. It can make you stronger, faster, and more alert, but it ' s not perfect, and its role in health concerns like obesity and anxiety will surprise you. Making stops at the coffee farms of central Guatemala, a synthetic caffeine factory in China, and an energy shot bottler in New Jersey, among numerous other locales around the globe, *Caffeinated* exposes the high-stakes but murky world of caffeine, drawing on cutting-edge science and larger-than-life characters to offer an unprecedented understanding of America ' s favorite drug.

“Anyone can write a blog post, but not everyone can get it liked thirty-five thousand times, and not everyone can get seventy-five thousand subscribers. But the reason we’ve done these things isn’t because we’re special. It’s because we tried and failed, the same way you learn to ride a bike. We tried again and again, and now we have an idea how to get from point A to point B faster because of it.” Three short years ago, when Chris Brogan and Julien Smith wrote their bestseller, *Trust Agents*, being interesting and human on the Web was enough to build a significant audience. But now, everybody has a platform. The problem is that most of them are just making noise. In *The Impact Equation*, Brogan and Smith show that to make people truly care about what you have to say, you need more than just a good idea, trust among your audience, or a certain number of followers. You need a potent mix of all of the above and more. Use the Impact Equation to figure out what you’re doing right and wrong. Apply it to a blog, a tweet, a video, or a mainstream-media advertising campaign. Use it to explain why a feature in a national newspaper that reaches millions might have less impact than a blog post that reaches a thousand passionate subscribers. Consider the phenomenally successful British singer Adele. For most musicians,

onstage banter basically consists of yelling "Hello, Cleveland!" But Adele connects with her audience, pausing between songs to discuss a falling-out with her friends, or the drama of a break up. Each of these moments comes off as if she were talking directly with you, and you can easily relate. Adele has Impact. As the traditional channels for marketing, selling, and influencing disappear and more people interact mainly online, the very nature of attention is changing. The Impact Equation will give you the tools and metrics that guarantee your message will be heard.

The #1 New York Times bestselling memoir of U.S. Navy Seal Chris Kyle, and the source for Clint Eastwood's blockbuster, Academy-Award nominated movie. "An amazingly detailed account of fighting in Iraq--a humanizing, brave story that's extremely readable." — PATRICIA CORNWELL, New York Times Book Review "Jaw-dropping...Undeniably riveting." —RICHARD ROEPER, Chicago Sun-Times From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's masterful account of his extraordinary battlefield experiences ranks as

one of the great war memoirs of all time.

Learn to communicate with your dog—using their language “ Good reading for dog lovers and an immensely useful manual for dog owners. ” —The Washington Post An Applied Animal Behaviorist and dog trainer with more than twenty years ’ experience, Dr. Patricia McConnell reveals a revolutionary new perspective on our relationship with dogs—sharing insights on how “ man ’ s best friend ” might interpret our behavior, as well as essential advice on how to interact with our four-legged friends in ways that bring out the best in them. After all, humans and dogs are two entirely different species, each

shaped by its individual evolutionary heritage. Quite simply, humans are primates and dogs are canids (as are wolves, coyotes, and foxes). Since we each speak a different native tongue, a lot gets lost in the translation. This marvelous guide demonstrates how even the slightest changes in our voices and in the ways we stand can help dogs understand what we want. Inside you will discover:

- How you can get your dog to come when called by acting less like a primate and more like a dog
- Why the advice to “ get dominance ” over your dog can cause problems
- Why “ rough and tumble primate play ” can lead to trouble—and how to play with your dog in ways that are fun and keep him out of mischief
- How dogs and humans share personality types—and why most dogs want to live with benevolent leaders rather than “ alpha wannabes! ”

Fascinating, insightful, and compelling, *The Other End of the Leash* is a book that strives to help you connect with your dog in a completely new way—so as to enrich that most rewarding of relationships.

Offers techniques and strategies for increasing income while cutting work time in half, and includes advice for leading a more fulfilling life.

If you can judge a book by its enemies, *Too Famous* could be an instant classic. Bestselling author of *Fire and Fury* and chronicler of the Trump White House Michael Wolff dissects more of the major monsters, media whores, and vainglorious figures of our time. His scalpel opens their lives, careers, and always equivocal endgames with the same vividness and wit he brought to his disemboweling of the former president. These brilliant and biting profiles form a mesmerizing portrait of the hubris, overreach, and nearly inevitable self-destruction of some of the most famous faces from the Clinton era through the Trump years. When the mighty fall, they do it with drama and with a dust cloud of gossip. This collection pulls from new and unpublished work—recent reporting about Tucker Carlson, Jared Kushner, Harvey Weinstein, Ronan Farrow, and Jeffrey Epstein—and twenty years of coverage of the most notable egomaniacs of the time—among them, Hillary Clinton, Michael Bloomberg, Andrew Cuomo, Rudy

Giuliani, Arianna Huffington, Roger Ailes, Boris Johnson, and Rupert Murdoch—creating a lasting statement on the corrosive influence of fame. Ultimately, this is an examination of how the quest for fame, notoriety, and power became the driving force of culture and politics, the drug that alters all public personalities. And how their need, their desperation, and their ruthlessness became the toxic grease that keeps the world spinning. You know the people here by name and reputation, but it's guaranteed that after this book you will never see them the same way again or fail to recognize the scorched earth the famous leave behind them.

“An ambitious, remarkably frank” chronicle of the Philadelphia Eagles’ bid for the NFL championship by the #1 New York Times–bestselling author (Kirkus Reviews). In 1992, the Philadelphia Eagles—a team assembled in the image of their iconoclastic, controversial former head coach, Buddy Ryan—were known for their ferocious defense led by Reggie White, Seth Joyner, and Andre Waters, and for the otherworldly talents of quarterback Randall Cunningham. Now was the time for the Eagles’ campaign for the championship. But as the season progressed, it disintegrated into an ugly flurry of greed, racism, violence, personal and professional feuds, one tragic death, and a very wild face-off in the stands between a player’s wife and mistress. By midseason, the sentiment of both fans and press was the same: “shut up and play.” Told through the personal stories of the teammates themselves, as well as the coaches, managers and owner, *Bringing the Heat* spares nothing—and no one—in “a phenomenal feat of reportage, perfect for football fans coast to coast” (H. G. Bissinger, author of *Friday Night Lights*).

“Overflows with stories of pro football dreams, of bravery in the face of injury. Yet it also unflinchingly tells of the darker side of life in the NFL: uncontrollable egos, ruined families, marital infidelity.” —The New York Times Book Review “There are now four mandatory books on football: Dan Jenkins’s *Semi-Tough*; George Plimpton’s *Paper Lion*; H. G. Bissinger’s *Friday Night Lights*, and the hilarious,

incorrigible son of them all, Mark Bowden's Bringing the Heat." —Michael Bamberger, Sports Illustrated

The crime-infested intersection of West Fayette and Monroe Streets is well-known--and cautiously avoided--by most of Baltimore. But this notorious corner's 24-hour open-air drug market provides the economic fuel for a dying neighborhood. David Simon, an award-winning author and crime reporter, and Edward Burns, a 20-year veteran of the urban drug war, tell the chilling story of this desolate crossroad. Through the eyes of one broken family--two drug-

addicted adults and their smart, vulnerable 15-year-old son, DeAndre McCollough, Simon and Burns examine the sinister realities of inner cities across the country and unflinchingly assess why law enforcement policies, moral crusades, and the welfare system have accomplished so little. This extraordinary book is a crucial look at the price of the drug culture and the poignant scenes of hope, caring, and love that astonishingly rise in the midst of a place America has abandoned.

Richard L. Proenneke--a modern-day Henry David Thoreau--built a cabin in Twin Lakes, Alaska, during the spring of 1968, sparking thirty years of personal growth in which he spent the majority of his time strengthening his relationship with the wilderness around him. Following in the footsteps of *One Man's Wilderness*, a classic book compiling some of the mountain man's journals, *More Readings from One Man's Wilderness* chronicles Proenneke's experiences with animals, the elements, park visitors, and observations he made while hiking in Lake Clark National Park and Preserve. A master woodcraftsman, a mechanical genius, a tireless hiker with a keen eye, and a journalist, Proenneke's life at Twin Lakes has inspired thousands of readers for decades. Editor John Branson--a longtime friend of Proenneke's and a park historian--ensures that Proenneke's journals from 1974-1980 are kept entirely intact. His colloquial writing is not changed or altered, but Branson's footnotes make his world more approachable by providing a background for names and places that may have otherwise been unknown. Any reader with a love for conservation and true-life wilderness narratives will undoubtedly admire and relish Proenneke's tales of living in the wild. LONGLISTED FOR THE 2019 NATIONAL BOOK AWARD FINALIST, 2020

PULITZER PRIZE IN HISTORY By the late 1960s and early 1970s, reeling from a wave of urban uprisings, politicians finally worked to end the practice of redlining. Reasoning that the turbulence could be calmed by turning Black city-dwellers into homeowners, they passed the Housing and Urban Development Act of 1968, and set about establishing policies to induce mortgage lenders and the real estate industry to treat Black homebuyers equally. The disaster that ensued revealed that racist exclusion had not been eradicated, but rather transmuted into a new phenomenon of predatory inclusion. *Race for Profit* uncovers how exploitative real estate practices continued well after housing discrimination was banned. The same racist structures and individuals remained intact after redlining's end, and close relationships between regulators and the industry created incentives to ignore improprieties. Meanwhile, new policies meant to encourage low-income homeownership created new methods to exploit Black homeowners. The federal government guaranteed urban mortgages in an attempt to overcome resistance to lending to Black buyers – as if unprofitability, rather than racism, was the cause of housing segregation. Bankers, investors, and real estate agents took advantage of the perverse incentives, targeting the Black women most likely to fail to keep up their home payments and slip into foreclosure, multiplying their profits. As a result, by the end of the 1970s, the nation's first

programs to encourage Black homeownership ended with tens of thousands of foreclosures in Black communities across the country. The push to uplift Black homeownership had descended into a goldmine for realtors and mortgage lenders, and a ready-made cudgel for the champions of deregulation to wield against government intervention of any kind. Narrating the story of a sea-change in housing policy and its dire impact on African Americans, *Race for Profit* reveals how the urban core was transformed into a new frontier of cynical extraction.

"Palast is astonishing, he gets the real evidence no one else has the guts to dig up." Vincent Bugliosi, author of *None Dare Call it Treason* and *Helter Skelter* Award-winning investigative journalist Greg Palast digs deep to unearth the ugly facts that few reporters working anywhere in the world today have the courage or ability to cover. From East Timor to Waco, he has exposed some of the most egregious cases of political corruption, corporate fraud, and financial manipulation in the US and abroad. His uncanny investigative skills as well as his no-

holds-barred style have made him an anathema among magnates on four continents and a living legend among his colleagues and his devoted readership. This exciting collection, now revised and updated, brings together some of Palast's most powerful writing of the past decade. Included here are his celebrated Washington Post exposé on Jeb Bush and Katherine Harris's stealing of the presidential election in Florida, and recent stories on George W. Bush's payoffs to corporate cronies, the payola behind Hillary Clinton, and the faux energy crisis. Also included in this volume are new and previously unpublished material, television transcripts, photographs, and letters.

The book ends with the mass layoffs and resulting decline that ushered in "digital-first" age.
