Sophos, heir to the throne of Sounis, has disappeared without a trace. Eugenides, the new and unlikely king of Attolia, has never stopped wondering what happened to his friend. Nor has the Queen of Eddis, who once offered Sophos her hand. They send spies. They pay informants. They appeal to the gods. But as time goes by, it becomes less and less certain that they will ever see their friend alive again. Battles are fought, bribes are offered, and conspiracies are set in motion. Across the sea, a ruthless empire watches for even the slightest weakness. And Sophos, anonymous and alone, bides his time. Until, drawing on his memories of Gen, Pol, the magus—and Eddis—Sophos sets out on an adventure that will change all of their lives forever.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
