Are you saying right now DAMN THOSE (Bleeping) CREDIT BUREAU'S? Are those Credit Bureaus stopping you from getting: AN APARTMENT: Sorry here is your damage deposit back your credit application was not approved but thanks for the \$30.00 credit application fee. EMPLOYMENT: Sorry you are qualified and we really liked your interview, but after seeing your credit report we will be going a different route. AUTOMOBILE: Well we did get you approved but unfortunately the down payment we talked about will be significantly more. Your monthly payment will also be \$168 more a month. We understand that's not financially possible for you but if things change let us know. There is a bus stop about a block away thanks for coming in and help yourself to a cup of coffee on your way out. HOUSE: You seem like a nice couple and it's great you are expecting your first child soon but unfortunately we can't get you the mortgage we advertised everywhere. You might want to try those companies online that charge insane interest rates and want a huge deposit as well as your first born child. Thanks for coming in and would you mind filling out a survey online about how well we served you today? "A good friend of mine is a divorce attorney. He knows what I do so whenever we get together the subject always seems to go to credit. He told me he's shocked at how much "spouse has bad credit" comes up during a divorce. He says it's always an issue women have. We have deducted that women love to nest. They want security (I guess we didn't have to be rocket scientist to figure that out)." So anyway STOP RIGHT NOW AND SCROLL TO THE TOP OF THE PAGE AND BUY THIS BOOK SO WE CAN GET STARTED. Is that being forward enough? Seriously we are talking about the cost of a cup of Starbucks coffee. By the way Starbucks in no way endorses my book lol. Howard Schultz the chairman and CEO of Starbucks I'm sure doesn't have credit issues. " So if you are still here you might need some more convincing I guess. Good for you... due diligence." My name is John D. Harris I could go on and on here about my experience working as a credit bureau manager but I won't bore you with all the details. THIS REALLY IS NOT ABOUT ME ANYWAYS. IT'S ABOUT YOU AND YOUR CREDIT. Even though your credit affects your whole life experience you probably know very little about real credit repair. Most of the books I have read online about credit repair are out of date or more often than not don't really have a clue what is going on. Let's face it all our lives are on a clock that is always ticking. Tick Tock Tick Tock. THIS IS NOT A PRACTICE RUN. This is your one life. Every day with bad credit is a day you are not experiencing your full life experience. Imagine knowing you have great credit. You know when you talk to the guy in the suit that you have great credit. You know you will be approved for anything. You can shop around for the best rates. You have the best property and pay less than the guy with the dumpy property. You drive the best car for less than the poor guy driving the seven-year-old vehicle. You might start flipping property. You might buy a business on credit. People respect you because you are the baller, you can get things done because you have access to CREDIT. You can take advantage of great deals because you have CREDIT. My bet is that you know more about cooking a turkey, changing your oil, what's on Netflix, Geography, Donald Trump, Words of a different language, Facebook, etc. THAN YOU DO ABOUT REAL CREDIT REPAIR. I guarantee you can have good credit PS: I am a real person, with my book I include my phone number and email. You will also get unlimited access to my members only website with so many valuable resources. John D. Harris

*If you've had an overdue student loan, years of high credit card balances, collections accounts, or even foreclosure, unfortunately, you probably have below-average or bad credit. With poor credit, you may not be able to get approved for new credit products like credit cards. Although you may still be able to take out an auto loan or a mortgage, you'll pay a much higher interest rate because of your low credit score. Compared to a borrower with good credit, someone with poor credit can pay \$50,000 more in interest on a mortgage. Over an entire lifetime, you could end up paying over \$200,000 more in unnecessary interest just because of bad credit. The good news is that you can repair your credit score all on your own. It just requires a little bit of know-how and a good bit of patience. This is a book that will show you sample letters you can send to restore your credit and greatly improve your chances of getting that home or a new car! In this book, you will be able to use the most up-to-date dispute letters to get things removed from your credit report and INCREASE your score. These are the same letters I use and have been proven to work for thousands of other people just like you! Here are a few more specific things you will get out of this book: -What to look for before you dispute items on your report -Where to mail your dispute letters -Exactly what you want to say in your letters -Rules to keep your improved credit score -Why items may have not been removed before -Most common mistakes that people make when trying to dispute -And more...*

*Having a low credit score can be very expensive and cause you to miss out on opportunities. In my case, I was trying to refinance my \$300,000 mortgage. My credit score was 620 because I had some negative items on my credit that I wasn't aware of, and extra debt on my credit cards that I could not afford to pay off. I was quoted an interest rate of 6.25% because of my low credit score. Instead of taking the loan, I repaired my credit by removing the incorrect items and paid down some of the debt on my credit cards. I waited a month, and my credit score jumped to 725. I reapplied for the loan and got a quote of 4.5%. If you have one mortgage, buy 3 cars over the 30 year period, and carry \$10,000 credit card debt over the 30 year period, you will spend an extra \$238,500 on additional interest, or another way to look at it, you will throw away \$238,500 to have the same things had you not maintained a healthy credit history and score. If you need to increase your credit score to move into a new apartment, house, buy a car, or get loans for business. This book has a complete game plan on how to get started and get the end results you're looking for. If you're in a bind and need quick results, this book will show*

**Credit Repair Credit Repair Second Edition Real Life Real World Credit Repair and Score Increase Tactics. Includes real credit letters and disputes There's no need to hire attorneys or credit repair firms. All they do is send out a templated letter anyways, and creditors get those all the time...BIG DEAL. When the actual DEBTOR sends a serious letter, whoa, watch out..Consumer Laws being brandished on the collector, creditor. They don't like that and will do whatever necessary to get rid of you fast, if you reach the right person and say the right things. These proven strategies can work for anyone. This book will show you how to take action and restore or improve your credit. When doing credit repair...you want your negative information DELETED, do not settle for any other status. Let's face the facts here, without good credit you spend A LOT more money on things like mortgages, car loans, INSURANCE and cell phone plans. Even healthcare can cost a lot more. And let's not forget that nowadays employers usually will check your credit to ensure you aren't a financial risk to them. If your credit sucks, and it's a job you really want, how awful would that be if you get passed over because of your credit score or credit report Collections and Judgment, Get Them Deleted! Dispute your credit the right way using Federal laws in your favor. The Consumer Acts are vast and complex, almost every debt collector or creditor has a violation somewhere in their operations, they're almost impossible NOT to violate. Write Credit Letters From Hell and State Your Demands. No company likes dealing with debtors that know the Consumer Acts and uses them to their advantage. Most companies can barely adhere to the vast Consumer laws and Fair Credit Acts, however minor, most companies violate some aspect of the laws at one time or another. If you can't find a Fair Credit violation, use the Cyber Security breach tactic. This one is VERY SERIOUS. The Government wants large corporations to secure your data, if they are recklessly handling your information, this falls under the Cyber Security mandates and is definitely going to get their attention. Inquiries Nowadays lots of companies don't even tell you upfront that they are making a hard credit inquiry. These can add up over time and pull your score down many points, getting these deleted is the goal. Get your free REAL score and report online direct from the major bureaus. Lots of websites and companies claim they will give you a free credit score but they usually try to trick you. They will try to charge you either a large one-time fee or an ongoing membership fee for access to your credit information. But there is one website that gives you your credit score 100% free without trying to sell you anything, and you can monitor your score without any cost. They can even provide you with free email alerts when anything new pops up on your credit report so you can take care of it right away. Insurance Auto insurance rates are out of control these days, don't let them rip you off because your score places you in a certain category of risk for them, fight back by improving your score quickly and get the low rates you deserve NOW. Also, check your driving record report, sometimes errors in points or citations will cause your insurance premiums to remain high. Sometimes citations that were supposed to drop off haven't.**

**Society relies heavily on credit for most financial decisions. Today, good credit is not just important for getting a loan or a credit card. Many businesses have to check your credit before deciding whether or not they will extend their products and services to you. Mortgage lenders need to be sure that you will pay your mortgage responsibly before they can finance you. Without good credit, the mortgage lender concludes that giving you a loan is risky for them. If they still approve, regardless of your poor credit, they will charge you a very high interest rate. Bad credit will see you pay a higher mortgage amount or worse, your mortgage application will be declined. Just because you are not currently interested in buying a house does not mean that your credit does not matter. Landlords will, in most cases, consult your credit before renting you a house or apartment. Your lease is considered a loan. You require a loan to purchase a car unless you have the full amount at hand. Your credit score affects the loan amount and interest rate and whether or not you will be given the loan in the first place. With excellent credit, you will qualify for a higher loan amount and the interest rate will be lower. A poor credit score translates to limited options. Not many lenders will be ready to finance you and the few that will be willing might charge a very high interest rate.
