Food-borne diseases are major causes of morbidity and mortality in the world. It is estimated that

Read Book Research Paper Personal Hygiene

about 2.2 million people die yearly due to food and water contamination. Food safety and consequently food security are therefore of immense importance to public health, international trade and world economy. This book, which has 10 chapters,

Read Book Research Paper Personal Hygiene

provides information on the incidence, health implications and effective prevention and control strategies of food-related diseases. The book will be useful to undergraduate and postgraduate students, educators and researchers in the fields of

Read Book Research Paper Personal Hygiene

life sciences, medicine, agriculture, food science and technology, trade and economics. Policy makers and food regulatory officers will also find it useful in the course of their duties. This book explores how dynamic changes in products' sensory

Read Book Research Paper Personal Hygiene

features can be used to convey information to the user in an effective and engaging way. The aim is to supply the reader with a clear understanding of an important emerging area of research and practice in product design, referred to as dynamic

Read Book Research Paper Personal Hygiene

products, which is opening up new possibilities for the integration of product design with digital and smart technologies and offering an alternative to the use of digital interfaces. Dynamic products are artifacts displaying sensory characteristics – visual,

Read Book Research Paper Personal Hygiene

tactile, auditory, or olfactory – that change in a proactive and reversible way over time, addressing one or more of the user's senses. The reader will learn why and how to communicate by means of such dynamic products. Their potential

Read Book Research Paper Personal Hygiene

advantages and limitations are identified and design tools are proposed to support the design activity. It is hoped that the book will stimulate the design community to reflect upon the ever more compelling need to merge the virtual and the
