Many scientists and engineers consider themselves poor writers or find the writing process difficult. The good news is that you do not have to be a talented writer to produce a good scientific paper, but

Download Free

you do have to be a careful writer. In particular, writing for a peer-reviewed scientific or engineering journal requires learning and executing a specific formula for presenting scientific work. This book is all about teaching the style and conventions of writing

protecting the integrity of the body of published research literature.

Disguised plagiarism is more subtle than copy-and-paste plagiarism; all its varieties involve some additional concealment that
