This unique resource gives middle and secondary school English teachers 180 high-interest activities that build students' proficiency in the three major areas of the English curriculum—reading/literature, writing, and grammar. All the activities have been classroom tested, can be used with students of varying ability, and are effective as individual, group, or whole-class activities. For quick access and easy use, the activities are organized into 36 weekly packets—each packet including five “Dailies”—and printed in a big 8-1/4” x 11” lay-flat format for easy photocopying. Each “Dailies” activity begins with a well-written student passage followed by prompts that encourage students to examine the passage in terms of usage, stylistic devices, grammatical concepts, punctuation, and reading/literature skills. The activities require students to learn the rules that apply and to use the examples as springboards for their own writing. You'll find that these integrated “Dailies” activities are ideally flexible. They can be completed as “warm-ups” at the beginning of class, as mini-reviews for more advanced students, or serve as walk-through activities or homework assignments for students who need reinforcement. Each activity will lead to inquiry and lively discussion as students analyze the model passage and learn to write effectively.

“Intriguing, delightful, and touching.” —School Library Journal (starred review) “Creech’s best yet.” —Publishers Weekly (starred review) It started out as an ordinary summer. But the minute thirteen-year-old Zinny discovered the old, overgrown trail that ran through the woods behind her family’s house, she realized that things were about to change. It was her chance to finally make people notice her, and to have a place she could call her very own. But more than that, Zinny knew that the trail somehow held the key to all kinds of questions. And that the only way to understand her family, her Aunt Jessie’s death, and herself, was to find out where it went. From Newbery Medal-winning author Sharon Creech comes a story of love, loss, and understanding, an intricately woven tale of a young girl who sets out in search of her place in the world—and discovers it in her own backyard. An ALA Best Book for Young Adults

Golding’s iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

***These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).***

***Born on the eve of China’s Cultural Revolution, Ping Fu was separated from her family at the age of eight. She grew up fighting hunger and humiliation and shielding her younger sister from the teenagers in Mao’s Red Guard. At twenty-five, she found her way to the United States; her only resources were \$80 and a few phrases of English. Yet Ping persevered, and the hard-won lessons of her childhood guided her to success in her new homeland. Aided by her well-honed survival instincts, a few good friends, and the kindness of strangers, she grew into someone she never thought she’d be—a strong, independent, entrepreneurial leader. “She tells her story with intelligence, verve and a candor that is often heart-rending.” —The Wall Street Journal “This well-written tale of courage, compassion, and undaunted curiosity reveals the life of a genuine hero.” —Booklist (starred review) “Her success at the American Dream is a real triumph.” —The New York Post***  
***Jeff Anderson and literacy coach Whitney La Rocca take you into primary and intermediate classrooms where students are curious about language, engage with the world around them, and notice and experiment with the conventions all writers use. Instead of chanting grammar rules or completing countless convention worksheets, we invite young writers to explore conventions as special effects devices that activate meaning. Our students study authentic texts and come to recognize these "patterns of power"--the essential grammar conventions that readers and writers require to make meaning. The first part of the book introduces a vibrant approach to grammar instruction and sets up what you need to immerse yourself in the Patterns of Power process, inviting students to experiment and play with language. The second part of the book offers over seventy practical, ready-to-use lessons, including: Extensive support materials Over 100 mentor sentences, curated for grades 1-5 Student work samples Tips and power notes to facilitate your own knowledge and learning Examples for application In Patterns of Power Jeff and Whitney suggest that taking just five minutes from your reading workshop and five minutes from your writing workshop to focus on how the conventions connect reading and writing will miraculously affect your students' understanding of how language works for readers and writers.***

Gogol is named after his father's favourite author. But growing up in an Indian family in suburban America, the boy starts to hate his name and itches to cast it off, along with the inherited values it represents. Gogol sets off on his own path only to discover that the search for identity depends on much more than a name.

Writing from the Center is about one very fine writer's quest for a meaningful and moral life. The center he seeks and describes is geographical, emotional, artistic, and spiritual - and it is rooted in place. The geography is midwestern, the impulses are universal. Where and how do we find meaning? Where does a writer find inspiration? How can personal, artistic, family, and community needs be blended to create a harmonious life? What aids exist in such a ""located"" life against despair? How should a writer relate to and represent his place? Twelve interrelated essays probe these questions from different perspectives. ""Buckeye"" examines the resonance of objects and the mysteries of relationships and death. ""Imagining the Midwest"" surveys how other writers have seen and related to their region. ""The Common Life"" makes an eloquent case for community values.

""Sanctuary"" is an eloquent and painful consideration of environmental degradation. ""Writing from the Center"" and ""Letter to a Reader"" deal with Sanders's decisions to locate in the Midwest, to know his place, and to write about it in both fiction and nonfiction.

"HELP! My Students Can't Write!" Why You Need a Writing Revolution in Your Classroom and How to Lead It. The Writing Revolution (TWR) provides a clear method of instruction that you can use no matter what subject or grade level you teach. The model, also known as The Hochman Method, has demonstrated, over and over, that it can turn weak writers into strong communicators by focusing on specific techniques that match their needs and by providing them with targeted feedback. Insurmountable as the challenges faced by many students may seem, TWR can make a dramatic difference. And the method does more than improve writing skills. It also helps: Boost reading comprehension Improve organizational and study skills Enhance speaking abilities Develop analytical capabilities TWR is as much a method of teaching content as it is a method of teaching writing. There's no separate writing block and no separate writing curriculum. Instead, teachers of all subjects adapt the TWR strategies and activities to their current curriculum and weave them into their content instruction. But perhaps what's most revolutionary about the TWR method is that it takes the mystery out of learning to write well. It breaks the writing process down into manageable chunks and then has students practice the chunks they need, repeatedly, while also learning content.

*A warm and intuitive portrait of the secret Paris—one closed to all but a knowing few—The Piano Shop on the Left Bank is the perfect book for music lovers, or for anyone who longs to recapture a lost passion. Thad Carhart never realized there was a gap in his life until he happened upon Desjorges Pianos, a demure little shopfront in his Pairs neighborhood that seemed to want to hide rather than advertise its wares. Like Alice in Wonderland, he found his attempts to gain entry rebuffed at every turn. An accidental introduction finally opened the door to the quartier's oddest hangout, where locals—from university professors to pipefitters—gather on Friday evenings to discuss music, love, and life over a glass of wine. Luc, the atelier's master, proves an excellent guide to the history of this most gloriously impractical of instruments. A bewildering variety passes through his restorer's hands: delicate ancient pianofortes, one perhaps the onetime possession of Beethoven. Great hulking beasts of thunderous voice. And the modest piano “with the heart of a lion” that was to become Thad's own.*

*Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand—and apply—key concepts.*

When Addie Baum's 22-year old granddaughter asks her about her childhood, Addie realises the moment has come to relive the full history that shaped her. Addie Baum was a Boston Girl, born in 1900 to immigrant Jewish parents who lived a very modest life. But Addie's intelligence and curiosity propelled her to a more modern path. Addie wanted to finish high school and to go to college. She wanted a career, to find true love. She wanted to escape the confines of her family. And she did. Told against the backdrop of World War I, and written with the same immense emotional impact that has made Diamant's previous novels bestsellers, *The Boston Girl* is a moving portrait of one woman's complicated life in the early 20th Century, and a window into the lives of all women seeking to understand the world around them.

*Moving the Piano*

Peter Meinke was a master of traditional poetic forms long before the current interest in "the new formalism." His work is, in turn, witty, comic, sane, deeply moving, and always readable. *Liquid Paper* collects the best of his previously published poems from the late 1960s on with a generous selection of new work.

In the title poem of Shearin's *Moving The Piano*, a piano hangs above a city street, bundled and displaced, awkward when it should be elegant, similar to her childhood of damaged Christmas trees, misunderstood pets, and untended lawns. The piano is temporarily displaced, seen differently because it is lifted away from its ordinary surroundings: suspended above the burdens of the earth. The poems in this collection also seek to hold objects and emotions aloft, to allow them to dangle above the usual landscape, allowing the reader a new vantage point. The book contains many poems that explore the particulars of life on the island of Kitty Hawk where she was a child; they pay attention to untended lawns, sunburns, turtles, motherhood, dead pets, and wilted Christmas trees. One very brief poem explains how to live without money. The collection pays notice to foxes and jellyfish, to the places where she can hear the ocean; it ponders aging and money and motherhood. Shearin says of the piano: "We cannot/ turn away from its startling/ moment of freedom, its perilous fling/ before it returns to the burdens of this earth." Her poems capture that perilous fling. Her first collection, *The Owl Question*, won the May Swenson Award and the poems in her second, *The Empty House*, helped her win a grant from The National Endowment for the Arts. Her work has appeared regularly in *Ploughshares*, *The Sun*, and *North American Review* and has been read aloud by Garrison Keillor on his show *The Writer's Almanac*. Recent work also appears in the *Autumn House Anthology of Contemporary American Poets*. The poems in *Moving the Piano* were written over a period of three years, on the island of Kitty Hawk, with the help of grants from the NEA and the Barbara Deming Memorial Fund. They contain the images and emotions and ideas that she finds most compelling and moving;

A poetry collection of "peculiar grace" from the National Book Critics Circle Award finalist author of *Dailies & Rushes* (Brian Phillips, *Poetry Magazine*). Susan Kinsolving's first poetry collection, *Dailies & Rushes*, was hailed as a "brilliant debut" by the *New York Times*, and "grand and almost terrifying" by the *New Yorker*. In her new work, *The White Eyelash*, she turns the extremes of her recent experiences—especially those with her ageing, mentally ill mother—into poems of harsh factuality. This dark narrative sequence is highly contrasted by the humor presented in a section called "Light Fare & Oddballs." Once again, Kinsolving exhibits a daunting range with signature style and substance. "[The White Eyelash] finds the poet remembering her trouble mother, concentrating on visual detail or pursuing light-verse forms and verbal games with a demotically highbrow, casual grace. . . . Often organized around colors . . . these poems show a love for beauty and a casual line reminiscent of Eamon Grennan's." —Publishers Weekly
