Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Don't get mad, get even... Phil Town's first book, the #1 New York Times bestseller Rule #1, was a guide to stock trading for people who believe they lack the knowledge to trade. But because many people aren't ready to go from mutual funds directly into trading without understanding investing—for the long term – he created Payback Time. Too often, people see long-term investing as “mutual fund contributing” – otherwise known as “long-term hoping.” But the sad truth is that mutual fund investors are, to a stunning degree, pinning their hopes on an institution that is hopeless. It turns out that only 4% of fund managers consistently beat the S&P 500 index over the long term, which means that 96% of fund investors see a smaller return on their nest egg than a chimpanzee who simply buys stocks in the 500 biggest companies in America and watches what happens. But it's worse than that. The net effect of hitching your wagon to mutual funds is that over a lifetime they'll fritter away as much 60% of your nest egg in fees. Once you understand how funds engineer this, you'll rush to invest on your own. Payback Time's risk-free approach is called “stockpiling” and it's how billionaires get rich in bad markets. It's a set of rules for investing (not trading but investing) in the right businesses at the right time -- rules that will ensure you make the big money.

CASHFLOW® Quadrant, der zweite Teil des Bestsellers "Rich Dad Poor Dad" von Robert T. Kiyosaki, deckt auf, warum manche Menschen weniger arbeiten, mehr Geld verdienen, weniger Steuern zahlen und sich finanziell sicherer fühlen als andere. Bill Gates, Steve Jobs und Richard Branson haben die Schule ohne Abschluss verlassen und haben dennoch extrem erfolgreiche Unternehmen aufgebaut, für die viele der intelligentesten Absolventen der Universitäten arbeiten wollen. Statt, wie die meisten Angestellten, nur von einem Job zum nächsten zu wechseln, rät Robert T. Kiyosaki, die finanzielle Unabhängigkeit zu suchen und Geld für sich arbeiten zu lassen – als Investor. Dieses Buch beantwortet die wichtigsten Fragen zur finanziellen Freiheit und hilft dabei, in einer Welt des immer stärkeren Wandels tiefgreifende berufliche und finanzielle Veränderungen vorzunehmen. Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich * Are you in credit card debt? * Is job security dead? * Is your financial security threatened? * Is a high-paying job the answer? * Is your money working for you? * Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

Even among the most elite performers, certain athletes stand out as a cut above the rest, able to outperform in clutch, game-deciding moments. These athletes prove that raw athletic ability doesn't necessarily translate to a superior on-field experience—its the

mental game that matters most. Sports participation—from the recreational to the collegiate Division I level—is at an all-time high. While the caliber of their games may differ, athletes at every level have one thing in common: the desire to excel. In The Champion's Mind, sports psychologist Jim Afremow, PhD, offers the same advice he uses with Olympians, Heisman Trophy winners, and professional athletes, including:

- How to get in a "zone," thrive on a team, and stay humble
- How to progress within a sport and sustain long-term excellence
- Customizable pre-performance routines to hit full power when the gun goes off or the puck is dropped

With hundreds of useful tips, breakthrough science, and cutting-edge workouts from the world's top trainers, *The Champion's Mind* will help you shape your body to ensure a longer, healthier, happier lifetime.

Winner of a 2015 Catholic Press Award: Gender Issues Category (First Place). In this first book from an openly lesbian and celibate Catholic, widely published writer and blogger Eve Tushnet recounts her spiritual and intellectual journey from liberal atheism to faithful Catholicism and shows how gay Catholics can love and be loved while adhering to Church teaching. Eve Tushnet was among the unlikeliest of converts. The only child of two atheist academics, Tushnet was a typical Yale undergraduate until the day she went out to poke fun at a gathering of philosophical debaters, who happened also to be Catholic. Instead of enjoying mocking what she termed the "zoo animals," she found herself engaged in intellectual conversation with them and, in a move that surprised even her, she soon converted to Catholicism. Already self-identifying as a lesbian, Tushnet searched for a third way in the seeming two-option system available to gay Catholics: reject Church teaching on homosexuality or reject the truth of your sexuality. Gay and Catholic: Accepting My Sexuality, Finding Community, Living My Faith is the fruit of Tushnet's searching: what she learned in studying Christian history and theology and her articulation of how gay Catholics can pour their love and need for connection into friendships, community, service, and artistic creation.

How do the rich get rich? An updated edition of the "remarkable" New York Times bestseller, based on two decades of research (see Washington Post). Most of the truly wealthy in the United States don't live in Beverly Hills or on Park Avenue. They live next door to the wealthy seldom get that way through an inheritance or an advanced degree. They bargain-shop for used cars, raise children frugally, and how rich their families are, and reject a lifestyle of flashy exhibitionism and competitive spending. In fact, the glamorous people you think of as "rich" are actually a tiny minority of America's truly wealthy citizens—and behave quite differently than the majority. Since its first publication, The Millionaire Next Door was a groundbreaking examination of America's rich—exposing for the first time the common qualities that appear over and over among this exclusive demographic. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In More Important Than Money, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 Rich Dad Advisor Series books.
