

Richard Scarrys Cars And Trucks And Things That Go

From bestselling and beloved author Todd Parr, a new book about all of the different ways that cars and trucks help people and have fun. Some trucks help on the farm. Some trucks help in the city. Some cars like to drive in the snow. And some cars like to drive to the beach. All cars and trucks LOVE to be on the ROAD! Todd Parr brings his trademark bright colors and bold lines to his new book about cars, trucks, and the occasional bus. In a fun collection of silly images, Todd explores all of the ways vehicles have an impact on our daily lives, while weaving in messages about positivity, the environment, and safety. Colonial Trauma is a path-breaking account of the psychosocial effects of colonial domination. Following the work of Frantz Fanon, Lazali draws on historical materials as well as her own clinical experience as a psychoanalyst to shed new light on the ways in which the history of colonization leaves its traces on contemporary postcolonial selves. Lazali found that many of her patients experienced difficulties that can only be explained as the effects of "colonial trauma" dating

from the French colonization of Algeria and the postcolonial period. Many French feel weighed down by a colonial history that they are aware of but which they have not experienced directly. Many Algerians are traumatized by the way that

the French colonial state imposed new names on people and the land, thereby severing the links with community, history, and genealogy and contributing to feelings of loss, abandonment, and injustice. Only by reconstructing this history and uncovering its consequences can we understand the impact of colonization and give individuals the tools to come to terms with their past. By demonstrating the power of psychoanalysis to illuminate the subjective dimension of

colonial domination, this book will be of great interest to anyone concerned with the long-term consequences of colonization and its aftermath.
