History that doesn't suck: Smart, crude, and hilariously relevant to modern life. Those who don't know history are doomed to repeat it. Too bad it's usually boring as sh*t. Enter The Captain, the ultimate storyteller who brings history to life (and to your life) in this hilarious, intelligent, brutally honest, and crude compendium to events that happened before any of us were born. The entries in this compulsively readable book bridge past and present with topics like getting ghosted, handling haters, and why dog owners rule (sorry, cat people). Along the way you'll get a glimpse of Edith Wharton's sex life, dating rituals in Ancient Greece, catfishing in 500 BC, medieval flirting techniques, and squad goals from Catherine the Great. You'll learn why losing yourself in a relationship will make you crazy--like Joanna of Castile, who went from accomplished badass to Joanna the Mad after obsessing over a guy known as Philip the Handsome. You'll discover how Resting Bitch Face has been embraced throughout history (so wear it proudly). And you'll see why it's never a good idea to f*ck with powerful women--from pirate queens to diehard suffragettes to Cleo-f*cking-patra. People in the past were just like us--so learn from life's losers and emulate the badasses. The Captain shows you how.

This book is for the true fan of James Cagney. Mr. Cagney tells his story as no one can...a message to the Black Youth. This is a compilation of individual essays written during the summer-fall of 1992. The essays are designed to inspire thought within the Black Mind. The writings are primarily targeted toward the Black Youth of this day, of which I am a part. I am not a Master of these teachings, but these teachings I wish to Master. They say that my generation is not intelligent enough to read a book. I say that They are wrong. It is just that they are not writing about anything of interest that is relevant to our lives! And when they write something, they have to write in the perfect King's English to impress their Harvard Professors! Here we are with a book in one hand, and a dictionary in the other, trying to understand what in the hell the author is talking about! If you have got something to say, say it! We are not impressed by your 27-letter words, or your Shakespearian style of writing. The Black Youth of today don't give a damn about Shakespeare!!! This ain't no damn poetry. We are dealing with the life, blood, and salvation of our entire Black Nation! If you want to reach the People, you have to embrace us where we are, and then take us where we need to go. So, these writings are from my generation and for my generation with respect and love. If you will teach, love and guide us, then we will teach love and guide ourselves. Peace.

This book is the fifth in the Cambridge Socio-Legal Group series and it concerns the evolving notions and practices of kinship in contemporary Britain and the interrelationship of kinship, law and social policy.

Assembling contributions from scholars in a range of disciplines, it examines social, legal, cultural and psychological questions related to kinship. Rising rates of divorce and of alternative modes of partnership have raised questions about the care and well-being of children, while increasing longevity and mobility, together with lower birth rates and changes in our economic circumstances, have led to a reconsideration of duties and responsibilities towards the care of elderly people. In addition, globalisation trends and international flows of migrants and refugees have confronted us with alternative constructions of kinship and with the challenges of maintaining kinship ties transnationally. Finally, new developments in genetics research and the growing use of assisted reproductive technologies may raise questions about our notions of kinship and of kin rights and responsibilities. The book explores these changes from various perspectives and draws on theoretical and empirical data to describe practices of kinship in contemporary Britain.

Chop Suey, USA

American diners began to flock to Chinese restaurants more than a century ago, making Chinese food the first mass-consumed cuisine in the United States. By 1980, it had become the country's most popular ethnic cuisine. Chop Suey, USA offers the first comprehensive interpretation of the rise of Chinese food, revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption. Engineered by a politically disenfranchised, numerically small, and economically exploited group, Chinese food's tour de America is an epic story of global cultural encounter. It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle. Americans fell in love with Chinese food not because of its gastronomic excellence but because of its affordability and convenience, which is why they preferred the quick and simple dishes of China while shunning its haute cuisine. Epitomized by chop suey, American Chinese food was a forerunner of McDonald's, democratizing the once-exclusive dining-out experience for such groups as marginalized Anglos, African Americans, and Jews. The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance. Barred from many occupations, Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market, creating a critical lifeline for their community. Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery. They streamlined certain Chinese dishes, such as chop suey and egg foo young, turning them into nationally recognized brand names.

Black Americans Who Shook Up the World

Is secularism a positive force in the modern world? Or does it lead to fragmentation and disintegration? In *Saving Leonardo*, best-selling award-winning author Nancy Pearcey (Total Truth, coauthor *How Now Shall We Live?*) makes a compelling case that secularism is destructive and dehumanizing. Pearcey depicts the revolutionary thinkers and artists, the ideas and events, leading step by step to the unleashing of secular worldviews that undermine human dignity and liberty. She crafts a fresh approach that exposes the real-world impact of ideas in philosophy, science, art, literature, and film--voices that surround us in the classroom, in the movie theater, and in our living rooms. A former agnostic, Pearcey offers a persuasive case for historic Christianity as a holistic and humane alternative. She equips readers to counter the life-denying worldviews that are radically restructuring society and pervading our daily lives. Whether you are a devoted Christian, determined secularist, or don't know quite where you stand, reading *Saving Leonardo* will unsettle established views and topple ideological idols. Includes more than 100 art reproductions and illustrations that bring the book's themes to life. Praise for *Saving Leonardo*: "A feast for the mind and for the eye. Nancy Pearcey not only is a trustworthy guide for a nuanced discussion on the relationship between culture and the gospel, but she is a gifted teacher as well . . . *Saving Leonardo* is a rare, precious gift to the churches and universities alike." Makoto Fujimura, artist and author of *Refractions: A Journey of Faith, Art, and Culture* "Nancy Pearcey has done it again and better than ever. She has taken the complex sophistication of the best cultural analysis and laid it out for any person to grasp, enjoy and use to live out their daily lives honoring Christ. An astounding accomplishment!" James W. Sire, author of *The Universe Next Door* "G. K. Chesterton said 'the danger when Men stop believing in God is not that they'll believe in nothing; but that they will believe in anything.' Nancy Pearcey understands where believing in anything leads and in this book she reveals where a secular philosophy is taking us. A balanced, fair, and impacting work!" Cal Thomas, syndicated and USA Today columnist "Nancy Pearcey helps a new generation of evangelicals to understand the worldview challenges we now face and to develop an intelligent and articulate Christian understanding . . . *Saving Leonardo* should be put in the hands of all those who should always be ready to give an answer--and that means all of us." R. Albert Mohler, Jr., president, The Southern Baptist Theological Seminary "Nancy Pearcey is an intellectual prophet in our day and one of Evangelicalism's foremost cultural observers. *Saving Leonardo* is a tour de force. In it, Pearcey provides a penetrating analysis of the nature of contemporary secularism, a helpful exposition of how we got to the present situation, and a well-crafted strategy for changing the situation. This is her best effort yet . . . a must read." J. P. Moreland, distinguished professor of Philosophy, Biola University and author of *The God Question* "Nancy Pearcey is unsurpassed in the current generation of Christian thinkers . . . The magic continues with this book. Pearcey's virtues as a writer and thinker are once again fully evident in the range of material that she has mastered, the encyclopedic collection of data that she presents, and the analytic rigor with which she

separates truth from error in worldviews. She is a prophetic voice for contemporary Christians." Leland Ryken, Clyde S. Kilby professor of English, Wheaton College
"Brilliant . . . The book brings complex, abstract ideas down-to-earth -- or rather, down-to-life. . . . Saving Leonardo bridges the gaps between the arts and the sciences, the theoretical and the practical. The book not only argues for the unity of Christian truth but exemplifies that unity and shows it in action." Gene Edward Veith, provost, Patrick Henry College

An icon of British national identity and one of the most widely performed twentieth-century composers, Ralph Vaughan Williams has been as much misunderstood as revered; his international impact and enduring influence on areas as diverse as church music, film scores and popular music has been insufficiently appreciated. This volume brings together a team of leading scholars, examining all areas of the composer's output from new perspectives, and re-evaluating the cultural politics of his lifelong advocacy for the music-making of ordinary people. Surveys of major genres are complemented by chapters exploring such topics as the composer's relationship with the BBC and his studies with Ravel; uniquely, the book also includes specially commissioned interviews with major living composers Peter Maxwell Davies, Piers Hellawell, Nicola Lefanu and Anthony Payne. The Companion is a vital resource for all those interested in this pivotal figure of modern music.

The largest of the islands that make up the greater Hong Kong area, Lantau remains decidedly separate from the urban sprawl of Hong Kong island and the Kowloon peninsula, boasting a wide array of native animals and plants as well as numerous longterm "visitors," such as a monk born in Fujian in 1897, an artisan guitar maker, traditional Chinese medical practitioners, and English botanists and graphic designers. Driving Lantau documents these lives and reconstructs various perspectives of the island over the past half century, from the effect of wars and waves of immigrants to marauding pirates and the introduction of Disneyland.

The memoir of a man and woman who escaped into the forest, joined the Jewish partisans—and fell in love—as Hitler laid waste to their Polish hometowns. Jack and Rochelle first met at a youth dance in Poland before the war. They shared one dance, and Jack stepped on Rochelle's shoes. She was unimpressed. When the Nazis invaded eastern Poland in 1941, both Jack (in the town of Mir) and Rochelle (in the town of Stolpce) witnessed the horrors of ghettoization, forced labor, and mass killings that decimated their families. Jack and Rochelle managed, in their separate ways, to escape into the forest. They reunited, against all odds, in the winter of 1942–43 and became Jewish partisans who fought back against the Nazis. The couple's careful courtship soon blossomed into an enduring love that sustained them through the raging hatred of the Holocaust and the destruction of the lives they had known. Jack and Rochelle's story, told in their own voices through extensive interviews with their son, Lawrence, has been in print for twenty years and is celebrated as a classic of Holocaust memoir literature. This is the first electronic edition. "A story of heroism and of touching romance in a time of fear and danger." —USA Today
